COMMUNISTS DEMONSTRATE IN JERUSALEM AND TEL AVIV AGAINST U.S. INTERVENTION IN KOREA

JERUSALEM, July 9. (JTA) -- Communist demonstrations against the Israel Government's stand on Korea were held last night in Jerusalem, Tel Aviv and Haifa.

In this city some 50 persons marched through the streets carrying Hebrew and English banners reading: "Hands Off Korea," "We Want Peace" and "End American Aggression." The demonstrators attracted little attention.

In Tel Aviv several hundred Communists carried banners reading: "Israel for the Israelis, Korea for the Koreans." They held a meeting near the American consulate which was addressed by a speaker who condemned American intervention in Korea.

The left-wing Socialist Mapam Party has called 50 mass meetings in various parts of Israel to protest against the Israel Government's decision to support the U.N. Security Council resolution on Korea. The main slogan of the rallies are: "Hands Off Korea."

The United States Embassy here announced that all American Air Force reserve pilots must report to the air attaché at the embassy within 72 hours.

FIVE ARAB STATES SUPPORT UNITED NATIONS RESOLUTION ON CEASE-FIRE IN KOREA

LAKE SUCCESS, July 9. (JTA) -- Iraq, Syria, Saudi Arabia and Yoman today joined Lebanon in sending a non-committal reply to the United Nations in support of the Security Council resolution of June 25 which called for a cease-fire in Korea and ordered the North Koreans to halt their invasion of South Korea.

The replies do not specifically mention the Security Council's resolution of June 27 which calls on members of the U.N. "to furnish such assistance to the Republic of Korea as may be necessary to repel the armed attack and to restore international peace and security in the area."

This action on the part of the five members of the Arab League virtually expresses disapproval of the stand taken by Egypt in abstaining from support of the Security Council resolution on aid to Korea. A reported Saudi Arabian note to Cairo was understood to stress that Egypt's decision ran "counter to Saudi Arabian policy."

It was reported from Cairo that Egypt is disappointed over the guarded resolutions of the other Arab states. The most influential newspapers in Cairo--representing both the Wafd Party and the more conservative political forces--have expressed surprise and chagrin at the action of the other Arab League members and criticized them for failing to demonstrate pan-Arab solidarity.

U.N. Secretary-General Trygve Lie yesterday sent to General Douglas MacArthur, commander of the U.S. forces on Korea, the same blue-white U.N. flag which flew in Palestine during the U.N.-supervised truce negotiations. The flag was presented to chief U.S. delegate Warren Austin for transfer to MacArthur.

GENEVA, July 9. (JTA) -- The United Nations Conciliation Commission for Palestine, which is now in Geneva attempting to negotiate permanent peace treaties between Israel and the Arab countries, will proceed to Jerusalem next week, it was announced here this week-end.

ISRAEL POLICE APPREHEND 105 INFILTRERS IN RAID ON ARAB VILLAGE NEAR JERUSALEM

JERUSALEM, July 9. (JTA) -- In a sudden raid, Israel police this week-end swept down on the Arab village of Abu Gosh, west of here, and rounded up 105 infiltrators. The raid was begun at dawn and a curfew was immediately begun. Police began a house-to-house search demanding to see Israel Government identity cards, which were issued only to Arabs and Jewish residents in Israel.

Today the mukhtar of the village telegraphed Joseph Sprinzak, Acting President of Israel, Premier David Ben Gurion and Foreign Minister Moshe Sharett pleading with them to postpone the deportation of the infiltrators until after they had given a hearing to a delegation from the village. The Arab leader's message declared that the delay was necessary to "avert a calamity which threatens our women, children, the aged and innocent men."

In an Upper Galilee settlement a Jewish guard, Shalom Monachen, was killed last night by marauding infiltrators from Syrian territory.

HISTADRUT CALLS ON NURSES TO END FOUR-DAY STRIKE AS ORDERLIES JOIN WALK-OUT

TEL AVIV, July 9. (JTA) -- The executive council of the Histadrut today called on some 2,000 nurses in Israel hospitals and clinics who are now in the fourth day of a nationwide strike to return to work by Tuesday.

Meanwhile, about 100 orderlies today walked off their jobs and joined the nurses. Several hundred doctors have threatened to stop work unless their demands for improvement in wages and working conditions are met.

At the same time the Histadrut executive expressed support of the nurses' demands. It threatened, however, that if the nurses did not return to work the matter would be turned over to the Histadrut secretariat for action. Earlier this week-end the executive criticized the nurses for going on strike "without adequate consultation."

Hadassah representatives told a press conference that the organization, which operates a wide network of hospitals and clinics, had agreed to the wage demands of the nurses but could not agree to a seven-hour working day. A reduction in hours would mean a reduction in the number of beds which Hadassah facilities could offer, they said, adding that if the strike continues patients may have to be sent home from hospitals.

J.N.F. ACQUIRED 1,000,000 DUNAMS OF ARAB LAND; PAID \$30,000,000 TO ISRAEL GOVERNMENT

TEL AVIV, July 9. (JTA) -- A million dunams (250,000 acres) of land abandoned by Arabs in Israel was bought last year by the Jewish National Fund, it was announced this week-end by Dr. Abraham Granot, head of the J.N.F., at a reception tendered to him on the occasion of his sixtieth birthday. More than 3,000,000 trees were planted by the J.N.F. last year and 5,000,000 trees will be planted this year. The organization is also active in reclamation of desert land in the Negev and in financing housing projects, Dr. Granot reported.

The budget of the Jewish National Fund for this year is about \$50,000,000, of which \$30,000,000 has been collected from Jews in all parts of the world, notably in the United States. The remainder is being covered by loans, including a \$6,000,000 loan from Swiss banks and a \$4,000,000 loan from French banks. The Jewish National Fund is also negotiating a \$6,000,000 loan with Swedish financiers, Dr. Granot said.

AMERICAN AND FRENCH CONSULS ATTEND CEREMONY IN ISRAEL SETTLEMENT "ADOPTED" BY U.S. JEWS

JERUSALEM, July 9. (JTA) -- The United States and French consuls here this week-end attended a ceremony at the Neve Ilan settlement which was "adopted" by the Zionist region of Long Island, New York, and populated by French and Belgian immigrants who, as Maquis, fought the Nazis.

The ceremony marked the laying of a cornerstone of a kindergarten in the collective settlement. The funds for the building were raised among Zionists in Long Island. The Long Island Region has also sent refrigerators and egg incubators to the settlement.

At a luncheon which followed the ceremony, the American and French consuls praised the achievements of the settlement which was founded three years ago on land belonging to the Jewish National Fund. Other speakers included H. George Rayne, former dean of New York University, who announced that he came here to negotiate with the Israel authorities for the inclusion of the Jewish state in the framework of the "Save the Children Organization," of which he is a vice-president.

BERTRAND RUSSELL WARNS AGAINST ANTI-SEMITISM; SAYS IT CAUSED SPAIN'S DECAY, HITLER'S FALL

SYDNEY, July 9. (JTA) -- Anti-Semitism is an obstacle to world government, Bertrand Russell, noted philosopher who is visiting Australia on a lecture tour, declared here this week-end.

"Hostility to Jews is the most single unfortunate and beastly example of race prejudice," Mr. Russell said. "Those attributing traditional faults to Jews are merely rationalizing."
