HITLER PREPARES FOR DRIVE THROUGH TURKEY TO PALESTINE, WASHINGTON HEARS

WASHINGTON, Jan. 14. (JTA)-- Hitler's defensive operations in Russia and Africa will probably not interfere with his long-planned, often delayed, drive through Turkey to Palestine into the Near East, well-informed circles predicted here today. The German military movement, it was explained, may simply be the frontal attack of the Nazi campaign. An attack behind the lines may also develop in the form of Arab "nationalist" uprisings.

That the British expect such a Nazi drive is evidenced by the fact that, according to information received in Washington, they are now concentrating considerable air power in the Near East in preparation for concerted bombings of Germany's new bases in Greece, which are in a position to supply an offensive against Palestine and Turkey. The British, it was pointed out here today, would hardly be diverting valuable air power from what has heretofore been the main objective, if they did not believe it necessary to disrupt, or at least delay, Germany's offensive preparations.

Should an Arab "nationalist" uprising be timed with a Nazi military drive, the number of German troops required to do far-reaching damage in the Near and Middle East would be correspondingly reduced, it is believed here. The opinion is expressed that despite the defenses which the British are now rushing into this area, they will have to rely extensively on the Arabs for man power. If the Germans have any kind of an organization at all among the Arabs, they will know the location and strength of the British air fields and defense positions, it is assumed here.

Why Hitler Is Anxious To Reach Palestine; Motives Explained in Washington

Those in Washington who are convinced that a Nazi lunge through Turkey is imminent, declare that such a move offers to Hitler the following attractions:

1. One column might strike down through Syria into Palestine - areas which command the terminus of the Middle Eastern oil fields.
2. In Turkey, Palestine and Syria there is an abundance of strategic materials which the German military command desires and needs.
3. If Hitler could establish himself in Palestine, he would have entrenched himself behind the British Army which is in pursuit of General Rommel.
4. By reaching Palestine, Hitler could renew his campaign of prejudice more violently than ever, appealing to the Arabs.

All these are given in Washington as solid reasons why Hitler should be anxious to push down through Turkey to Palestine with one column, while another column might be aimed across Turkey in the direction of Iran and Iraq. The northeastern border of Turkey borders on the Russian Caucasus which Hitler hoped to reach in 1941 but failed to achieve when his armies were beaten by the Soviets at Rostov and forced into an as yet unchecked retreat.

UNLIMITED SUPPLY OF ANTI-TYPHUS VACCINE OFFERED TO GOVERNMENT BY HEBREW UNIVERSITY

JERUSALEM, Jan. 14. (JTA)-- The department of Hygiene and Bacteriology of the Hebrew University has informed the Palestine government that it can supply an almost unlimited supply of anti-typhus vaccine should the need arise, it was announced today by the Jewish Agency.

Scientists in the bacteriological department of the University have devised a new technique for preparing anti-typhus vaccine by growing the typhus virus in tissue cultures, the announcement said. The Hebrew University process has been pursued by Dr. H. R. Cox, United States Public Health Service bacteriologist, who developed the technique of growing the typhus virus in a chick embryo, it was reported.

PROGRAM OF POST-WAR STUDIES REPORTED BY AMERICAN JEWISH COMMITTEE'S INSTITUTE

NEW YORK, Jan. 14. (JTA)-- The activities and the plans of the Research Institute on Peace and Post-War Problems of the American Jewish Committee were outlined here today at a press conference addressed by Max Gottschalk, director of the Institute, and Sidney Wallach, associate secretary of the American Jewish Committee.

The luncheon was arranged on the occasion of the publication today by the Institute of the booklet "Jewish Emancipation" by Raphael Mehler, which is the first of the pamphlet series on "Jews and the Post-War World." The series, Mr. Wallach said, has been prepared by expert historians, economists and legal authorities under the editorship of Abraham C. Duker. "Jewish Emancipation" is a selection of official documents pertinent to the question of equality of Jews as citizens, beginning with the recognition of Jews as subjects of the Netherlands in the year of 1657 and ending with the Palestine Mandate of 1922.

Mr. Gottschalk emphasized that while Jews are firmly convinced of the victory of the United Nations, it is difficult for most of them to visualize the varied aspects of the world which will emerge after victory is achieved. The Institute is therefore investigating the problems of readjustment which are of special concern to Jews. The result of the studies of the Institute, Mr. Gottschalk said, will be placed at the disposal of the Jewish public and especially of those who will represent the Jewish interests when the time arrives for the peace settlement. He enumerated a number of volumes on which the Institute is now working, which indicated the extensive program of major studies which have been prepared and are being carried out.

2,000 REFUGEES HOLDING VISAS HOPE FOR EMIGRATION, DR. BERNSTEIN SAYS ON ARRIVAL HERE

NEW YORK, Jan. 14. (JTA)-- There are still 2,000 refugees in Marseilles holding American, Cuban and Mexican visas, Dr. James Bernstein, European director of the Hias-Ica Emigration Association, declared today upon his arrival from Lisbon aboard a Portuguese steamer.

The fate of these 2,000 refugees, Dr. Bernstein said, depends on whether permission is granted for two Portuguese liners to make one more trip each from Lisbon to the American continent. Such permission has already been given to two Portuguese steamers that will carry 1,000 refugees now in Lisbon and Spain. Refugees are still being smuggled from Paris into unoccupied Marseilles, but if they are caught, they are sent to labor camps, Dr. Bernstein stated. He termed the condition of the refugees in Europe as "not enviable."

Eli Dijour, secretary of the Hias-Ica, also arrived on the same steamer. The liner brought 255 Jewish refugees from Casablanca after debarking more than 200 refugees at Havana.

JEWISH RESISTANCE TO NAZIS IN YUGOSLAVIA REPORTED BY GUERILLA ARMY LEADER

LONDON, Jan. 14. (JTA)-- The part which Jews are taking in the fight to free Yugoslavia of the Nazis, as well as details of the barbarism to which Yugoslav Jews are being subjected were related here today by a envoy of Gen. Draja Mihailovitch's guerilla army, who just arrived in London on a special mission.

In an interview with a correspondent of the Jewish Telegraphic Agency the Yugoslav officer revealed that a number of Gen. Mihailovitch's closest collaborators are Jews. His aide de camp is a Jewish doctor from Belgrade, while a young Jewish officer, a former student in Belgrade, directs the operations of 50,000 guerillas who are fighting in the Nazi-occupied districts. In addition to these, the young officer's command includes units of the famous Chetniks, Serbian mountain fighters, which have been incorporated into the army. Among the rank and file fighters in the guerilla army are young and old Jews who fled to the mountains from Belgrade, Zagreb, Sarajevo and other cities.

The Yugoslav envoy also revealed details of the "terrible fate of the Jews" under the Nazis. A few days after the Nazi occupation of the country hundreds of Belgrade Jews were rounded up in a house in the suburbs. There, they were lined up and every fifth Jew was shot. In one morning, 119 Jews and six Serbs were murdered in this manner. Details of the executions were given him by a young Jew who succeeded in escaping, using the ruse that he knew where he could obtain for the Nazis a supply of sorely needed medicines, Gen. Mihailovitch's representative said.

The manner in which Jews, who have not succeeded in escaping from the Nazi-held cities, also carry on anti-Nazi activity was also touched upon in the course of the interview. Jews who were ordered to surrender their radios to the Nazis, the Yugoslav spokesman stated, instead turned them over to Serbian friends who proceeded to use them to pick up instructions from the Yugoslav government in London, which were broadcast by the BBC.

POLISH GOVERNMENT PUBLISHES BOOK ON NAZI ATROCITIES AGAINST POLES AND JEWS IN POLAND

LONDON, Jan. 14. (JTA)-- A "Black Book," listing Nazi atrocities against Poles and Jews in occupied Poland, was published here today by the Polish Government, following yesterday's conference of nine European governments-in-exile at which it was decided to exact swift post-war retribution against Germany and her satellites for acts of violence committed against the civilian population in the occupied territories.

The book, entitled "New Order in Poland," is divided into nine parts and contains 46 chapters dealing with massacres, tortures and expulsions of Poles and Jews by the Nazis. One chapter in this 586-page volume is devoted exclusively to the Nazi terror against the Jews in Poland and to mistreatment in the ghettos. The material in the book is based on eye witness testimony authenticated by photographs showing Nazi savagery.

Simultaneously the Polish government announced today that it was preparing special lists of Germans responsible for crimes and persecution against Poles in Polish territories, and asked all those with information to cooperate. The Ministry of Home Affairs, in charge of the preparation of the lists, requests all Poles abroad possessing precise information of such German crimes to submit it to the nearest Polish diplomatic mission or consular offices to be forwarded. All specific evidence, such as dates, names and exact description of the crime, is desired.

NEW YORK, Jan. 14. (JTA)-- Dr. Stephen S. Wise, President of the American Jewish Congress, and Dr. Nahum Goldmann, Chairman of the Administrative Committee of the World Jewish Congress, were received by the Soviet Ambassador to the United States, Maxim Litvinoff, it was made known today by the Congress.

ENEMY ALIENS MUST CARRY IDENTIFICATION CARDS; REVOCATION OF CITIZENSHIP FOR TREASON

WASHINGTON, Jan. 14. (JTA)-- President Roosevelt ordered today that all enemy aliens within the U. S., Puerto Rico and the Virgin Islands obtain certificates of identification. Attorney General Biddle will set up the machinery for issuing the certificates.

The House passed by voice vote and sent to the Senate yesterday a bill to permit the withdrawal of citizenship from any naturalized American whose "conduct establishes that his political allegiance is to a foreign state or sovereignty." Under the measure those whose conduct, as disclosed by acts, writings or utterances, establishes them as giving their allegiance to another state or sovereignty, could be classified as enemy aliens and in some instances dealt with accordingly.

This tightening up of the Nationality Act of 1940, along with other restrictions approved by the House, won the support and votes of both major parties of the House. The measure provided also for a speeding-up of naturalization cancellation proceedings, giving naturalized aliens only thirty days, instead of the sixty now allowed, in which to answer complaints filed against them.

BRITISH JEWRY TO RAISE \$200,000 AS A NATHAN LASKI MEMORIAL FUND

MANCHESTER, Jan. 14. (JTA)-- A campaign for a £50,000 memorial fund in honor of the late Nathan Laski, British Jewish philanthropist and communal leader, who died several months ago, was opened today by Lord Derby. It is hoped that the memorial will include extensions to the Manchester Jewish hospital, establishment of a Nathan Laski scholarship at Manchester University, and establishment of a Jewish school and a Jewish communal hall to house the administrative offices of the Jewish community here. £10,000 were subscribed to the fund before the campaign was officially opened, it was announced today.
