

HEBREW TEACHERS STRIKE ENDED IN PALESTINE; DEMANDS GRANTED

Settlement Negotiated by Henrietta Szold, Member of Zionist Executive
 (Jewish Telegraphic Agency)

Jerusalem, Jan. 26—The threatened strike of the teachers in the Palestine Hebrew schools maintained by the Zionist Executive was averted Friday.

The Zionist Executive fulfilled all the demands of the Merkaz Ha'morim, the teachers organization.

The strike was decided upon because of the failure of the Executive to pay the teachers' salaries for November and to pay up the three months' salaries still outstanding for 1927.

Miss Henrietta Szold, American member of the Jerusalem Executive, who is in charge of the education department, negotiated the settlement.

LONDON "TIMES" SEES DANGER IN LOCUST ATTACK ON PALESTINE FIELDS

Urges Government to Take Drastic Measures of Protection
 (Jewish Telegraphic Agency)

London, Jan. 26—The London "Times" commenting editorially on the locust invasion this week in certain parts of Palestine, urges the government to take drastic measures for dealing with this oft-recurring plague.

The editorial expresses alarm over the hoppers which are reappearing near the Dead Sea which, unless quickly destroyed, will soon attain maturity and swarm down on Palestinian and Transjordanian fields and may extend as far as Syria, the paper warns. Neither the flame guns nor the trenches dug by farmers around their fields have been effective, it states.

The nature of the desert locust has not yet been investigated but it is believed that heavy rains drive them to cultivated land. The newspaper says that the value of the International Anti-Locust Bureau in Damascus is problematical, since it confines itself to investigations only after the locust invasions have occurred.

POLISH CHALUZ PROTEST SOVIET PERSECUTIONS

(Jewish Telegraphic Agency)

A new executive committee was chosen. One hundred and fifty of the delegates present are scheduled to leave for Palestine within a short time.

ENGLISH BISHOP ATTACKS CALENDAR REFORM MOVEMENT

"Why This Passion For Dead Uniformity," He Asks
 (Jewish Telegraphic Agency)

London, Jan. 26—The Bishop of Swansea and Brecon, writing in the "Diocesan Quarterly Leaflet," makes a vigorous attack on the movements for securing a fixed Easter and a uniform month of twenty-eight days.

"Some good people," he says, "have decided that it is bad for us to enjoy even the small excitement which comes from discovering for ourselves each year when Easter falls. We are to be coerced by law to observe Easter every year on the same date. We are indeed in danger of being legislated out of all sense, if not out of existence. The reign of the cranks is everywhere to be substituted for the rule of the Saints.

"Already a fresh grievance has been discovered in the fact that all our months are not of precisely the same number of days. A league has, of course, been formed in America to remove this outrage, and every month is to be 'like February.' Even Leap Year offenses and 'must go,' and we are offered in its place 'Leap Day' on June 29th. If anybody still finds a superfluous day knocking around this is to be chained down to Dec. 29th and to be known as Year Day. Christmas must always be on a Monday, and the degradation of washing day shall cease out of the land!

"If this kind of thing prevails we shall surely only need one date to cover all the 365 days of the year, and that a prevailing April 1st.

"After all, why this passion for a dead level of uniformity? God made a world of infinite variety, while man devotes his whole energies to reducing human existence to a deadly monotony.

"There is nothing impious about the suggestion of a fixed Easter, but there is much that is infinitely silly. The demand seems largely to proceed from the golf links and 'business circles.'

"No one suggests that a single created being is any the more likely to remember his Redeemer on a fixed Good Friday than when the date varies. No one professes to believe that a fixed Easter Day will draw any lapsed worshippers from the ranks of the professional week-enders. These are not the kind of considerations which appeal to the members of the 'International Fixed Calendar League.' If, however, we have any regard for the honor of our God these must be the things which to us will chiefly matter," the Bishop writes.

ASK ROUMANIAN GOV. ERNMENT FOR IMMEDIATE ACTION ON JEWISH PROBLEMS

Demand Jewish Religious Instruction and Citizenship Amendment
 (Jewish Telegraphic Agency)

Bucharest, Jan. 26—Jewish children attending Roumanian elementary and secondary schools are not provided with Jewish religious instruction although religious instruction is provided for Christian children in the schools.

In an interpellation introduced into the Senate by Chief Rabbi Niemirower, the Maniu government was asked why no action was taken in this matter. The Minister of Education in reply stated that he will take measures for engaging Jewish religious teachers for instruction of the Jewish children in their religion.

Dr. William Filderman, president of the Union of Roumanian Jews of Bucharest, submitted a memorandum yesterday to the Minister of Justice asking for amendments in the citizenship law promulgated by the former government. This law disfranchised thousands of Jewish residents in Old Roumania and the new provinces. Minister of Justice Junian stated that he has already prepared a

BULGARIAN JEWS ASK GOVERNMENT TO STAMP OUT RITUAL MURDER LIBEL

Jewish Consistory Addresses Memorandum to Ministry of Religions
 (Jewish Telegraphic Agency)

Sofia, Jan. 26—The Bulgarian government was asked to take energetic measures to stamp out the ritual murder agitation which has been going on in one Bulgarian district.

The agitation was sponsored by the newspaper "Rodna Zachitita" in connection with a ridiculous tale spread among the mob in Haskova where a woman claimed that while passing in the street a Jewish woman pushed a lump of chocolate in her mouth attempting to choke her "for ritual purposes."

The Jewish Consistory of Bulgaria addressed a memorandum to the Ministry of Religions asking it to take steps to dispel the libelous agitation and to issue an official statement proving the absurdity of such accusations.

Dr. Brown said the experiments were being conducted by Drs. William H. Park and J. G. M. Salloway. The Committee's action was announced through the office of the chairman, Senator: Johnson of California.

ASKS MISSIONS NOT TO ADMIT JEWISH CHILDREN WITHOUT PARENTS' CONSENT

Request Sent by Rabbi Goldstein to Home Missions Council

That directions be given to the thirty-eight Protestant Home Missions Boards, acting on the statement adopted at the Home Missions Council in its recent session in Atlantic City, that Jewish children shall not be admitted into any of the Christian institutions under the auspices of these boards without the consent and approval of the parents, was requested in a letter to the Rev. William R. King, executive secretary of the Council, by Dr. Israel Goldstein, Rabbi of Congregation B'nai Jeshurun, New York City.

Dr. Goldstein addressed the Atlantic City session of the Council, pleading for a cessation of proselytizing activities among Jews. The Council, in a statement adopted following Dr. Goldstein's address, asserted its right to conduct missionary propaganda, but deemed it advisable that "when little children from Jewish families come to our churches, Sunday schools and our neighborhood houses, we believe it is desirable that they should come with the consent and approval of their parents."

It was on the basis of this statement that Dr. Goldstein asked the instructions be sent to the institutions affiliated with the Missions Council.

FRANZ PHILIPPOSON RE-ELECTED ICA PRESIDENT
(G. T. A. Mail Service)

Paris, Jan. 9.—M. Franz Philippson, the President, Leonard L. Cohen, Vice-President, Leonard Montefiore, O. E. d'Avigdor Goldsmid, Professor Salomon Reinach, Paris, Dr. Necker of Paris, Dr. Wahl, Paris, Dr. James Simon, Berlin, Dr. Alfred Klee, Berlin, and Councillor Julius Blan, Frankfurt, were present at a meeting of the Council of the Jewish Colonization Association (Ica) which has just been held here.

The meeting discussed the fixing of the budget for the various colonization undertakings of the Ica in South America and Europe. It was pointed out that the various reports of attacks having been made on Jewish life and property in Brazil had been based on misunderstandings, and that in actual fact no attacks had been made on any Jewish colony there.

M. Franz Philippson was re-elected President of the Ica, and Leonard L. Cohen was re-elected Vice-President. Dr. Mirkin, who has for many years been engaged in colonization work and in recent years has been active in the Jewish colonization work in Russia, was appointed by the meeting a director of the Ica in place of the late M. Armand Schmolli.

ALBERT EINSTEIN WILL ATTAIN FIFTIETH BIRTHDAY, MARCH 14

Theories Concerning Time, Space and
Gravitation Influencing Thought
of Universe

(Jewish Telegraphic Agency)

Berlin, Jan. 26.—Prof. Albert Einstein, whose new five-page manuscript on the "New Field Theory" establishing the relation between electricity and gravitation has aroused world-wide interest and been hailed as opening a new vista for the scientific understanding of the universe, will attain his fiftieth birthday on March 14. He was born in Ulm, Germany, March 14, 1879.

In 1905 Prof. Einstein presented to the scientific world a number of publications in the "Annalen der Physik," one of them, "The Electrodynamics of Moving Bodies," being the first of a series of papers on the subject of relativity. In the same year he received his doctorate for a thesis entitled "A New Determination of Molecular Dimensions."

In 1909 he was appointed extraordinary professor at Zurich and in 1911 ordinary professor at Prague. He returned to Zurich as full professor in the following year and in 1914 accepted a call to Berlin to become a member of the Berlin Academy and a professor at the University. In 1921 he received the Nobel prize.

Einstein's theories regarding time, space, and gravitation, supported as they are by convincing experiments, are profoundly influencing philosophic and, perhaps, religious thought. Their conception is of a cosmos decidedly at variance with anything yet conceived by any school of philosophy. Einstein has utilized various discoveries in physics and mathematics to build up a co-ordinated system showing connecting links where heretofore none were perceived.

When the Royal Astronomical Society conferred on Einstein in 1926 its gold medal, the blue ribbon of the astronomical world, in recognition of his work on the Theory of Relativity and Gravitation, the President, Professor Jeans, said that Einstein's theory had transformed the world from a drama into a picture. It was possible that in the future scientists would again transform it into a drama, but a drama where the actors will play *ex tempore* as they go on. Einstein was one of the outstanding figures of modern science and would remain for posterity one of the most outstanding figures in human thought, he declared.

Prof. Einstein, in acknowledging the receipt of the medal, wrote: "He who discovers a line of thought which permits us to penetrate even a little deeper into the eternal mystery of nature is greatly privileged. He who in addition is encouraged by the recognition, sympathy and help of the best minds of his time, experiences more happiness than anyone can realize. In this spirit I thank you from the bottom of my heart for the great honor of which you have honored me worthy."

San Francisco Ready to Welcome
Union Convention; Many
Topics to Be Discussed

By Our San Francisco Correspondent

San Francisco, Jan. 25.—With San Francisco as their meeting point, delegations of prominent Jewish men and women of America are ready to move on to this city from every corner of America for the greatest Jewish convention ever assembled in the West.

From practically every important point in the nation, word comes that groups are preparing to travel in lines that will converge in San Francisco, where early next month the foremost minds of rabbinate and laity will sit together to discuss the outstanding problems of Judaism of today.

From all indications the coming conventions of the Union of American Hebrew Congregations, the National Federation of Temple Brotherhoods and the National Conference of Temple Sisterhoods, opening here February 10, will write history for American Jewry and will lay a course for future activity that should result in tremendous forward steps in promoting the cause of Judaism.

While the San Francisco Arrangements Committee, headed by Samuel Dinkelspiel, has been meeting at frequent intervals to perfect plans for handling the convention and adequately entertaining the hosts of delegates and their families, leaders of the Union at their executive offices in Cincinnati, have been perfecting program plans and arranging for the transportation of delegates.

"Judaism and the Modern World" will be the general theme of the convention and the various discussions programmed have been arranged to consider adequate means of suiting Jewish religious affairs in the demands of modern life.

Youth, social reconstruction and modern science will be discussed in their relations toward Judaism. While some of the foremost rabbis will attend the convention and participate in the discussions, they will share the floor with laymen, and the entire convention program will resolve itself into constructive consideration of outstanding problems by rabbis and laymen working together for the common good.

New York, Cincinnati and Chicago lead in early reservations for the convention. Some 150 men and women already have engaged transportation on a special train leaving Chicago, Tuesday, February 5, and arriving in San Francisco, Friday, February 8.

Advance reservations from New York City indicate that a special train from that city also will be necessary. Dr. Julian Morgenstern, president of the Hebrew Union College, rabbinical training school of Cincinnati, will speak on "Judaism and the Modern World," the theme of the entire convention.

JEWISH SENATOR ASKS LIFT- ING OF IMMUNITY TO START SUIT AGAINST DEFAMERS

Senator Yewelowski Would Enable
Bringing of Court Suits If
Desired

(Jewish Telegraphic Agency)

Danzig, Jan. 26.—In order to enable his defamers to start a counter suit, if they desire, the Jewish Senator Yewelowski, member of the Danzig Volkstag, asked the legislative body of the Free City to lift his immunity.

Senator Yewelowski is bringing suit against a number of anti-Semitic deputies who charged him with favoring the commercial agreement between the Free City of Danzig and the Republic of Poland, because of his private interests.

It was stated in Volkstag circles that the Senator's immunity will not be lifted as the majority of the Volkstag do not believe in the ridiculous accusations against Yewelowski and consider court proceedings unnecessary.

S. WALTER KAUFMANN, LAWYER, DIES IN PARIS

S. Walter Kaufmann, prominent lawyer, member of the firm of Smyth, Kaufmann and O'Connell, died a few days after his arrival in Paris, stricken with influenza, and after an operation for intestinal paralysis which developed. Word of his death was received in New York on Saturday.

Mr. Kaufmann, who was born in New York, August 11, 1880, attained prominence as a constitutional and international lawyer. He was admitted to the bar in 1902, two years after he was stricken with blindness as a result of sickness.

He was active in the Prison Association and its work in rehabilitating men from the Elmira Reformatory.

Mr. Kaufmann was formerly a partner of the late Norvin H. Lindheim and with him was deprived of rights as a member of the bar in connection with a report to the Alien Property Custodian, charged with concealing Dr. E. A. Rumely's purchase of The Evening Mail. Last April the Appellate Division of the Supreme Court restored Mr. Kaufmann to full rights at the bar and clearing the late Mr. Lindheim, the court maintaining that they had been convicted on insufficient evidence.

Mr. Kaufmann is survived by his widow and two daughters. It was stated that the body will be brought to New York for burial.

A despatch from Vienna to the "New York Times" states that Prof. Sigmund Freud, psychoanalyst, has challenged, Iuliu Maniu, Roumanian Premier, to justify his claim to be the liberator of Roumania from political persecution.

Prof. Freud, with two other Viennese professors and Wilhelm Ellenbogen, Socialist leader, despatched telegrams to Maniu and the Regency Council of Roumania, declaring: "The Maniu party has declared the conditions obtaining in Roumania illegal and promised political amnesty. We are expecting to see immediate abolition of military courts, general amnesty and the release of Bujor and Stefanoff."

Plans for the erection of a synagogue and community center for the Congregation Agudath Achim of Shreveport, La., were given impetus at a meeting of the building committee. The drive being conducted under the leadership of Rabbi Alexander S. Wiesel to obtain funds with which to finance the project has been successful thus far, the Rabbi stated. Ground is expected to be broken for the structure within a few weeks.

The Federation of Jewish Women's Organizations of Greater New York will hold its annual convention and luncheon Wednesday, January 30th, at the Astor Hotel, according to an announcement by Mrs. Isaac Rabbin.
