JEWISH COMMUNITY FILES COMPLAINT AT CATHOLIC PRIEST'S PROPAGANDA

Anti-Jewish Outbreaks Feared as Result of Venomous Sermons
(Jewish Telegraphic Agency)

Lemberg, May 3.—A bitter complaint against a Catholic priest who is spreading racial and religious hatred in the town of Wolomichawa, Galicia, was submitted by the Jewish community of that town to the Club of Jewish Deputies. The appeal was addressed to Deputy Frostig and declares that a young Ukrainian priest who has been in the town for two years has been agitating a boycott against the Jews since his arrival there.

He delivers sermons inciting the population against the Jews and threatens reprisals to anyone buying from or selling to Jews. He opened a cooperative with himself as director, where all Christians are compelled to buy. He placed a blacklist outside the church, giving the names of all those who had dealt with Jews.

The Jewish population in Wolomichawa fears an outbreak unless the priest is removed, they state in their complaint to the Jewish Deputies.

JEWISH POPULATION IN WARSAW PREPARING FOR MUNICIPAL ELECTIONS

Agudath Israel Leaders Meet With Opposition on Bloc Issue
(Jewish Telegraphic Agency)

Warsaw, May 3.—The campaign for the forthcoming municipal elections is already in full swing here. In a statement issued yesterday, Z. Bychowski, one of the leaders of the bloc of national Jewish parties, declared that the bloc will strive to elect a large number of Jewish members to the Warsaw City Council, which will enable the election of a Jew as vice-president of the Council. This would greatly benefit the Jewish population in Poland's capital, he stated.

The leaders of the Agudath Israel, the Orthodox organization which has joined the bloc, have met with opposition within its own ranks on account of their joining the bloc. The Agudath Israel has issued an appeal to the Orthodox Youth Association, urging its members to campaign for the bloc. At a meeting of the Association held yesterday, it was decided, following a heated debate, to refrain from participating in the campaign.

JUDGE ROSALSKY APPEALS FOR CASH ON NEW YORK PALESTINE APPEAL PLEDGES

Judge Otto A. Rosalsky, chairman for Greater New York in the 1927 United Palestine Appeal, in a statement to the Jews of New York, calls upon all contributors to Palestine to translate their pledges into cash in order that the work of reconstruction should not be halted.

"No Jew or group of Jews can take it upon their responsibility that the work in Palestine be stopped because of their delay in honoring their pledges to the United Palestine Appeal," Judge Rosalsky declares.

"New York Jewry, in its response to the United Palestine Appeal for the rebuilding of Palestine, has demonstrated its sense of responsibility and its understanding of the problems involved in building the foundations of the Jewish National Home.

The sums pledged in all sections of the city during the campaign are a great contribution in the work of reconstruction, but pledges alone cannot build and the work in Palestine will suffer seriously if subscribers delay in redeeming their pledges.

"The pressure of events in Palestine demands an immediate response to this plea.

"The New York 1927 campaign officially closes on May 10th. We want to be able to announce on the closing day that New York Jewry has fully redeemed its pledge. A special duty devolves upon the active workers in the campaign. We depend on their loyal aid and on the generous response of the entire Jewish community," Judge Rosalsky declared in the appeal.

COMMUNISTS FEAR GROWTH OF RELIGIOUS NATIONAL SENTI- MENT AMONG RUSSIAN JEWS

(Jewish Telegraphic Agency Mail Service)

Moscow, Apr. 15.—The difficult economic position in the towns has led to a growth of nationalist and semi-Menshevik feeling among the Jewish proletariat, says the Bureau of the District Party Committee in Kiev in a resolution it has adopted on the work to be carried on among the Jewish masses.

"The result," the resolution proceeds, "is a revival of small bourgeoisie and clericalist influence among the Jewish population. An intensive campaign must, therefore, be carried on in order to enlighten the Jewish masses concerning the anti-Soviet and counter-revolutionary character of Zionism in all its forms. All the Jewish nationalist philanthropic institutions must be suppressed and the Jewish poor in the towns provided for by the town administrations. At the same time, there must be a vigorous campaign to make clear to the non-Jewish masses the counter-revolutionary character of anti-Semitism and repressive measures must be taken by the Soviet authorities against anti-Semitic hooliganism."

Irving Fisher Wants Only "Superior Aliens" Admitted to U. S.

A proposal to admit to the United States only "superior aliens," by lifting the immigration question from the plane of nationality and business economics to the plane of vital economics, or eugenics, is made by Irving Fisher, Professor of Economics at Yale University. Writing in the New York "World" of Monday Prof. Fisher points out that the immigration policy of the United States, from the very beginning of its history, has been "the narrowly economic one of admitting cheap labor." Moreover, none of the restrictive measures devised for the regulation of immigration "lifts us very far from the narrow economic plane from which we started," Professor Fisher declares, making his proposal as follows:

"Exclusion and restriction have been found in the main to meet our present business needs, that is all.

"From business economics the question needs lifting to the broader plane of vital economics, or eugenics. Let all incoming white immigrants be scrutinized, preferably in the countries of their birth, and only those admitted who prove superior to the average American in body, mind, and morals. Then all other objections would dwindle; most of them would disappear.

"Nationality is a poor test. It seems to be true that the nations of Northern and Western Europe yield fewer idiots, imbeciles, feeble-minded persons, epileptics, insane and persons of constitutional psychopathic inferiority than the peoples of the Mediterranean countries and East Europe. But superior persons may come from any nation. Of course, the colored races should be excluded, because they do not mix well with the whites. But for all white aliens we should apply the army physical and mental tests. We can also require of each enough of his individual history, his education and the pedigree of his near kin to be certain whether he will bring to us traits that are not sound and better than the average of our American stock."

The measure, Professor Fisher believes, can be applied without the tragedy of separating families on arrival at our ports. He says:

"Secretary of Labor Davis has proposed that alien heads of families seeking visas for permanent residence here should be required to name the members of their families which they intend later to bring in. These should have a chance to pass, together with their family heads, the same tests and to receive visas for future admission. If any fail, the entire family would be on notice before its head embarked for these shores."

FORMULATE PLAN TO CREATE FEDERATION OF ORTHODOX COMMUNITIES IN U. S.

National Congregation Conference Ends Sessions Following Heated Debate; Controversy with Union Adjusted; Permanent Committee of Rabbis and Laymen on Jewish Education Formed; Urge Creation of Parochial Schools

Plans for calling a great national convention of Orthodox Jewish congregations and organizations in the near future, with a view of creating a federation of Orthodox communities in the United States, were formulated yesterday at the National Conference of Orthodox Congregations which was continued at the Broadway Central Hotel. The decision was taken following a heated and turbulent debate under the chairmanship of Gedaliah Bublick, editor of the Orthodox "Jewish Daily News." Opposition to the proposal developed on the part of the Union of Orthodox Congregations of which Dr. Herbert S. Goldstein is President. The spokesmen for the Union contended that the creation of a new body was unnecessary as the Union of Orthodox Congregations performs this function, and urged that all other congregations be requested to join the Union. Other leaders of the Conference including representatives of the Union of Orthodox Rabbis, Mr. Bublick and Harris L. Selig, director of the Yeshiva College Building Fund, insisted on the creation of a new body contending that the authority of the Union of Orthodox Congregations is not universally recognized and that the Union must submit to the will of the majority of the congregations which desire the creation of a new body.

Several motions were debated until yesterday when the motion of Rabbi Israel Rosenberg, President of the Union of Orthodox Rabbis, prevailed. The decision was to the effect that the Conference elect a committee which is to consist of an equal number of representatives of the National Conference of Orthodox Congregations, Union of Orthodox Rabbis and of the Union of Orthodox Congregations. This committee will be in charge of calling the forthcoming national convention.

A resolution as to the personnel and number of the committee was postponed for a later session.

A permanent committee for the consideration of the problems of Jewish education consisting of fifty members including ten representatives of the Union of Orthodox Rabbis, ten of the Mizrahi, the Zionist Organization, ten representatives of the Yeshiva and twenty members at large recruited from among the delegates of the convention, was chosen at the Monday afternoon session which was held under the auspices of the Union of Orthodox Rabbis. Rabbi Israel Rosenberg presided.

Rabbi Rosenberg in his principal address urged the necessity of an intensive Jewish education under the present day conditions in American Jewish life. In former times when there was no contradiction between life and religion, the problem was not so acute. The American Jews face the necessity of taking extraordinary steps to secure a Jewish future for the coming genera-

tions. This can be accomplished only through an intensive Jewish education and a return to the authentic sources of Judaism, he stated.

Harris L. Selig explained the purpose and program of the extended Yeshiva and College which is now being built by the Yeshiva College Building Fund.

Other rabbis who participated in the discussion were Rabbis Scheinfeld and Silverman of Winnipeg, Hirmas of Atlanta, Georgia and Rabbi Silver of Springfield, Mass.

Among the resolutions adopted was one urging the creation of Yeshiva Parochial schools, one urging greater facilities for the Jewish education of girls and others urging the unification of the curriculum in the existing Talmud Torahs and Hebrew Schools with greater emphasis on the religious character of the instruction.

JEWISH OFFICIAL DISMISSED FROM SOVIET INSTITUTE

(Jewish Telegraphic Agency Mail Service)

Moscow, Apr. 14.—A Jew named Levin, who was an official under the Central Committee for Mutual Aid Among the Peasants, has been dismissed from his post because he is a Jew, states the "Isvestia" in an article in its issue today by the well known journalist, Agronovsky.

The document, giving the reason for the dismissal, the article says, declares that he was dismissed because he is not a Russian. Levin appealed against the dismissal, but the court decided that the Institute in which Levin was employed had the right to dismiss him, because his post was one which required a man thoroughly acquainted with the life and needs of the peasantry, and Levin was not a peasant but the son of a merchant in Simferopol.

Levin, who is a non-partisan, then made an appeal to the Supreme Court, the Communist Central Control Committee. The Secretary of the Institute in which Levin had worked and two Communists who had signed the document of dismissal were called as witnesses. All three contended that there was no anti-Semitism involved and that Levin had been dismissed only because he was not fitted for his work.

The court in its decision declared that it may be that Levin deserved to be dismissed for the reasons given in the evidence, but that the document of dismissal and the reason given there for his dismissal showed an attitude which was a disgrace to a Soviet institution and to citizens of the Soviet.

Judge Jacob Panken of the Second District of the Municipal Court, indicated that he would be succeeded himself in the election next fall. In an effort to persuade him to announce his candidacy, Socialists and trade unionists have arranged a testimonial dinner for May 20th.

Morris Hilquit is Chairman, and Morris Berman, Treasurer of the Honorary Committee.

Adolph Stern was appointed Magistrate for the full term of ten years by Mayor Walker. The salary of a magistrate is \$10,000 a year. Magistrate Stern was appointed to fill one of the vacancies caused by the retirement of Magistrate Charles A. Oberwager, who had served for five years, and Magistrate Charles Toller, who was a thirty-day appointee.

Magistrate Stern was born in New York City in 1882 and is a graduate of the New York University Law School. He was a member of the State Assembly from 1907 to 1909. He is a former Assistant Corporation Counsel, a Past Grand Master of the Independent Order B'nai Abraham, a member of the Administrative Committee of the American Jewish Congress, of the Jefferson Club of the Sixth Assembly District and of the Democratic County Committee.

Rabbi Stephen S. Wise was sued in the Supreme Court Monday by the Hand News-Paper Syndicate, Inc., for \$60,000 damages for breach of contract. The complaint alleges that Rabbi Wise contracted on Jan. 21 to write editorials to be syndicated by the plaintiff and refused to fulfill his contract when he learned that the plaintiff had contracted for the service with the "Daily Mirror" for \$200 a week.

Morris L. Steing, President of the Fur Trimming Manufacturers' Association, in a letter to Samuel N. by the Palestine Zionist Executive insofar as they represent the Palestine Zionist Executive. The question of the participation of the Vaad Hachumi in this committee is reserved for subsequent consideration and decision. In the event of disagreement between a majority of the committee and the director, the governing board may be appealed to, the decision of the director prevailing until the governing board directs otherwise.

"The Hadassah Medical Organization undertakes to meet the medical and health requirements of the Zionist program to the best of its ability, with due regard to its budgetary and other commitments.

"Negotiations with the Government of Palestine, except on technical and medical matters, affecting the Hadassah Medical Organization shall be conducted in cooperation with the Palestine Zionist Executive.

"Regular financial reports are to be submitted by the Hadassah Medical Organization to the Palestine Zionist Executive, or to any other body that may be designated by the Zionist Congress. Such reports are to be included in the announcements and financial reports of the World Zionist Organization and the Keren Hayesod. The accounts of the Hadassah Medical Organization are to be subject to audit at regular periods by persons designated by the Palestine Zionist Executive.

"This agreement is to be submitted to the next Zionist Congress for ratification."

A fellowship at the Hebrew University in Jerusalem, has been established by Toronto Zionists for Canadian students. The fellowship is given in honor of Samuel Kronick of Toronto.

For thirty-five years he was one of the lieutenants of Maurice Fetherston, former Democratic leader of the 16th Assembly District. He served at times as Superintendent of Sewers, Clerk of the Board of Aldermen and Clerk of the County Court, and was one of the founders of the Cherokee Club in East 79th Street and a member of the Tammany Society.
