### HUNGARY EX-PELS JEWS FROM TRANSYLVANIA

BUDAPEST, Nov. 4. (JTA) -- Wholesale expulsion of Jews from the Maramoros region of Northern Transylvania was reported here tonight.

The military authorities, according to reports, have been rounding up indigent Jews and escorting them to the nearby Soviet frontier, forcing them at pistol point to cross into Russian territory. The Russo-Hungarian frontier in this region is formed by desolate ridges in the Carpathian mountains, very sparsely patrolled by Soviet frontier guards.

When the Jews protested against the expulsions the authorities were reported to have declared that they were not Hungarian citizens and therefore had no right to remain in the newly-acquired Hungarian territory of Transylvania.

### 500, MOSTLY JEWS, STRIPPED OF FRENCH CITIZENSHIP

WICHY, Nov. 4. (JTA) -- The first group of 500 naturalized citizens, chiefly emigrants from Central Europe "particularly difficult to assimilate" and also political agitators, have been deprived of French citizenship by decision of the Commission for Revision of Naturalization, an official communique announced tonight.

The communique stated that "these categories include a notable proportion of Jews." It added that those who had good grounds for acquiring French citizenship need not worry about revision of naturalization. The list of persons affected has not yet been made public.

Meanwhile, it was reported here, that all Jewish enterprises in occupied France have been ordered by the German authorities to declare their movable and immovable property in France and abroad. "Jewish enterprise" is defined as one with at least 50 per cent under Jewish ownership.

American citizens are exempt from the census of Jews in occupied France, the newspaper *La Petite Gironde* of Bordeaux reports. Soviet citizens will also not be affected, it is stated.
