ASSEMBLY WILL NOT ADJOURN BEFORE FINAL DECISION ON PALESTINE, ARANHA ASSURES ZIONISTS

FLUSHING MEADOW, Nov. 14. (JTA) -- The current session of the U.N. General Assembly will not adjourn without taking a final decision on Palestine, Chairman Dr. Oswaldo Aranha assured Jewish Agency leaders today.

Meanwhile, the four-nation working group on implementation, undiscouraged by the British refusal to use its administration and armed forces to implement partition, continued to map plans for carrying out the expected Assembly decision.

It was learned today by the Jewish Telegraphic Agency that the American delegation, under pressure from the State Department, has reversed itself with regard to leaving the Aqaba area of the Negev in the Jewish state as recommended in the UNSCOP report. Earlier in the week, U.S. delegate Herschel Johnson announced at a public session of the partition sub-committee that the United States would not object to inclusion of the Aqaba district in the Jewish state, providing that the Jews agree to transfer the Beersheba area of the Negev to the Arab state. Moshe Shertok, on behalf of the Jewish Agency, agreed at that meeting to the suggested compromise.

Without disclosing the reason for their reversal, members of the American delegation stated that the issue of the Aqaba area will be raised again and that the opinion prevailing in Washington is that this area must either be removed from the Jewish state, or that some part of it must remain open as a free corridor to the Red Sea from the Arab state.

Various important aspects of the Palestine issue were discussed here today by Dr. Chaim Weizmann, who saw a number of leading number of delegates, including Mrs. Eleanor Roosevelt. Dr. Weizmann was here informally and did not participate in the open session of the partition sub-committee at which the status of the city of Jerusalem was discussed.

U.S. Asks Internationalization of Jerusalem; USSR, Poland Opposed

While the delegates of Poland and Uruguay pleaded for inclusion of the Jewish section of Jerusalem in the Jewish state, the American, Canadian, South African and other delegates urged internationalization of the whole city under a U.N. trusteeship.

Speaking for the Soviet delegation, Boris Stein, alternate delegate on the Palestine Committee, opposed an international trusteeship for Jerusalem, suggesting instead a special regime which would protect the Holy Places and preserve religious interests. He argued that an international trusteeship as envisaged in the Charter was not applicable to the Arabs and the Jews, particularly to the Jews because of the cultural and political level which they have achieved. He further contended that it was inconsistent and "an amazing situation" to have independent Jewish and Arab states on the one hand, and on the other to place the citizens of these two states who live in Jerusalem under a trusteeship.

Gen. John H. Hilldring, speaking for the United States, said that it does not contemplate for Jerusalem the kind of trusteeship which the Charter specifies for

backward people or for people not yet ready for self-government. He emphasized that the idea of a trusteeship does not raise the question of the ability of the people concerned to govern themselves. Hilldring announced that the Americans will submit a draft outlining the kind of trusteeship they wish for Jerusalem.

Chairman Ksawery Pruszynski of the sub-committee on partition proposed a popular referendum after a three-year period, in which the population of Jerusalem would indicate its attitude toward the political set-up under which the city had been administered during that period. In the event of a two-thirds vote against the current regime, the U.N. would reconsider its decision and partition Jerusalem into a Jewish enclave, and an Arab section and place the Old City under a U.N. trusteeship.

Committee Defers Final Action on Status of Holy City

Dr. Stein questioned the validity of the proposed referendum, declaring that it had little likelihood of practical implementation, since it was obvious that the Jews and the Arabs would each vote according to their own views making a two-thirds vote impossible. British observer John Martin wanted to know what would be the immigration set-up during the three years.

Without going into detailed answers to all the questions raised, the sub-committee asked Karel Lisicky, the Czechoslovak delegate, to coordinate all the proposals made and all the opinions expressed and to bring a definite recommendation, or alternative proposals, to the next session of the sub-committee, which will then vote on his report.

Mr. Shertok stressed that the Jews stand by their demand for the inclusion of the Jewish section of Jerusalem in the Jewish state. However, if the UNSCOP recommendations for the internationalization of the whole of Jerusalem is accepted, the Jewish Agency would welcome the Polish proposal, he said, because it indicates that the internationalization is only a temporary measure. He also outlined the attitude of the Jewish Agency towards an internationalized Jerusalem as follows:

The Agency would prefer that Jerusalem be placed under a special international regime rather than under the U.N. Trusteeship Council; that, although under a unified administration, it be divided into three boroughs - Jewish, Arab and the Old City; that Jewish and Arab residents automatically become citizens of the Jewish and Arab states respectively with the exception of those who specifically do not wish it; that all citizens of the Jewish as well as of the Arab state should be free to settle in Jerusalem whenever they wish; and that the principle of non-discrimination should be practiced by the international administration of Jerusalem.

Partition Will Not Impair Palestine's Economic Absorptivity, Economist Says

NEW YORK, Nov. 14. (JTA) -- The economic absorptivity of Palestine will not be reduced by partitioning of the country, Robert Nathan, prominent economist and co-author of a work on Palestine's economy, declared here today at a press conference arranged by the American Palestine Trading Corporation in connection with a luncheon which the organization will hold Sunday.

He said that within the next ten years at least $3,000,000,000 will be needed for investment in Palestine, whose economy he visualizes as half capitalistic and half "cooperative." He also predicted that 1,000,000 immigrants would flock to the proposed Jewish state within the next decade, bringing the population total to 2,000,000. The immigrants will come firstly from the DP camps and later from the Jewish communities in Arab countries in Asia and North Africa, Nathan said.

FOUR MORE BRITONS DIE IN THIRD DAY OF PALESTINE OUTBREAKS; JERUSALEM CURFEW EXTENDED

JERUSALEM, Nov. 14. (JTA) -- At least four more Britons died today and three were wounded in the third day of the current outbreak of violence in Palestine, as burial services were held for five young Jews, whose killing on Wednesday set off the wave of attacks.

Two soldiers were shot down on one of the main streets of Tel Aviv by men in a speeding taxi. Both died. The city was alerted as sirens wailed and police cars gave chase to the attackers, who escaped.

The other two killed today were policemen in plain clothes who were en route to their assignment at the Mustashfa police station. One died immediately, but the second drew his gun and fired on his assailants. In the subsequent exchange of shots a four-year-old child, Rachel Monshein, was caught in the crossfire and wounded. The constable later died in a hospital.

Earlier, two policemen were seriously wounded when they stepped out of an armored car and became the target of a hand grenade. They were in the process of investigating a partly-completed house from which several shots had been fired at their vehicle.

Late this evening, during curfew hours, several explosions were heard in the city, followed by intermittent firing of small arms and automatic weapons. Later it was officially announced that a police sergeant had been wounded in the leg by two hand grenades thrown at the Mustashfa police station. The firing in the district continued for about an hour.

At least a dozen Jews were picked up by the police and army dragnet during the day in addition to three men arrested last night in the vicinity of the Ritz Cafe blast. Throughout the Jewish sections of the city, blinds were lowered and few persons ventured to leave their homes after dark. Rumors circulating before the curfew deadline stated that troops would be sweeping through the city tonight firing indiscriminately in vengeance for the killing of eleven Britons in three days. In Haifa early this morning, the fourth of a party of British civilians ambushed last night died of wounds.

During the funeral in Tel Aviv of the five Sternists shot Wednesday near Herzlia, all shops along the route of the procession were closed. Shopkeepers who refused to close up were threatened by Sternists and several times guns were fired into the air as a final argument. The Hebrew press criticized the killing of the youths, referring to it as a "massacre."

A Jewish Agency spokesman today stated that the "terrorist activities are a stab in the back to Jewish efforts at Lake Success." It was reported that High Commissioner Sir Alan G. Cunningham had summoned David Ben Gurion to a conference.

Representatives of the Jerusalem Jewish Community Council visited the city's military commander and urged him to lift the dusk-to-dawn curfew which this morning was extended for an indefinite period, pointing out that they had been punished by either a curfew or siege conditions for a good part of the year. The British general replied that the ban was imposed for the protection of the civilians.

Other measures, however, were undertaken for the protection of the British. Soldiers were ordered not to walk about the streets except in fours. Persons living outside the "protected zones" were instructed to be careful, while those within the fortified areas were not permitted to leave except on official business.

RN BLOCKADE RUNNER REPORTED NEARING PALESTINE COAST; 1,000 JEWS BELIEVED ABOARD

HAIFA, Nov. 14. (JTA) -- A blockade runner with about 1,000 visaless Jewish immigrants was today reported nearing the Palestine coast and the naval authorities were said to be preparing to send out fleet units to intercept it.

ESTINE GOVERNMENT WEAKENING JEWISH SETTLEMENT POLICE BY BARRING REPLACEMENTS

JERUSALEM, Nov. 14. (JTA) -- The Palestine Government is sabotaging Jewish fense by refusing to allow replacements to fill vacancies in the ranks of the Jewh Settlement Police, according to a source connected with Jewish security agencies.

The JSP is the only legal defense body the Jews possess. The Government inpectors assess what they consider to be the minimum defense requirements of the rious Jewish settlements scattered throughout the country and on this basis authorze each settlement to have so many police officers and so many licensed rifles. The ll complement of the JSP is 1,700. Following the normal seasonal resignations of e force as well as vacancies because of accidental death or illness, the JSP is w ten percent below par, according to this informant.

This fall the Government has forbidden the usual replacements on the ground hat the Palestine problem is subject to the United Nations and nothing must be done o upset the status quo here. "This means," the JTA informant said, "if a settlent that is entitled to six JSP officers, loses five of them in a road accident, maye, or in an epidemic, the settlement's authorized defense is down to one man and one rifle, and stays down."

CONGRESSWOMAN HITS U.S. STAND ON PARTITION ON RETURN FROM PALESTINE; SAYS MUFTI POPULAR

WASHINGTON, Nov. 14. (JTA) -- Warning that the Arab states surrounding Palesine are preparing to fight the establishment of a Jewish state, Congresswoman Franes P. Bolton, Ohio Republican, today told the House Foreign Affairs Committee hearing on foreign aid that the U.S. stand backing partition had created general "dissatisfaction" in the Middle East.

Mrs. Bolton and Rep. Chester E. Merrow, Republican of New Hampshire, arrived in Jerusalem the day the U.S. stand backing partition was announced. "It was immediately apparent that no group was pleased with the U.N. plan," she said. "Although the Jewish Agency had accepted the partition plan it seemed to be generally understood that they did so temporarily." She said they found groups "of considerable size not only in the United States but in Palestine as well who are deeply opposed to the Zionist program."

It was the responsibility of the U.S., Rep. Bolton said, to take note of the Arab attitude which she asserted had had little airing in this country. She said the Mufti was growing in popularity and power and that xenophobia is "very much on the increase" in all the countries of the Near and Middle East, "undoubtedly subtly fostered by the Kremlin, but in the Near East openly led by the Mufti. He is a power and his announcement that all in disagreement with him will be liquidated does not help the peaceful solution of the partition plan should action be definitely taken up by the U.N."

CONGRESS SHOULD ACT IMMEDIATELY TO ADMIT DP'S, SAYS HOUSE INQUIRY COMMITTEE

WASHINGTON, Nov. 14. (JTA) -- Congress should immediately enact legislation permitting the immigration of displaced persons, and the U.S. should take the lead in calling a conference of the IRO to set quotas for all countries, it is recommended today in the official report of the House Foreign Affairs sub-committee, which studied DP problems in Europe this summer.

The committee, which was headed by Rep. James G. Fulton, Republican of Pennsylvania, recommended approval by the U.N. of the admission to Palestine within the next two years of 150,000 displaced Jews, declaring that this would virtually solve the Jewish DP problem in Europe. It also called for the concentration of all Jewish DP's in Italy in a camp at Bagnoli, near Naples, which would place them close to ports from which they could sail for Palestine.

U.S.ARMY IN AUSTRIA ASKS TRANSFER OF JEWISH DP'S TO GERMANY; APPEALS TO WASHINGTON

MUNICH, Nov. 14. (JTA) -- American military authorities in Austria have been clamoring for the transfer of at least 20,000 Jewish infiltrees to the U.S. zone of Germany because Army facilities in Austria are swamped, it was confirmed here today.

It was also learned that the U.S. officials in Germany are opposing the request, asserting that the problem in their zone is large and troublesome enough without the addition of several tens of thousands of DP's.

The pressure in Austria, however, has become even greater since the beginning of the influx of Jews from Rumania. It is understood that the latest appeals have been sent directly to Gen. Lucius D. Clay, commander in the U.S. zone of Germany, and to Washington. It is considered possible that Washington may order a transfer of refugees between the zones such as occurred last year when Polish Jews were flocking into Vienna and its environs.

Headquarters in Vienna has pointed out, in its appeals, that since America treats Austria as a "liberated" country, rather than as an occupation area, many of the installations originally in the hands of the Army have been turned back to the Austrian Government. In addition, the Army pays for its supplies and those of the DP's in dollars. The lack of space and the shortage of funds available to the command in Austria militate against its ability to cope with the problems of the new arrivals.

BRITISH STINT ON FOOD FOR EXODUS REFUGEES;HALF OF CAMP INMATES ARE WITHOUT BEDS

EMDEN, Germany, Nov. 14. (JTA) -- Conditions at the camp here which houses 2,400 of the Exodus refugees are so bad that the elected camp committee has notified the British occupation authorities that unless drastic improvements are made soon, the committee will refuse to function as the intermediary between the authorities and the refugees.

A committee spokesman pointed out that the British are now three days behind in bread rations and are not distributing other promised food regularly. He revealed that only half of the refugees have beds and mattresses, while the others sleep on the floor. Despite the hardships, five couples were married yesterday in a mass wedding and three couples today.

The ORT has started eight vocational training courses for the Exodus refugees here. Some 1,400 persons have registered for the classes, which are designed exclusively for the Exodus people, and will be taught electrical engineering,carpentry and dressmaking.

ECUADOR STUDYING CASE OF REFUGEES DETAINED AFTER ARRIVAL BY AIR FROM EUROPE

QUITO, Ecuador, Nov. 14. (JTA) -- Twenty-eight Jewish refugees who were detained at Guayaquil on Wednesday when they landed from a Belgian overseas plane have been released on bond furnished by the HIAS, it was learned today.

Ten of the arrivals had Ecuadorean visas and 18 had Colombian entry permits. The authorities are challenging the validity of the Ecuadorean visas, which were issued by the consulate in Paris. A spokesman here said that the country could not admit immigrants without capital or old women. A citizens board is being set up to pass on the cases.

WALLACE LAUDS ACHIEVEMENTS OF HISTADRUTH IN SPEECH TO CINCINNATI MEETING

CINCINNATI, Nov. 14. (JTA) -- The achievements of the Histadruth settlements and institutions in transforming war-tossed DP's and oppressed Yemenite Jews into healthy normal human beings were described here yesterday by Henry Wallace, addressing a fund-raising luncheon of the Cincinnati Histadruth Campaign.

Mr. Wallace credited the Histadruth with being instrumental in welding the unity of labor and management which has built a Jewish homeland in Palestine. The Cincinnati drive, which aims at raising $50,000, is headed by Rabbi James G. Heller and Maurice A. Chase. Rabbi Samuel Wohl presided at today's luncheon.

PHILIP M. KLUTZNICK, B'NAI B'RITH LEADER, GETS MEDAL OF MERIT FOR HOUSING ACTIVITIES

CHICAGO, Nov. 14. (JTA) -- President Truman today awarded the certificate of merit to Philip M. Klutznick, of Chicago, a member of the national executive committee of the B'nai B'rith, for his war-time and post-war services as regional director of the Division of Defense Housing Coordination, assistant administrator of the National Housing Agency and commissioner of the Federal Public Housing Authority. Presentation was made here by Brig. Gen. Harry L. Twaddle, of the Fifth Army staff, on behalf of President Truman.

TRUMAN ENDORSES INTER-FAITH SHRINE HONORING CHAPLAINS WHO DIED IN SINKING OF TRANSPORT

WASHINGTON, Nov. 14. (JTA) -- The construction of an inter-faith shrine in Philadelphia in commemoration of four Army chaplains of the Protestant, Catholic and Jewish faiths who died in the sinking of the troop transport Dorchester on Feb. 3, 1943, has received President Truman's endorsement.

The President has promised Rev. Daniel A. Poling, father of one of the chaplains, that he would send a message to a dinner December 15 commemorating the shrine. The Jewish chaplain was Alexander Good of York, Pennsylvania. The chaplains died after giving their life preserver belts to soldiers who were without them.

DR. DUBROVSKY, NEW PRESIDENT OF ARGENTINIAN JEWISH REPRESENTATIVE BODY INSTALLED

BUENOS AIRES, Nov. 14. (JTA) -- The major role of the DAIA, central Jewish representative body in Argentina, is its fight against anti-Semitism, Dr. Ricardo Dubrovsky, newly-elected president, declared at a ceremony installing him and the other officers. At Dr. Dubrovsky's suggestion, Dr. Moises Goldman, his predecessor, was elected honorary president.

Dr. Goldman expressed the hope that the new administration of the DAIA will be able to continue the work of bringing various Jewish problems to the attention of the Argentine public. He thanked the Jewish press for its assistance to the DAIA and singled out the Jewish Telegraphic Agency for praise for disseminating information concerning the organization's activities.

JEWISH SECULAR DAY SCHOOL ESTABLISHED IN NEW YORK; OPENS WITH 40 PUPILS

NEW YORK, Nov. 14. (JTA) -- The establishment of the Kinneret Jewish National School, the first secular Jewish school of its kind in the United States, was announced at a press conference here. The school, which has 40 pupils in the kindergarten and first year class, and offers instruction in Hebrew, Yiddish and English, is sponsored jointly by the Jewish National Workers Alliance and the Pioneer Women.
