PLANS COMPLETED FOR ALIEN REGISTRATION BEGINNING AUG. 27; 'WITCH HUNT' BARRED

WASHINGTON, July 30. (JTA) -- Registration and fingerprinting of 3,600,000 aliens in the United States will begin at post offices throughout the country Aug. 27 and all aliens unregistered by Dec. 26, or who make registration statements known to be false, will face a six-month jail term, it was announced today by Earl G. Harrison, director of registration, and Solicitor General Francis Biddle.

Aliens will be required to answer 15 questions, including how and when they arrived in this country, what clubs and organizations they are members of and whether they had had military training. The fifteenth question, directed at fifth columnists, asks the alien whether within the last five years he has been "affiliated with or active in organizations devoted in whole or in part to influencing or furthering the political activities, public relations or public policy of a foreign Government."

Harrison, noted Philadelphia lawyer, who accepted the immense job of conducting the registration only on the condition that no "witch hunt" of aliens will be tolerated, emphasized that the registration "does not carry with it any stigma or implication of hostility towards those who, while they may not be citizens, are loyal to this country and its institutions. Most of the aliens in this country are people who came here because they believed and had faith in the principles of American democracy and they are entitled to, and must receive, full protection of the law.

"We should remember that all Americans were at one time or another immigrants from other lands. The genius of many countries, the ancient aspirations of many races have been built into what is America. Unfortunately, there are some foreigners who are disloyal to America, and who do not wish to accept our ways, and who use freedom of speech and of the press to foment disunity and sedition. These persons we will apprehend, but we will also see to it that loyal American aliens are not unjustly condemned for the disloyal behavior of a few. Our registration will be their protection."

Harrison said that whenever a case of an alien having entered the country illegally is discovered "that case will be decided individually on its merits."

Biddle was asked: "What of the political and religious refugees who, while they may have entered the country illegally, still would face death if they were deported?" He said: "Of course, there is really no way to deport these people. There is no place for them to go."

The machinery of the registration will run like this:

Nearly six million blank forms will be distributed from every post office beginning Aug. 15. These the alien is to take home and study, filling in each question for himself, with the help of any records he has at his home. When he returns to the post office he will be fingerprinted and his answers to the questions will be taken orally and written by postoffice employees, who are instructed to conduct no examination of the alien.

The records are then transferred to a special file within the Department of Justice, which will be held confidential except to the Department. Two of the questions compel aliens to list their police records and aliases, if any, and the fingerprint cards will be checked with the files of the Department's criminal division.

Child aliens are not required to register until they reach the age of 14. Certificates will be mailed to all aliens after registration. They will not be required to keep these certificates on their persons.

Harrison particularly warned that registrations and fingerprints could only be taken at a post office. No private individuals are authorized to take them. Rackets have sprung up already, he said, by which aliens have been victimized by persons claiming to be "authorized" to accept registrations.

Already, too, Harrison added, there have been cases of "spying" by gossipy or malicious neighbors of aliens, and he reiterated that such "witch hunting" would not be countenanced.

Registration blanks will be printed in six languages, including Yiddish.

Harrison called attention to the fact that the law requires all aliens, once registered, to notify the Commissioner of Immigration and Naturalization of any change of residence within five days.

ZURICH, July 30. (JTA) -- Serious anti-Jewish disorders have been organized in Lithuania by the followers of Augustine Waldemaras, Lithuanian Fascist leader, reliable reports reaching here today said.

The Jews assertedly were accused of responsibility for Lithuania's loss of independence and the developments leading to the country's absorption by the Soviet Union.

Authorities were reported carrying out mass arrests of prominent business and professional men considered unsympathetic to the new situation. A large number of Jews were reported among those arrested. The reports said Juozas Urbsys, former Lithuanian Foreign minister, and his wife were among those seized by the police.

BRITAIN TO ARRANGE FOR RETURN OF DEPORTED INTERNEES

LONDON, July 30. (JTA) -- Arrangements will be made in consultation with Canada and Australia for the return of deported internees whose release can properly be certified, Foreign Undersecretary Osbert Peake told the House of Commons today.

CONDITIONS IN SWISS INTERNMENT CAMPS REPORTED GOOD

GENEVA, July 30. (JTA) -- A friendly atmosphere prevails in the camps established by Swiss authorities for French and Polish soldiers, a delegation of the Jewish Relief Committee reported today after visiting the camps.

French soldiers treat Jewish soldiers on the basis of complete comradeship and equality and have elected a Jewish officer as camp leader, it was said. Efforts are being made to establish a synagogue at the camp.

Polish officers in the Polish camp formerly mistreated Jewish soldiers, but relations were improved after intervention of the Polish Legation at Berne. Jewish officers are among the internees.

All the men were said to be satisfied with the treatment accorded them by Swiss authorities. Efforts also are under way to establish a synagogue at the Polish camp.

HIAS-ICA PRESSES EMIGRATION ACTIVITIES, ADAPTING ITSELF TO WAR CONDITIONS

NEW YORK, July 30. (JTA) -- Adapting itself to changing conditions, the HIAS-ICA Emigration Association will carry on its work as well as possible until the end of the war, when a greatly enlarged Jewish emigration is foreseen, two recently-arrived HIAS-ICA officials, President Max Gottschalk and Director James L. Bernstein, asserted today at a press conference in the Hotel Commodore.

As evidence of the organization's continuing activities, the following cabled news was revealed:

(1) The Antwerp office of HIAS-ICA advised by cable yesterday that it is still in existence and continuing its activities. This is the first contact with this office since the occupation of Belgium.

(2) The Lisbon office advised that 50 refugees from France on the steamship Dora, who were stranded in the Portuguese port on July 15 and unable to continue their journey to Casablanca, have been permitted to land by the Portuguese authorities under police supervision, after HIAS-ICA intervention.

(3) The Riga office cabled that it was assisting 34 refugees, including men, women and children, to proceed to the United States via Soviet Russia, Japan and the Pacific.

It is the intention of the HIAS-ICA, Gottschalk said, "to go on and to continue to render the largest possible measure of service, to extend its activities and to intensify its work whenever and wherever the situation permits." He said that "we are busy now in conference on the more precise details of readjusting our activities to the new conditions and the new problems," but added that "it is at the moment premature to make any announcement as to the exact plans."

Dr. Bernstein said: "The situation is not hopeless. Conditions may change. Meanwhile, the work has to go on. It may not be possible for thousands to emigrate in the next few months, but we can assist a few hundred." He added that so long as the war continued there was little chance of getting countries of immigration to change their regulations in favor of added entry.

Other speakers were Abraham Herman, president of the Hebrew Immigrant Aid Society, John L. Bernstein, chairman of the HIAS committee on European activities, and Isaac L. Asofsky, executive director.
