224,000 HIT IN FIRST YEAR OF HUNGARIAN ANTI-JEWISH LAW

BUDAPEST, June 30. (JTA) -- Execution of the anti-Jewish laws has left 224,000 people, or 40 per cent of the entire Hungarian Jewish population, without means of livelihood, according to statistics made public today by the Budapest Jewish Community.

The law, in effect one year, limits Jews to six per cent in professions and cultural pursuits, bars them altogether from responsible positions in the press, theater, cinema and civil service posts, and limits them to 12 per cent in private enterprises.

A total of 756 days of imprisonment and 613,668 pengoes in fines have been applied from June 1 against employers violating the law, according to a 12-page report submitted to Parliament by Minister of Justice Laszlo Radocsay.

The report is in reply to a recent challenge by Karoly Meisler-Harethy, Nazi deputy and Fuehrer of the National Socialist Front, that the Government satisfy its critics that it has been zealously carrying out the provisions of the anti-Jewish law.

This year, the report states, the Government authorized 30 courses in various schools for training of "deserving Gentiles" to take over Jewish jobs, and by May 1 a total of 15,000 acquired jobs as a direct result of the anti-Jewish law. It is explained that half of these persons were elected by employers and half by the administration of the law, from lists of persons with preferential status.

Answering Nazi criticism of the Government land reform and demands that all Jewish agricultural landholdings be expropriated, the Justice Minister reported that this must be handled "very cautiously" in order not to injure Gentile agricultural workers employed by Jews. As a result of difficulties in replacing Jewish planters with Gentiles having sufficient capital and experience, Radocsay declared, expropriations this year will probably fall short of the 100,000-acre quota against Jewish land, the total of which is estimated at 600,000 acres.

ITALY BROADENS DRIVE ON FOREIGN JEWS; BALKAN NATIONALS SEIZED

ROME, June 30. (JTA) -- Italy is widening arrests of foreign Jews to include not only German, Polish and stateless, but also Rumanian, Bulgarian and Yugoslavian, it was learned today, in what is believed to be a final effort to liquidate the "problem" of foreign Jews.

The newspaper Lavoro Fascista declared the arrests were made "in the interests of national defense." It was reported that seven women were arrested in Brescia, including a Rumanian Jewess, indicating that women were included in the drive against foreign Jews.

The campaign to eliminate young foreign Jews from the military zones of Naples, Rome, Genoa, Trieste and Milan has been almost completed with the arrest of 1,000.

Those arrested were taken to Salerno and Consenza and housed in barracks improvised from monasteries. It is reported that the internees are decently treated and allowed freedom of the town during the day with few restrictions, each receiving six and a half lire daily for food, for which none is required to work. Emigration from Italy is encouraged and the internees receive a police escort to the Italian frontier when ready to emigrate.

Indications from the towns of concentration are that the provisions for confinement there are temporary. Larger and more elaborate camps are being prepared in other localities in southern Italy. Quarters for arrested women and children will be included in the new camps. It is certain that all foreign Jewish men, women and children eventually will be interned in these camps until they emigrate.

MOVE TO TAKE OVER PALESTINE PRESSED BY ITALIAN PAPERS

ROME, June 30. (JTA) -- The drive in the Italian press to embrace Palestine in the group of Italy's "natural aspirations" is steadily increasing.

Il Piccolo declares in an article: "The rebirth of Rome in the Mediterranean is guaranteed by the victorious war for independence we are fighting against the foreigners encamped on our sea. We will resurrect the Kingdom of Cyprus and Jerusalem under the scepter of the King to signify the uninterrupted continuity of Rome and the glorious crusades for a renewed empire under Fascist Italy."

Asserting that only the House of Savoja has a right to the Holy Land, the paper states:

"Twenty years of British administration in Palestine have revealed an agnostic character and repression of the cultural and religious emotion of the country... Jerusalem, returned to Europe after seven centuries, signified nothing to humanity, but for Palestine it meant Jewish invasion, repression of the nationalist Arabs and abandonment of the Holy Sepulchre."

Turkey Bars Italian Near East Grab

LONDON, June 30. (JTA) -- The newspaper Observer said editorially today that one of Turkey's conditions for remaining out of the war was that "Syria and Palestine must not fall into Italian possession." The conditions, the editorial added, were "not disserviceable to Britain. In the eastern Mediterranean they are safeguards against spread of chaos."

French Army's Action Leaves Palestine Calm

JERUSALEM, June 30. (JTA) -- Jewish circles today received calmly the news of General Eugene Mittelhauser's announcement of cessation of hostilities in Syria, saying they assumed that Palestine-Syrian relations would not be changed. This was confirmed by an official communique stating that the Palestine-Syrian trade agreement would remain in force.

J.N.F. INVESTMENT IN PALESTINE PUT AT £5,200,000

JERUSALEM, June 30. (JTA) -- The Jewish National Fund has invested a total of £5,200,000 in Palestine, it was revealed today at a general meeting of the organization. Of the total, £4,720,000 was spent for land, water installations, amelioration and afforestation, while £235,000 was spent for settlement purposes.

JEWISH MERCHANTS AMONG REFUGEES FLEEING TO BUCHAREST FROM SOVIET AREAS

BUCHAREST, June 30. (JTA) -- Jewish members of the middle classes, including merchants and industrialists, are among the thousands of refugees from Soviet-occupied Bessarabia and Bukovina continuing to arrive in Bucharest. The Red Cross and the military and civil authorities are aiding the refugees.

Chief Rabbi Alexander Safran and Dr. William Filderman, president of the Union of Rumanian Jews, had a lengthy audience with Religion Minister Mihail Ghelmegeanu, who asked that the Jewish population remain calm and avoid unnecessary gatherings. The delegation pledged the Jewish community's loyalty to the Government.

PLEA FOR ORGANIZATIONAL UNITY TO COPE WITH CRISIS VOICED BY GOLDMAN AT ZOA PARLEY

PITTSBURGH, June 30. (JTA) -- A call to American Jews to lay aside their organizational differences and a warning that anti-Semitism was the "universal fifth column of Hitlerism" were sounded this afternoon by Dr. Solomon Goldman, president of the Zionist Organization of America, in an address at the Syria Mosque here opening the organization's forty-third annual convention. More than 1,000 delegates from all parts of the country are attending the meeting.

Detailing the rise of Hitlerism in proportion to the world's consistent disregard of anti-Semitism, Dr. Goldman asserted that the responsibility for world Jewry and for the defense of democracy now rested with American Jews, who were "both orphans and the heads of a family."

Dr. Goldman appealed for coordination of American Jewish organizations to cope with the new world crisis "lest they and Jewry cease to exist."

"Slogans and techniques of yesterday, differing from organization to organization, are outlived. We must learn to think fast in new terms if we are to be effective. We will confess that the growth of separatist, isolationist organizations has fostered selfishness and vested interests.

"But now it is no longer a question whether the American Jewish Committee, the American Jewish Congress, the B'nai B'rith and the Zionist Organization want to coordinate their activities. They must, lest they and Jewry cease to exist. It is dictated by necessity and we must derive strength from the necessity by recognizing it and making our will responsible to its dictates. We, the Zionists, issue and accept the challenge for the coordination of American Jewry."

Discussing the world situation as it affected Jews, Dr. Goldmann charged that the rise of Hitler had been made possible by the world's "complacency to his anti-Semitism." "Hitler," he added, "found the world receptive because Jew-baiting had

long since achieved the status of a respectable social and political activity. The world failed to understand the problem of anti-Semitism and the nature of its roots. They could not see that we suffered because we were an obstinate minority that would neither cease to exist nor forfeit its spiritual freedom."

"Hitlerism," Dr. Goldman continued, "is the successful reversion to primitivism. It is man in the raw. It is the jungle swallowing up again the clearing which men have made in it. . . . Let us put energy and courage into the task of proclaiming to America that anti-Semitism is the universal fifth column of Hitlerism."

Dr. Goldman predicted that the day would come when anti-Semitism would "no longer be regarded as a domestic issue. It will be recognized as the forerunner of aggression."

Delegates and guests cheered the determination expressed by all speakers to stand by Palestine to the very end for the preservation of all that the Jews have built there.

Vice-President Louis Lipsky, declaring that the Palestine Jews had offered their services to Britain, urged that the British Government give them the right to arm in defense of Palestine and voiced assurance that "all that is humanly possible for us to do in support of that great defensive effort, we are prepared to do."

Judge Morris Rothenberg commended American defensive measures designed to keep this country out of the war. Treasurer Eliezer Kaplan of the Jewish Agency for Palestine told of assurances given by the British Government that immigration would continue despite the war, with transit provided through Russia. Secretary Morris Margulies reported a record increase in membership in the past eight years, with each year exceeding the past. Other scheduled speakers were Pierre Van Paassen, the author, and Dr. Stephen S. Wise.

With business sessions scheduled to start tomorrow, the election of a president held the center of interest, district and regional caucus meetings seeking to prevent political dissension from rending the convention. The projected candidacy of Edmund I. Kaufmann, Washington merchant and philanthropist, has been countered with a plan for a collegium or praesidium composed of five or seven members.

On the eve of the convention's opening, the National Executive Committee yesterday approved in detail a proposed reorganization plan for the Z.O.A. and enlarged the existing "peace committee" to smooth out differences between groups of delegates. The peace committee was making efforts to avert a contest for the presidency on the floor when the elections are held Monday night.

A Hebrew institute and a closed meeting of the Z.O.A. Administrative Council were held last night.

VARGAS ASSAILS STATELESS 'WAR PROVOCATORS' WHO ENTERED BRAZIL 'SURREPTITIOUSLY'

NEW YORK, June 30. (JTA) -- In a speech reaffirming his assertedly pro-Axis address of June 11, President Getulio Vargas was reported in a New York Times dispatch from Rio de Janeiro today to have assailed "opportunists and war provocators who are without a country and ready to trade in any manner."

Charging that his June 11 talk had been distorted by publication of isolated phrases, Vargas warned that "this discordant chorus would be used by foreign agents provocateurs who are paid to create friction."

"It will not be hard to identify these elements, opportunists and war provocators who are without a country and ready to trade in any manner," Vargas added, describing this "foreign element" as composed of "undesirables who entered Brazil surreptitiously and now abuse the hospitality of the country by mixing in national affairs."

VATICAN REPORTED BEHIND PACT FOR REPATRIATION OF POLISH JEWS

NEW YORK, June 30. (JTA) -- A United Press dispatch from Rome reported today that the Vatican was said to have reached an understanding with Germany and Rumania enabling Polish Jews in France and Rumania to return to Poland on condition that they abstain from political activity.

The understanding was reportedly reached following long negotiations among Vatican representatives in Warsaw and Berlin and Rumanian and German officials. The dispatch said it was believed transfer of Polish Jewish refugees from France and Rumania would begin almost immediately.
