May Call on Justice Dept.’n Nazi Probe

Mc Cormack Committee Will Submit Actual Law Violations

(Special to the J.D.R.)

WASHINGTON, April 30. — The Democratic Senator from Massachusetts, Edward M. (Ted) Kennedy, reported today that he expected a hard-fought battle for the nomination of the Justice Department to take place in the Senate Judiciary Committee.

The investigation committee, headed by Representative John W. McCormack of Massachusetts, intends to report specific cases of law violations uncovered by the investigation to the Department of Justice for action.

While no clear-cut line of prosecution has yet been developed by the committee, the preliminary evidence presented by the Federal Bureau of Investigation toward the ultimate presentation of those individuals involved in the trials of the five subversive propaganda activities against the law is clear. The committee’s probe also looks to the possibility of a similar case as a basis for legislative action by Congress.

That the Department may also be called upon to cooperate in the problem, the committee is concerned with the possibility that all official channels of the United States and the Federal Bureau of Investigation into this country filled with subversion.

It is expected that the committee, in addition to its own investigations, will have evidence in the possession of the Justice Department to look into those charges.

Representative Bromfield to Eight Senator Organizations a few weeks ago the committee has been made aware of the meetings.

The National Radical party, new semi-British youth group, having established the Socialist May Day demonstration, Polish authorities laid down exact routes for the parades to follow, hoping to prevent conflict.

Some of My Best Friends Are Jews: His Theme Song, but Stricher Sang the Same Tune to Jewish Daily Bulletin Investigator—Was Elected by German Voters

Neal activities in this country have been brought to a head by the first open attack on the Jews of America by the Friends of New Germany, a group established in the United States, which has preached anti-Semitism. The following is the element of a series of articles detailing the rise and spread of the anti-Semitic movement in this country to all ramifications. The story is a summary of the Judiciary Committee investigation of Neal proceedings. He told me his name was Neal and in Germany for a period of over a year.

In the House Office Building at 12 noon today, Mr. Neal denounced the most violent anti-Semitic declarations that have been made, and the great mass of the country's anti-Semitic literature and the great body of anti-Semitic sentiment that prevails in the country. Neal called for a congressional investigation of the spread of the anti-Semitic movement.

Neal declared that he was opposed to the propagation of these sentiments and that he believed that the Jews should be treated with the same respect and consideration that is extended to all other citizens. He said that he was opposed to any legislation that would discriminate against the Jews.

 Neal then turned to the subject of the anti-Semitic literature and the great body of anti-Semitic sentiment that prevails in the country. He said that he believed that the Jews should be treated with the same respect and consideration that is extended to all other citizens. He said that he was opposed to any legislation that would discriminate against the Jews.

World Menace Increases Need For Jews’ Unity

Actions Committee Urges Closing of Ranks and Support

(J.W.A. Special Correspondent)
JERUSALEM, April 11.—A call to all sections of the Zionist Organization of the world to participate in a world Jewish congress which may possibly be held during the coming summer, is sounded in a resolution adopted by the Actions Committee of the Zionist Organization which has just been made public. The resolution was adopted during the conference here.

The resolution reads as follows: "In the face of increasing menacing situation of the Jewish people in the countries of the Diaspora, and the growing danger of a withdrawal of rights from a large section of the Jewish people, both in respect of their equality of citizenship and their national minority rights, the Zionist Actions Committee regards it as imperative to close ranks of the Jewish people into a common front for its political right to live, and its economic possibilities of existence, and to constitute a legitimate totalitarian representation of the people, constituted on a democratically basis.

The Actions Committee recalls the positive stand taken by the historic Jewish movement in years past and in various Congress resolutions in respect to the idea of Jewish world Congress.

The Actions Committee planks upon the Declaration of the head of the committees of Jewish Delegations that a conference will be called this summer, which will deal with the problem of the right of Jewish right to live in the countries of the Diaspora, and appeal directly to the political Jewish world.

The Actions Committee recommends all sections of the Zionist movement to take part in this conference."

Hilltop Film Disappoints

If everything moves according to schedule, Judwilla Productions presented a picture last night at the Mayfair Theatre, entitled "Hilltop Village of Any Land," according to the announcement. Mr. Curnkins of Judwilla says that he new costumes have been designed for the production in the Mayfair Theatre. The pictures will be shown at the Mayfair Theatre on the night of the exhibition of primitive musical instruments.

Exhibit of Primitive Musical Instruments

Over the Proctor which is fast turning into a museum, the Masonic Dinner offers an exhibition of primitive musical instruments. This display was inspired by the dancing of the Masonic Community. The display of primitive instruments was borrowed from the private collection of Mrs. Moota, the local explorer. Masonic war and peace songs, drums, rattles, tambourines and gourds of South American woods are among the novelties gathered together. Other unique instruments include a "gobbo-campana," which is made of a bone, a jaw, the scraped teeth serve as a base, and a "marimba," which is made of a native vegetable, upon which the player strikes with sticks. According to the pros and cons to produce a tune akin to that heard during vols or calls.

Some Stirring Scenes

It is only fair to say that some of the scenes are not especially striking, es- pecially those showing Nazal troops putting people on the streets, or harassing Jewish store-keepers or burning books. The last scene had a familiarity that reminded the audience of a new scene in "Vanderbilt's Rebellions." A scene shot in Vienna before the Armistice and scenes of Hitler's Nuremburg.

Sidney Harmon and James R. Wilson will open their "Milky Way" tonight at the Cost Theatre. It is a comedy by Lynn Rassm and Harold Crock. Lawyers Urge Lehman Sign The Wald Bill
Measure Would Prohibit Change of Labels on Imported Goods

Governor Herbert H. Lehman was confronted yesterday with the Wald bill prohibiting the changing of brand labels on imported merchandise.
A memorandum pleading for his signature was sent to the chief executive by the New York Lawyers Committee of the Non-Settlement of Import Tax Disputes.

The bill, which was introduced by State Senator Albert J. Wald, a Democrat, was passed Monday night by the Senate and is scheduled for consideration by the State Assembly. If passed, it must be signed by Governor Lehman before it becomes law.

Passage of the bill makes it a misdemeanor for a dealer to sell an article on which the label has to his knowledge been altered, defaced, scratched or otherwise changed. It is also made a crime for any present law only covers affirmative misbrandings. The measure also provides for the fraudulent practices of tampering with labels and permits the State to prosecute both consumers and merchants, especially those dealing in German goods who seek to overcome the growing boycott on Nestle merchandise.

Supporters of the measure were prepared by Mitchell Allen Fisher and Professor Milton Handler of the Teachers College.

Supplements Rollel

The Wald bill supplements the recent Thrasher Department Store order against the changing of the labels on import goods used in retail trade.

The federal ruling, however, applies only to goods coming into the city. The Wald bill applies to merchandise already in the country.

Professors Diagnose World And Give Varying Solutions
Three professors who diagnosed this world yesterday passed three divergent opinions. At a luncheon meeting of the Teachers College Association of History Teachers at the Chambord, Professor mailer R. Wright of Wellesley College, President Thomas J. Shotwell of Colgate University, and Walter E. Seelig, editorial writer for the New York Times, were invited to discuss the world nervousness.

"The Nazi movement is knocking at our door," said Shotwell. "This morning the classrooms of the colleges in America today are arguing that there is a Nazi movement in Germany. Their spirit is blindly seeking a way out and obstacles will only make it worse."

"Intolerance may be an outcome," said Seelig. "The nervousness in Germany, which has been present in many countries, is making a comeback as a result of the Middle Ages."

"In Germany the system lasts Hitler will last, for his type of political machine is suited to the present government."

"Our only alternative is to change the thinking of the people," said Wright. "Our solution is internationalism. The world is not a series of individual states, but a whole."

"We must try to give more intelligent direction to our thinking and to the actions we take," said Seelig. "Our solution is internationalism. The world is not a series of individual states, but a whole."
