ANTI-SEMITES NUMERUS  
CLAUSUS LAW IS INTACT**

**Hungarian Minister Replies to Memorandum of Anti-Semite Students**

(Jewish Telegraphic Agency)

Budapest, Sept. 28.—Anti-Semitic leaders in Hungary were reassured yesterday by Count Klebelsberg, Minister of Education, with regard to the numerus clausus.

The Minister published a reply to the memorandum of the anti-Semitic student Race Purifiers complaining against the recent modifications of the numerus clausus law.

It is not true, the Minister wrote, that the Hungarian government plans to set aside the numerus clausus. As to the modification providing that the numerus clausus is not applicable to baptized Jews, the Minister states that the faculties will inquire into each particular case of a baptized Jewish student applying for admission to the universities, so that the numerus clausus will not be evaded by a mass baptism of Jewish students.

Sir Sassoon David was born in Bombay in December 1849. He was the son of J. David, prominent member of the Jewish community and one of the first to come to Bombay. He married Hannah Sassoon, niece of the late Sir Albert Sassoon.

He joined the firm of E. D. Sassoon and Company doing business in China and Bombay. In 1885 he started his own firm and became agent of the David and Standard Mills. He was the founder of the firm of Sassoon J. David & Co., Ltd. of which he was the head.

Warsaw, Sept. 28.—The Bartel cabinet, including Minister of Education Sojkowski and Minister of the Interior, Professor Lodlianowski, in whom the Sejm voted lack of confidence, was reinstated by President Moscicki.

A mood of depression was apparent in parliamentary circles when the president's action became known. It is stated that at Thursday's session of the Sejm, the parties will again vote lack of confidence, this time in the entire cabinet, following which the only solution will be the dissolution of the Sejm and the holding of new elections.

**Prof. Kammerer's Jewish Origin Prevented His Attaining Professorship**

(Jewish Telegraphic Agency)

Vienna, Sept. 28.—The suicide of Dr. Paul Kammerer, noted Austrian biologist, was traced to the anti-Semitic attitude maintained in the Austrian colleges.

Friends of the late scientist disclosed today that Kammerer was despondent because of the fact that the Vienna university had refused to grant him a professorship because he was not of purely Aryan origin, his mother having been Jewish.

Dr. Kammerer belonged to the unorthodox school of science of which his friend, Professor Eugene Steinach, was one of the leading representatives. The orthodox scientific circles did not accept his theories, frowned on his socialism, opposed his aim of popularizing scientific knowledge, and for these reasons prevented fulfillment of his dream of becoming a professor in Vienna.

Last year Dr. Kammerer accepted a position as Professor of Biology in Moscow University. He returned to purchase equipment in Vienna and killed himself when the time came for him to return to Moscow. He left his rich library to the University of Moscow and his body to the Vienna Anatomical School.

The best known work of Dr. Kammerer is "The Law of Series" in which he sought to explain why one disaster such as a wreck, is usually followed by a series. He was generally interested in the study of the workings of chance and the mechanism of evolution.

The press of Vienna paid warm tribute to Dr. Kammerer, lamenting that Vienna's scholars are no longer able to gain a livelihood here.

The previous government established the Council with the support of the Agudath Israel elements of Lithuania.

The Hebrew Culture Congress, which opened here yesterday, is, it was declared here today, an impressive demonstration of the growth of the Hebrew movement in Lithuania. Three hundred delegates are attending the conference.

Dr. Robinson, member of the Lithuanian Sejm, stated in his address before the Congress that in case the cabinet will oppose the Hebrew school system in the country, the Club of Jewish Deputies will oppose the cabinet.

Geneva, Sept. 28.—Lord Robert Cecil, British representative to the Seventh Assembly of the League of Nations, issued a statement here yesterday to the press on the differences of opinion between the League Council and the Permanent Mandates Commission following the action of the League to support the Commission.

In his statement, Lord Cecil declares that the criticism directed against the Permanent Mandates Commission was merely a warning against the possibility of the Mandates Commission exceeding its powers. In reality, the Permanent Mandates Commission was not the object of any criticism. Its work and its attitude were warmly appreciated, but it was necessary to call the attention of the members of the Mandates Commission to the difficulties which might arise in certain circumstances which would make the position of the Mandates Commission more delicate and more difficult.

### ECONOMIC CRISIS WILL HAVE BENEFICIAL RESULTS FOR PALESTINE, DELPHINER SAYS

Unsound Economic Factors Will Be  
Removed While Sound Ones Will  
Be Preserved, He Asserts

The opinion that the present economic crisis in Palestine will have beneficial results for the country was expressed by Max Delphiner, Viennese industrialist and owner of the Tel Aviv silk factory, who arrived in New York several days ago.

The crisis in Palestine is just like a crisis on Wall Street. It is well for the sound bonds and shares which are increasing in value on Wall Street that they should fall from time to time. Due to the crisis the unsound in Palestine will be removed and the sound will become sounder, he declared, when interviewed by the representative of the "Jewish Daily Bulletin."

Mr. Delphiner, who is the first Jewish industrialist to make investments in Palestine industry on a large scale, expressed his great confidence in the future of the silk industry there.

The industrial prospects for Palestine are indeed very bright and the prospects for the silk industry are much brighter. There are great possibilities for exporting silk to the neighboring countries and there are raw materials to develop the industry. The average Jew cannot properly estimate the possibilities for this development, he said.

The Palestine government, Mr. Delphiner continued, has now removed the custom duties on raw material necessary in the textile industry. This gives greater opportunity for the development of industrial enterprises.

As to the labor problem, it must be stated that the Jewish workers in Palestine need not be criticized. They are not Communists nor socialists nor orthodox, but they are idealists, men and women devoted to the single task of upbuilding the Jewish national home. This is a very important factor which increases the prospects for the

### NEW YORKER ENDOWS JUDAICA DEPARTMENT OF JERUSALEM LIBRARY

An agreement to maintain and extend the Department of Judaica of the Jewish National and University Library in Palestine, has been made by Emanuel Hertz of New York to Mrs. Sophie A. Udin, special representative of the library, now in this country. Mr. Hertz's pledge involves furnishing funds for the upkeep of the physical requirements of the Department, including the rental and salary of the special librarian, as well as additional funds for the yearly expansion of the Department.

The Department of Judaica is the most important branch of the Library which is attached to the Hebrew University at Jerusalem. The shelves of this department already include a collection amounting to 45,000 volumes, among them works of rare interest, such as incunabula, manuscripts, complete files of periodicals of Jewish interest, as well as a comprehensive collection of books on Jewish history. The volumes to be added are expected to make this department the most complete of its kind in the world.

Mr. Hertz, who is the brother of Chief Rabbi Joseph Hertz of England, is a New York attorney who has been interested in the cultural activities in connection with the rebuilding of Palestine for many years and recently contributed a collection of 7,000 volumes to the library.

### OFFICIAL DISMISSED FOR FAILURE TO STOP RITUAL MURDER AGITATION

(Jewish Telegraphic Agency)

Warsaw, Sept. 28.—The district governor of Wolbrzeg was dismissed from his position by an order of the Polish Minister of the Interior yesterday.

The governor was charged with failure to take steps to stop the anti-Jewish excesses during the recent ritual murder tale agitation which developed in the town of Dobrzyń because of the death of a gypsy child, Julia Goman.

### BOYCOTT PROPAGANDA EXTENDED TO POMERANIA

(Jewish Telegraphic Agency)

Thorn, Pomerania, Poland, Sept. 28.—The activity of the Rozwój, the organization carrying on anti-Jewish boycott propaganda, was extended to Pomerania when a branch of the organization was opened here.

The Rozwój branch announced that the purpose of its activities will be to prevent the arrival in Pomerania of Jewish merchants from other parts of the Republic, and their participation in activities here.

future development of Jewish industries in the country.

Mr. Delphiner, who came to the United States in the interests of his silk factory in Tel Aviv, will spend several months here. He hopes to interest other Jewish capitalists of America to invest in Palestine industries. A luncheon was given in his honor on Monday at Charles Restaurant by the Zionist Council of Greater New York.

### American Zionists Will Support Weizmann in Jewish Agency Extension

That the plan for the extension of the Jewish Agency to include the non-Zionists has not been abandoned and that the American Zionists will give Dr. Weizmann their full support in this task on his forthcoming visit to the United States, is the statement made by "Dos Yiddishe Folk," official organ of the Zionist Organization of America. In its issue of Sept. 28 "Dos Yiddishe Folk" writes:

"It has become habitual of late, even in the Zionist press, to speak of the Jewish Agency plan as of something hopeless. This opinion is absolutely false. The Jewish Agency idea lives in the Zionist movement, and is ceaselessly striving to attain this or that form of realization. The Agency plan is not a product of a casual notion, it is a product of Zionist reality. The positive decision of the last Zionist Congress regarding the Jewish Agency is still alive and in full force. It is a mandate through which the Congress authorized the Zionist Organization to act and we are all bound by this mandate. Those who believe that, because of the controversies which have arisen in the course of the last year owing to the Crimea colonization, the Jewish Agency plan has disappeared from the program or has seriously been weakened, have put a false interpretation on the situation. We take this opportunity to emphasize again the falsehood of the opinion that American Zionism is combating the Russian Colonization as a relief measure. Our fight is directed only against the misleading and groundless Yevsektsia 'redemption ideology' which is unscrupulously employing the Colonization plan as a weapon against the reconstruction of Palestine. Our fight, however, has no relation to those elements in America and in Europe who see in the relief work a necessary general-Jewish activity everywhere, in the Golan and in Palestine. From this point of view Palestine is a splendid work-field for relief and reconstruction for all Jews who are willing honestly and conscientiously to fulfill their duty to our people at the present time. In this respect the attitude of the American Zionists needs no better manifestation than the unanimous decision of the National Executive to give its full cooperation and its heartiest support to the aims and purposes of Dr. Chaim Weizmann's forthcoming visit. In his effort to convert the Jewish Agency

### PALESTINE LEGISLATIVE COUNCIL NEGOTIATIONS REPORTED TO BE BROKEN OFF

(Jewish Telegraphic Agency Mail Service)  
Jerusalem, Sept. 7.—A hitch in the negotiations reported to have been taking place between the Government and certain Arab notables for the establishment of a Legislative Council in Palestine is said by the "Falastin," the official organ of the Palestine Arab Executive, to have occurred with the result that the negotiations have been broken off.

The "Falastin" demands that the notables should now make public the details of the negotiations and all documents connected with them. One of the notables who has been approached by the paper for this purpose, it states, refused to give any information on the ground that the negotiations were confidential and that they must not be made public. The paper urges both parties to publish the full facts and threatens that if they do not do so, it will publish the information which it has obtained, without respect for the Government or the Arab negotiators.

### The Jewish Hero of Miami

The story of the sexton of the Beth David Synagogue in Miami, who braved the storm at the risk of his own life in order to rescue the Holy Scrolls, is compared by the "Jewish Morning Journal" of Sept. 26 to the story of the sexton in a Kishineff synagogue who was killed in the performance of a similar act during the tragically famous Kishineff pogrom.

"The symbol of devotion and self-sacrifice," the paper writes, "is to be observed in the American shames (sexton) no less than in the Russian. . . . We must all admire the heroism and the determination to risk one's life for something that is regarded as sacred. That is the kind of courage which helps us to live until we see the downfall of such murderers as the Kishineff pogromists and to contribute to the reconstruction of the Florida ruins."

### Wise Choosers

The opinion that the Jewish immigrants in America have been wise in choosing city life in the vast majority, is expressed by the Cleveland "News," which remarks editorially:

"Since our Jewish population is so largely urban, it may be regarded also as testimony that city life is highly advantageous. The testimony is both impartial and expert. Exceptionally free from attachment to old countries, Jews are exceptionally free to choose new places of residence on merit alone. That they are wise choosers is fully apparent in their distinguished success in commerce, industry, finance and various arts."

A five day industrial week was introduced by Henry Ford in his plant. The workers will be paid on the basis of five days of work. Merit bonus service will be rewarded by an additional day's pay, it was stated.

### FUND FOR PROMOTION OF ORANGE GROWING IN PALESTINE SET ASIDE

(Jewish Telegraphic Agency Mail Service)  
Jerusalem, Sept. 2.—The sum of £20,000 has been set aside by the Palestine Corporation, Ltd., for the establishment of a mortgage credit institution for the purpose of advancing credit loans to Jewish and Arab orange growers. It is intended with this sum to develop an area of about 700 dunam of land.

The Palestine Corporation aims at assisting established farmers who have recently gone into orange growing, as well as established orange growers. The Corporation intends to release larger sums for additional loans in this new field of activity. It is estimated that 5,000 dunams of land were acquired during the past year to be developed as orange groves, of which about one-fifth has been acquired by persons newly arriving in the country without experience in agriculture or orange growing.

In the absence of such Government assistance as is rendered in South Africa by the Land and Agricultural Bank, the Corporation has decided to step in, believing that the importance of orange growing to the country cannot be over-estimated. Oranges have reached the high percentage of 40.8% of the total exports of Palestine, as compared with 25-30% of other agricultural produce, which has remained more or less stationary for a number of years. At present some 30,000 dunams of land are under orange cultivation, of which 12,000 dunams belong to Jews.

The area of 3,000 dunams acquired by the Palestine Jewish Colonization Association last year is to be partly cultivated. 1,509 dunams are to be planted with orange groves for the youths of Rishon-le-Zion and Ness-Ziona at the rate of 25 dunams per family. Pica tractors are now ploughing the land, and cultivation is to commence shortly.

The Arab Chamber of Commerce in Jaffa reports that the area of orange groves in Palestine is now 18,000 dunam. Prior to the war the orange crop amounted approximately to 1,750,000 boxes, but this was decreased after the war owing to the destruction of some of the orange-groves. Now the crop has prospered, and there are approximately 2,000,000 boxes annually. 18,000 workmen are engaged in the annual harvest.

The melon crop is sold at from £20,000 to £30,000. The season is from June to September.

Hitherto unknown musical compositions of Jacques Offenbach, written during his youth, are included in a collection of original manuscripts of Isaac and Jacques Offenbach, which has just been presented to the library of the Jewish Institute of Religion, 40 West Sixty-eighth Street. The donors were Miss Isabella Offenbach-Grawert and Mrs. Redlich, grandchildren of Isaac Offenbach.

East Side barbers, meeting Sunday in the Downtown Chamber of Commerce Building, prepared to test the constitutionality of the Sunday closing law.

### FALSE RUMORS OF POGROM IN JERUSALEM ON ROSH HANSHANAH SPREAD IN WARSAW

(Jewish Telegraphic Agency Mail Service)  
Warsaw, Sept. 14.—The Second Day of Rosh Hashanah was one of tremendous excitement for the Jews of Warsaw by reason of the publication of a report issued by the Polish Telegraphic Agency dated from Jerusalem stating that a pogrom had taken place in Jerusalem on the First Day of Rosh Hashanah, that Jews had been attacked by Arabs, and three Jews had been killed and many seriously wounded. The police had with great difficulty restored order, the report stated.

On Saturday night when the Jewish papers of Warsaw were going to press, their editorial offices were besieged by crowds of Jews anxious for further particulars of the alleged pogroms in Jerusalem. Tens of thousands of Jews in Warsaw and other parts of Poland have relatives in Palestine and were anxious to know what had happened, apart from their interest in the general safeguarding of public order in Palestine. They wanted details, the names of the killed and wounded, for fear lest their own relatives might be among the wounded.

Cables were sent to the Jewish Telegraphic Agency offices in London, Berlin and Jerusalem; to the Zionist Organization Headquarters in London and Jerusalem and to private persons in Palestine, by the Jewish Press, Zionist institutions and private individuals, asking for further particulars. No one thought that the whole story might be invented.

The Berlin office of the J. T. A. cabled to Warsaw that neither the Wolff Official Telegraphic Agency, nor any of the German dailies with representatives in Jerusalem had received any information of such disturbances in Jerusalem. A similar reply was received from the J. T. A. office in London. The Palestine Office of the J. T. A. cabled that no disturbances had taken place. The Warsaw J. T. A. office supplied these denials to the Polish Jewish press and on Sunday morning the newspapers carried the denials and somewhat calmed the feeling among the Jewish population.

The report appears to have emanated from London in a message issued in Berlin by the United Press and repeated by the Polish Telegraphic Agency giving the source, however, as if the message had been received direct from Jerusalem.

Funeral services for the late Jacob Rosenthal of Woodmere, L. I., who was killed by bandits near Cuernavaca, Mexico, on Sept. 7, were held Sunday at the Masonic Temple in Far Rockaway, L. I. More than 1,000 persons passed the coffin; about 2,500 were unable to enter the Temple.

Masonic services were also held. They were conducted by Past Master I. De Grott and Master Sidney Nordlinger of Almyria, 808, and Island City, 586, F. and A. M.

After the services at the Masonic Temple the body was borne to Temple Beth-El, where the funeral procession stopped a few minutes. Five motorcycle policemen under Sergeant Bert Douglass and extra details of patrolmen under Captain Thomas Myers held back the crowds.

The pallbearers included Magistrate Leon Saunders, Edward Spector, President of Temple Beth-El; Charles Schildkraut, Arthur Kalinsky, Irving Ussiker, Moses Berlin, A. R. Saron, Joseph M. Kaimanoff, Charles A. Fulcher and James J. Loit. Interment was in Salem Fields Cemetery, Cypress Hills, Brooklyn, N. Y.
