Dr. Julius Gombozes, one of the outstanding leaders in the anti-Semitic movement, compromised in the counterfeiting plot, boldly challenged the Prime Minister, charging him with ingratitude. Aeronautics and the Jewish Suffering in Europe
Criticism of Daniel and Simon Guggenheim, copper magnates, the former of whom recently established the $500,000 School for Aeronautics and the latter of whom the $3,000,000 Scholarship Foundation, for the distressful condition of the East European Jews and the reconstruction needs of Palestine, is voiced by the "Juedische Zeitung" of Breslau.

 Everywhere an effort is being made by a paper writes, to create better and more dignified conditions of life for Jewry. For Palestine, for instance, there was raised through heroic exertions in the last five years the sum of 2,44 million dollars, which in round figures equals one-fourth of this sum.

The philanthropy of Jews is not always Jewish philanthropy. The proud desire of others is to give the best in their power to their own people. The pride of the Jew, however, is frequently gratified by giving to others for the expected privilege of being accepted in their society. So long as this phase of the development of Jewry in the 19th century has not disappeared Jewish philanthropists will be ready enough to place the sciences of aeronautics above the distress of their fellow-Jews.

88 and 89
Immigration students in this country are better informed on "general-information" subjects than native students, according to the results obtained from a questionnaire submitted by the "New Republic" to 50 students in a large American University. Commenting on this, the New York "World" of April 10 observes:

"The best score, 98 per cent, was made by a student of Slavic descent; the next by an Italian; the highest grade by a native American was 89. Possibly one reason why Europeans still beat us at many intellecual games is that, couched in a language that is not immeasurably rich, young American students find it more easily. And possibly if the young collegians had made up a questionnaire to suit themselves they would have shown astonishing erudition about football records and the Charleston."
PRES. COOLIDGE RECEIVES DELEGATION OF HAKOH (Jewish Daily Bulletin) Washington, Apr. 10.—President Coolidge received today the three delegates of the Hakolah Club of Vienna, which is sending a soccer team to this country for a series of matches. The delegates are: Mr. Ignace Koerner, president and founder of the organization in 1907, Dr. Julius Krausz and Dr. Albert Magaz.

The delegates related to the President the purposes and aims of the Hakolah club, which traces its origin to the formation of the Jewish Institute of Physical Culture in the United States. The club was formed primarily for the physical development of the young Jews of Europe, and the fact that its representatives won European championships is only incidental, the delegates stated. The men became frank on the question of whether they won European titles in soccer, wrestling, swimming and field hockey.

Joseph McKee, president of the Board of Aldermen, has promised the whole-hearted support to Mr. McKee's invitation to the Polo Grounds on Sunday, April 25, to see the soccer game between the Hakolah Club of Vienna, and a picked eleven from the New York State Football Association.

UNITED STATES RABBI MAY OFFICIATE AT CANADIAN MARRIAGES, COURT RULES (Jewish Daily Bulletin) Montreal, Apr. 10.—Marriages of Jews performed by duly appointed rabbis of recognized congregations cannot be set aside solely on the ground that the officiating rabbi was not a British subject, according to a judgment handed down by Justice Declos in the Superior Court.

The question arose when Isidore Kahn sought annulment of his marriage to Dame Mildred Ronson, which was performed by Rabbi Herman Abramowitz, a citizen of the United States, and Rabbi of the largest and most influential synagogue in Montreal.

The plaintiff sought to have his marriage annulled on the ground that the officiating Rabbi, not being a British subject, was incompetent to solemnize the marriage.
