Lech Press Praises Young Jew's Heroism

Jewish Telegraph Agency

HAMBURG, May 6—In the German newspapers here published today, there appeared a story of a young Jew who is reported to have affected a spectacular rescue of a woman.

This is the second time within a month that Jews in Germany have been cited for heroism. On June 5 two Jewish war veterans, on Hitler's personal initiative, were awarded medals for saving the lives of a high-ranking Nazi official.

Avoid Stand On Peace At Chicago

Rabbis Shelve Resolution Backing Pacifism

(Special to the J.D.B.)

CHICAGO—The National Conference of American Rabbis tonight closed its annual conference at the Congress Hotel without passing a definite stand on war and peace.

Instead, it was decided that a special committee should be formed to study the Jewish attitude toward peace in relation to the Jewish view of war in past history. This commitee will report at the next convention.

It also was decided that the peace resolution under discussion today and all other peace resolutions be referred back to the Peace Committee for the purpose of making an academic study and determining the attitude of various Jewish leaders.

The views and the reports of individual members of the conference will be gathered throughout the year with the purpose of making a final pronouncement on the rabbis' attitude toward war at the next conference.

At an earlier session, a resolution on war had been referred back to a special committee, headed by Rabbi Max Curruck of Brio, Pa., because it was too "pacifistic." Today, the committee returned a resolution (Continued on Page Four).

VIENNA, June 9—The careful elimination from the Vienna bar of all immigrant lawyers who came into the country after the War, was advertised in the Jewish press a few days ago

The statement reveals that the procedure of establishing the Bar Association on a racial basis. Radical discrimination, it says, is only to the tradition and spirit of American Jews. At the same time, it is necessary to curb the number of "non-Aryan" elements that are entering the legal profession in Vienna.

Jewish lawyers have viewed this statement with great alarm. A majority of Viennese lawyers are Jews, and many of them are prominent in the Bar Association.

This new declaration, it is felt, is merely a subterfuge to eliminate Jews from the legal profession.

The new movement, the article continued, is a direct attack on the chief defiance of the Jewish community. The Jew who is Jewish and of good moral character, should be given the right to practice law in the Bar Association.

Lipsy Group Loses First Lift With Rothenberg

By BORIS SMOLOT

Jerusalem, June 9—The internal friction within the administration of the Zionist Organization of America and a vigorous attempt by the Leib Lipsy group to prove itself to the Congress of the American Jewish Congress, as President of the ZOA, had little to say today.

The battle started last night at a stormy public session of the national executive committee under the chairmanship of Ezra Shafiroff of Cleveland, which lasted until long after midnight.

Leib by Maurice Samuel, members of the Hebrew Union College and others, who vigorously attacked the Rothenberg administration, was "the first order of business of the day deal." The issue of the attitude of the delegate to the ZOA, in the elections, has been charged to the world Zionist Congress.

The first round, however, brought victory for the Lipsy group and indicated that the majority of the delegates intend to support Rothenberg to the very end.

Rabbi Abba Hillel Silver, Samuel Morgenstern, Abe Goldstein, Prof. Gustave Krasner and other leading delegates pointed out that if the Conservative movement were victorious in America against the ZOA, this would mean the "extermination of the ZOA members," in the words of the 200,000 members of the ZOA, administration. It is for this reason that the ZOA ticket, went out of its way to support the Hillel Silver administration for the Karta, thus preparing its own defeat.

Streicher Boycott Efforts Curbed; Report 2 Jews Slain in Munich

Jewish Telegraph Agency

LONDON, June 30—The extinction of Streicher's anti-Jewish boycott in Berlin is being shown, by the government, according to a report by its special correspondent published in the Manchester Guardian.

The correspondent voices the belief, however, that this is only a temporary measure permitted by the government only to vitiate some of the effects of anti-Jewish excesses throughout Germany last week.

German government circles, the report adds, feared ignorance of the extent of the anti-Jewish boycott, and issued the order to terminate it because of the detrimental publicity which it may call forth in the outside world.

It was disclosed for the first time by the government today as a result of the particularly vile anti-Semitic propaganda spread in the streets of the Munich environs of the Siemietz, two Jews were killed last week.

The report from Berlin goes on to state that in many other centers outside of the capital the persecution of Jews is taking on extreme forms.

In Munich especially, the xenophones continue unabated. The chief instigator there is the Bevis Biederman, publisher of the "Armenian" anti-Semitic newspaper.

The "Armenian" anti-Semitic newspaper is a weekly, a month's old, which is mainly directed against the Jews.

The names of all "Armenians" caught reading the newspaper and discovered to be non-Armenian, will be published in a comprehensive place in the Bevis Biederman and all true "Armenians" will be ordered to them.

In the village of Zsichy, near Inghalt, signs were erected today saying: "Jews are not wanted here.

The Nazi press throughout Germany today reprinted an order originally promulgated in 1888, concerning the application for release submitted by prisoners in concentration camps. According to that

Persecution in Turkey

Recent developments indicate that the Jewish problem is reaching new and more serious proportions. It seems as though the waves of persecution have embarked on a definite policy of checking the progress of Jews. In the last two years there has been a noticeable rise in the number of incidents, and it is believed that the recent development is a clear indication that a new phase in the history of anti-Semitism is beginning.

The recent wave of anti-Semitism in Turkey is a direct result of the failure of the German policy of conciliation. This policy has been a complete failure, and the result is a growing wave of anti-Semitism.

The German Government has been forced to recognize this fact, and has taken steps to remedy the situation. It is hoped that these steps will bring about a real change in the attitude of the Turkish people towards the Jews.

Jews Urged To Settle In New Countries

So, America, Uganda and Angola Suggested by ‘Territorialist’

(Jewish Telegraphic Agency)

LONDON—Emigration of Jews has become another war necessity. In South America, Uganda and Angola, ‘Territorialists’ have been busy developing addresses. The Maschetsans, a society of Jewish professional men, held a meeting with Messrs. Neuman, who expressed himself as skeptical as to whether one would be willing to go to unmoved countries. Mrs. Israel Eldridge declared that the social enthusiasm about the Territorialist movement no longer existed. Sir Philip Harvey, who presided, announced that although the old Jewish-Territorial Association had been abolished, he and his friends had begun to publish a manifesto calling for new efforts to settle Jews on unused territory as a solution to the emigration problem.

Dr. Kruck asserted that Jews ought never again to be driven out of the country unless there were sanctions but should unite with all the best forces of other nations for their good.

Palestine, he declared, could not ever hold the absolute, a new land should be sought where Jews could live by their own laws and under the progressive or cooperative basis.

Four million Jews have emigrated in the last century, Dr. Kruck said, and the desire for agricultural work is so strong that it may last forever. He said that before the war, there were 270,000 Jews living by agriculture, he said.

George Bernard Shaw contends that Hitler should compel German Jews to intermarry with "Armenians", a Christian nation. Mr. Wickers in this week’s Liberty (London) writes:

Rabbi Stephen S. Wise comments in the same issue that the idea is "wicked nonsense." He tells Shaw, "Quilt your kiddling!" Marriages are not arranged in just that way.

The interviewer follows in part:

"There is, however, observed, "much to be said for Hitler, but his anti-Semitism is nonsense.

He went on to say, "added to Chamberlain’s racial theory, which is the expressed practice of ‘keeping the race pure’, instead of trusting upon cross-categorization.

"The Jews are not entirely free from blame if they are misunderstood. They have heard ghetto sound around them. In the beginning there was no great distinction between Jews and non-Jews, but the Jew emphasized the differences between themselves and the others. This led to the formation of a distinct people, a distinct nation.

"However, whatever may be the origin of the situation, existing between Jews and non-Jews is to be a great mistake when the Jews, instead of being kept apart, are brought together.

"They are a clever people and it is not wise to count their heads.

"As I consider the Jew’s hatred of Germany study everything carefully."

WARSAW, June 28—Premier Wolski, returning from a visit to Moscow, addressed to Jewish deputies on the question of law elections. The delegation referred to his address on this subject. **Mizrahi Youth Extends Variety**

Adapted Name of Hapoel Mizrahi at 13th Parley

Serious connection will exist between the Mizrahi Organization and the Jewish Youth Organization as the latter adopts the name of Hapoel Mizrahi, as it was used in the past.

The action was taken by 30 delegations to the thirteenth annual convention of the organization at Talmud Yehuda High School, 13th Avenue, Brooklyn Avenue.

The fact that the Mizrahi Youth in the United States is a united representative of the Mizrahi Hapoel Mizrahi and the belief that all of its members can be concentrated under the Hapoel Mizrahi name, was given as the reason for the split.

The resolution for the cleavage was adopted after a morning of heated debate. It was pointed out that this authorization for setting up an autonomous organization was given in a previous conference of the world Jewish Youth Movement.

**AIDS Research Program**

Support of the program was urged at a banquet last night by Rabbi Saul Rabin, president of the Chicago Theological College, who was present at the conference.

He also called for the establishment of a commission to investigate the conditions in the concentration camps.

Mr. Rabin also praised the Jewish Police for their courage and determination in dealing with the problems of the Jewish community.
