FIRST POGROM ON GERMAN SOIL AT NUERNBERG

Munich, Nov. 3 (Jewish Telegraphic Agency). The first actual pogrom on German soil occurred in Nuernberg yesterday when an infuriated mob attacked Jewish residents, fatally wounding four well-known citizens of the Jewish faith. Shots owned by Jews were plundered to an extent which makes it difficult to estimate the damages.

Panic among the Jews continues as placards and circulars are still in evidence calling on the population to "strike down the Jews like dogs",

The town council met in extraordinary session to protest to the authorities for having failed to take precautions to avert the pogrom which, in the present excitement, was not to be unexpected.

JEWISH EXPULSIONS FROM BAVARIA DECRIED IN VIENNA BERLIN MADRID
WARSAW

League of Nations Requested to Intervene.

Vienna, Nov. 5 (Jewish Telegraphic Agency). The Austrian Consul at Munich has been instructed by Foreign Minister Gruenburger to file a protest with Dictator von Kahr of Bavaria against the expulsion from that province of Jews of Austrian citizenship, the Jewish Telegraphic Agency learns. The Consul was empowered to state to the Bavarian authorities that Austria will expel Bavarians if the exile of Austrian citizens from Bavaria continues.

Following the visit of a Jewish deputation to the German Minister in Vienna, Minister Pfeiffer communicated by telephone with Berlin pointing out the possible international complications involved in the exile of Austrian citizens from Bavaria.

It is learned also that the Spanish Minister at Munich intervened in behalf of the deportees, lodging his protest in the name of several of the European Powers.

The League of Nations has been asked by the Committee of Jewish Delegations to interfere in the wholesale deportation of Jews.

The Foreign Minister here states that the expulsion of Austrian Jews from Bavaria has been stopped and that those expelled had been permitted to return.

November 5, 1923

" YOU WILL DEPORT MY JEWS I WILL DEPORT YOURS"

Poland Threatens to Expel Bavarian Jews If Bavaria Continues To Exile Polish Jews.

Warsaw, November 5 (Jewish Telegraphic Agency). The Polish Consul at Munich has been instructed to protest against the expulsion from Bavaria of Jews who are Polish citizens. The Polish Government, it is understood, threatened Dictator von Kahr with reprisals, declaring that Bavarian citizens living in Poland will be deported unless Bavaria halts the expulsion of Polish citizens.

URGE JEWISH BOYCOTT OF BAVARIA

Warsaw, November 5 (Jewish Telegraphic Agency). The formation of a committee of Jewish professionals and business men to boycott Bavarian resorts and products is urged by a section of the Jewish press here.

It is pointed out that many well-to-do Polish Jews were in the habit of frequenting the famous Bavarian watering places of Kissingen and Reichenhalle.

MUNICH JEWS FEAR POGROMS

Police and Military in Colusion with Hakenkreuzler.

Munich, November 5 (Jewish Telegraphic Agency). Never in the history of Germany has the peril of pogroms hung over the heads of the Jewish population as it does now. Jewish bloodshed may be expected any day in Bavaria. The country swarms with uniformed and armed Hakenkreuzler who are openly fraternizing with the army and police. In the event of trouble the police and military powers would probably side with the trouble makers.

The press is exclusively anti-Semitic, all Socialist and liberal newspapers having been suppressed.

Serious disorders have occurred not only in Nuernberg, where four Jews were fatally wounded, but at Kissingen, Bamberg, Kronach and right here in Munich.

In their anti-Jewish campaign Hitlerists are making use of extremist measures in fanning the anti-Jewish flame with the aid of the notorious ritual murder libel. At the Hitler headquarters a picture of Jews in the act of committing ritual murder upon a naked Christian girl is displayed and Fascisti leaders declare they are prepared to prove the Jewish practice of ritual murder.

Those who looked for improvement in the situation in consequence of the reported enstrangement between Dictator von Kahr and Hitler are doomed to disappointment. Von Kahr has declared there are no differences between him and the Fascisti leader as both are pursuing the same aim through different methods.

The police statements that the expulsions are not limited exclusively to Jews notwithstanding, there has been only one non-Jew ordered deported, a Czecho-Slovak citizen named Czihak. The order for his deportation has been withdrawn, however.

Searches of Jewish homes continue, the finding of a few suits of clothes or some pieces of Jewelry being enough to brand the owner as a profiteer. There is a case on record of one who was found to possess some Austrian kronen, two American dollars and a German loan certificate, the total value of which was less than ten pounds. He has been expelled as a currency hoarder. The formula for deportation is supposed to apply to those who settled in Bavaria and enriched themselves at the expense of the population thereby becoming economically undesirable. The police interpretation put upon this formula has been made to apply in the case of a cigarette manufacturer, Bernhard Ass, who within twenty years built up a large plant employing hundreds of workers. "Economically undesirable" also is Isador Fett, the creator of the film industry employing thousands of persons.

LUENDORFF AND HITLER DECLARE WAR ON JEWS

Berlin, Nov. 5 (J. T.A.) General Ludendorff and the Fascist leader Herr Hitler have declared war on the Jews of Germany. The Prussian Generalissimo has published an article in the leading Nationalist papers throughout Germany in which he urges that the example and goal of the Nationalistic movement is the old German army as it was created by the Hohenzollern with its "drill, strong fist and sharp sword". The General enumerates the inner and outer enemies to be fought by the Nationalists as soon as they came into power. The inner enemies, according to him, are Communism, pacifism, Marxism, Particularism, Separatism, parliamentism and Jews.

Ludendorff pays his special respects to the Jewish people to whom he refers as parasites on the German body politic.

Hitler, in the first public speech since the von Kahr regime has stated "the German problem is only then solved in my eyes when the black, white and red flag with the anti-Semitic swastika cross waves from the roof ~~xxx~~ of the Berlin castle.

SAYS BRITAIN'S PLEDGES TO ARABS AND JEWS WERE "FAULTY".

Sir Martin Conway, M.P. Appeals to Jews For Slow Hard Work to Re-gain Palestine.

London, Nov. 5 (J. T.A.). Sir Martin Conway, a member of Parliament, lecturing last night before the Anglo Palestine Club, urged the Zionists to put in slow and hard work in the attainment of great results that are possible. James de Rothschild presided.

NOVEMBER 5, 1923

It is always easier to regret the past than to appreciate the present, Sir Martin declared. Jews may still look forward to the future confident that the East will again radiate splendor for the world.

Sir Martin blamed the difficulties of the Arabs and the Jews on the British pledges that were made to both. The Balfour Declaration was emphatically accepted by the allies and also by Feisul in behalf of the Arabs. The pledge was discussed, deliberated and considered before it was given. The Arab pledge, on the other hand, was given casually, with no lengthy negotiations and no approval of the Powers. Both pledges were acts of war. Now, after the war, the situation demands careful management and Britain has a right to expect more from the advanced Jews than from the backward Arabs.

Continuing, Sir Martin said that despite the "unfortunate position" in which Zionists had been placed, Zionist leaders can be relied upon to overcome the difficulties created by the "faulty pledges" made during the war.

The speaker urged protection for Jewish capital, emphasizing that security was necessary if capital was to be poured into Palestine. Sooner or later, he said, Jews and Arabs will be united in a common bond. For the present, the danger was that Zionist enthusiasm might slacken because of the present disappointment. What is necessary is the faith that great results will not be attained in a day, a week, a year, a decade, but only slowly, and through hard work.

STRANDED JEWISH WANDERERS ARE VICTIMS OF QUOTA

Paris, Nov. 5 (J. T. A.) Thousands of Jewish emigrants are in indescribable distress through the operation of the immigration quota law in the United States.

The majority of the distressed wanderers have been hit hard through the exhaustion of November 1st of the Russian quota. At Cherbourg alone 700 emigrants are gathered unable to proceed to America. There are among them 400 Palestinians and Russians who have just learned that the Russian quota is exhausted not to be reopened before July, 1924. Unable to remain where they are, they may not continue on their way to America and cannot for the most part return whence they came.

Part of the blame necessarily attaches itself to the agents of the steamship companies who did not seem to have been informed of the state of the quota and encouraged the wanderers to proceed.
