REPORT WHITE RUSSIANS TERRORIZING HARBIN JEWS

HARBIN, Nov. 17. (JTA) -- A reign of terror against Jews being conducted by White Russian groups is being fanned by publication in two White Russian papers, the Harbinskoye Vremya and the Nash Put, of featured articles accusing the Jewish people of various crimes.

The Nash Put features on its front page a telegram from Afghanistan purporting to reveal that Jews killed a Muslim child for ritual purposes.

Jews are attacked daily on the streets, but no one dares complain for fear of imprisonment by the gendarmerie in cellars, where they are reported kept indefinitely and tortured. The attacks are conducted without interference by the police.

The pamphlet has been sent to the Amateur Athletic Union with an accompanying letter stating that the evidence cited offers sufficient cause for the withdrawal of the American team from participation in the Olympic Games if held in Nazi Germany. The committee requests that the record cited be presented at the December convention of the Union. Copies of the pamphlet have also been sent to the American Olympic Committee and the International Olympic Committee.

DER ANGRIFF DESCRIBES JEWS ON RELIEF JOBS

BERLIN, Nov. 17. (JTA) -- Apparently with the purpose of counteracting protests by the British and American press against the growing maltreatment of Jews, Der Angriff, leading Nazi organ and personal property of Propaganda Minister Paul Joseph Goebbels publishes a long article describing how Jewish recipients of relief are being included among the labor conscripts who are engaged in constructing sports grounds in the vicinity of Berlin.

Der Angriff declares that there are 420 conscript laborers engaged in this project and that 280 of these are Jews.

The majority of these 280, Der Angriff points out, are intelligent and were once wealthy.

The article describes them at work as follows:

"You can see among them one working in evening clothes, others still wear white shirts, some still wear tophats and some work with gloves covering their soft hands."

The paper admits that all of the Jews work diligently with pick and shovel.

While working and during rest periods, the article states, the Jews are kept apart from the "Aryans."

JERUSALEM, Nov. 17. (JTA) -- All synagogues in this city were closed for part of the day yesterday in protest against the Nuremberg laws, regulations for the enforcement of which were promulgated in Berlin yesterday.

BRESLAU, Germany, Nov. 17. (JTA) -- In view of the Polish-German convention on the rights of minorities, the Nuremberg anti-Jewish laws are definitely not applicable in Upper Silesia, the press announced today.

NAZI PRESS PREDICTS FURTHER REGULATIONS FOR JEWS

BERLIN, Nov. 17. (JTA) -- Every important Nazi newspaper, including the Voelkischer Beobachter, Hitler's personal property and chief organ of the Nazi party, emphasized today that the regulatory decrees implementing the Nuremberg laws are only part of the regulations which will ultimately define the status of Jews in commerce, medicine, dentistry and law.

Meanwhile, the regulations which were to have clarified the Jewish position, in at least two fields have produced nothing but confusion. The confusion is chiefly the result of the regulations classifying "non-Aryans" with Jews. Many "non-Aryan" maid servants, since they are classified as Jews, do not know whether they may remain in Jewish employ.

The marriage clauses also have produced confusion.

"Half-Aryans", for example, are completely at a loss on the subject of marriage, since under the present regulations it appears they can marry neither Jews nor non-Jews.

A Federal Court here today reversed the decision of a lower court by which an actress was granted a divorce on the grounds that, after having been married to him for twenty years she suddenly discovered he was a Jew. The Federal Court ruled that she could not possibly have been ignorant of his Jewishness.

The league advises its members not to pay attention to the letters.

GERMAN ANTHROPOLOGICAL SOCIETY BANNED BY GESTAPO

BERLIN, Nov. 17. (JTA) -- The Gestapo, Nazi secret police, today ordered that all offices of the German Anthropological Society throughout Germany be closed because the society allegedly is "inclined to maintain international relations with Jews."

The Danziger Echo, only Jewish weekly publication in the Free City of Danzig, was today forbidden to be circulated or sold anywhere in the Reich as an anti-Nazi publication. Several editors of the paper have recently been deported from Danzig for having published anti-Nazi articles.
