ON PEACE PROPOSALS PUBLISHED - CALL FOR ARMISTICE REVISION

PARIS, Sept. 24. (JTA) -- The United Nations Conciliation Commission on Palestine tonight made public the five-point peace proposals prepared by the commission and submitted to Israel and the four Arab States with which Israel now has armistice agreements. The proposals call for revision or amendment of the existing armistice agreements on a number of points. The preamble to the proposals asks the governments to pledge themselves to refrain "from any use of force or acts of hostility" and thus promote peace in Palestine. The following are the points of the proposals:

1. Agreement on war damages, including mutual cancellation of claims by Israel and by the Arab States.
2. Israel to agree to repatriate a specified number of Arab refugees who can be integrated in the Israel economy and wish to return.
3. Israel to agree to compensate the Arab refugees who do not return for their abandoned property by payment of a global sum based on the commission's estimates. An easy payment plan would be arranged.
4. The Arab States and Israel would mutually release all blocked accounts and make them payable in pounds sterling.
5. The Arab States and Israel to agree to revise or amend the armistice agreements.

Proposals Call for "Territorial Adjustments"

A broad range of questions is envisaged under the fifth point. They include "territorial adjustments, including the demilitarized zones," and creation of an international water authority to deal with the problem of use of the Jordan and Yarmuk rivers, their tributaries and the water of Lake Tiberias. It would also cover disposition of the Gaza strip, now occupied by Egypt, creation of a free port at Haifa, and border relations between Israel and her neighbors with special attention to free access to the Holy Places in the Jerusalem area, including Bethlehem.

The fifth point also suggests agreements on health, narcotics and contraband controls along the demarcation lines and arrangements to facilitate the economic development of the areas as well as resumption of communications and economic relations between Israel and her neighbors.

A commission spokesman said tonight that no party had committed itself to acceptance of the proposals but that both Israelis and Arabs had agreed to cooperate with the U.N. body. He asserted that the preamble closely parallels the Israeli plea for a non-aggression pact, although it does not specifically envisage a treaty. He said the plan does not have to be accepted in its entirety although it is an overall plan. "Any proposals outside the commission's own plan certainly will not be ruled out of order," he declared.

An Israeli delegation spokesman declined to comment on the proposals tonight. The text of the plan was cabled to Tel Aviv last night. The commission will meet with the Arab delegations tomorrow and probably with the Israelis later in the week.

AMERICAN ENVOY DISCUSSES PEACE PLAN WITH ISRAELI MINISTRY

TEL AVIV, Sept. 24. (JTA) -- U.S. Ambassador Monnet B. Davis called on Dr. Walter Eytan, director general of the Israeli Foreign Ministry, this morning. It is understood that he informed the Israelis of the view taken by the State Department on the five-point proposals for peace in the Middle East submitted to Israel and the Arab States by the U.N. Conciliation Commission on Palestine and sought to elicit Israel's views. The proposals are to be considered by the Israeli cabinet this week.

(Reuven Shiloah, special advisor to the Israeli Foreign Ministry, arrived in Washington today for general discussions with the State Department which will include questions involving the current peace discussions being held in Paris.)

ISRAEL CANNOT SPARE TROOPS FOR KOREA, UNITED NATIONS TOLD

UNITED NATIONS, N.Y. Sept. 24. (JTA) -- The Israel Government today informed the United Nations that it is unable at this time to allocate troops to the Korean area because of the uncertain relations between the Jewish state and its Arab neighbors.

Replying to a query by U.N. Secretary-General Trygve Lie, Ambassador Abba Eban pointed out that the Arab states have refused to replace the armistice agreements between themselves and Israel with peace treaties and that the Arab states, led by the Arab League, are waging active economic warfare against Israel. In addition, he pointed out, political parties and organs of opinion in some of these states have referred to the possibility of resuming hostilities with Israel. When peace is restored, the Israel Government pledged, it will reconsider its decision concerning the allocation of troops.

It is expected here that in the expected compromise, \$167,500,000 will be allocated for Near East aid. This is half-way between the \$175,000,000 voted by the House and the \$160,000,000 voted by the Senate.

DENY REPORTS OF IMMIGRATION CURTAILMENT BY ISRAEL

JERUSALEM, Sept. 24. (JTA) -- Reports abroad that immigration into Israel was being reduced either with official or unofficial sanction of the authorities brought a sharp denial today from the Jewish Agency immigration department. The falling off of immigration during August and September was described as "seasonal" and is due to new technical procedures in Rumania which reduced by one-half the normal transfer of 4,000 monthly from that country.

About 7,000 immigrants arrived in Israel in August with about 8,000 scheduled for September, as compared with 15,000 monthly before. There has been no change in the Rumanian Government's policy on emigration to Israel, it was pointed out, but in recent weeks the procedure of notifying prospective emigrants only a few days in advance of their scheduled departure forced many to delay their sailing. It was predicted that immigration would pick up within the next few months, especially from Iran. Two planes now bring in about 200 immigrants daily from that country. This service will be increased.

NEW DETERGENTS PLANT ESTABLISHED IN ISRAEL BY AMERICANS

TEL AVIV, Sept. 24. (JTA) -- Establishment of a new factory in the Haifa Bay area producing synthetic detergents and financed exclusively by American capital was announced here today by Harold J. Goldenberg of Minneapolis, president of the Kadimah Commercial Corporation. He said the plant would produce twice Israel's present consumption of detergents and its production would save foreign currency for Israel.

The company plans also to process chemicals for the textile, leather, metal and rubber industries for local consumption and export, he said. Associated in the project, he said, are a group of Philadelphians headed by William Syk and Samuel Daroff, and Sam Rothberg and Julian Venetzky of Peoria, Ill.

PROPOSE \$5,000,000 Z.O.A. PROGRAM FOR WORK IN ISRAEL AND U.S.A.

WASHINGTON, Sept. 24. (JTA) -- An expanded program of economic aid to Israel through Z.O.A. projects and for increased activity on the American scene, calling for a total budget of \$5,000,000 a year, was submitted by Louis A. Falk, chairman of the Z.O.A. projects fund, to the national administrative council of the Zionist Organization of America here last night. Of the total, \$3,000,000 would be spent on Israel projects and \$2,000,000 on an American program.

Benjamin G. Browdy, president of Z.O.A., in an address to the conference, pledged the Z.O.A. to fulfillment of the program set by the 23rd World Zionist Congress and called on all factions in the American Zionist movement to unite and submerge their differences to the overall objective of making Israel strong and ensuring its economic stability.

He said that the best way for American Zionists to answer doubts and misunderstandings would be for "American Zionists and American Jewry to show by deeds their true character and high destiny." He said the Z.O.A. would keep its pledge to sell \$100,000,000 of State of Israel bonds and said the Z.O.A. has sold the major portion of the bonds already sold in this country.

Abraham A. Redelheim, chairman of the council, joined in the call for a united front dedicated to the ultimate realization of the entire Zionist program. He said the wrangling among various factions that had marked the first stages of the Congress sessions in Jerusalem are now "water over the dam" and all have united on the program of work adopted.

AUSTRALIA ACTS TO AID DEPORTED HUNGARIAN JEWS

SYDNEY, Sept. 24. (JTA) -- In a move to rescue some of the Hungarian Jews deported from Budapest and other large cities to centers for "undesirable" elements, the Australian Government's Department of Immigration at Canberra has suggested to the Chief Immigration Officer at London that he authorize the British passport officer in Budapest to issue letters to Hungarian Jews eligible for Australian immigration visas. Possession of such documents would permit the deported Jews to return to the capital.

The government action followed intervention with the authorities by Walter Brand, general secretary of the Australian Federation of Jewish Welfare Societies. The document would state that the bearer had obtained or was entitled to receive an Australian visa.

SPECIAL SECURITY MEASURES IN FORCE IN ADEN TO PROTECT JEWS

LONDON, Sept. 24. (JTA) -- Special security measures have been taken by the local authorities in Aden to prevent Moslem anti-Jewish disturbances there, the British Colonial Office disclosed today. Tension had arisen in the colony following the elopement of a young Jewish girl to the home of a Moslem youth. A report from the Governor of Aden to the Colonial Office today stated that the authorities had brought the girl home to her mother but that she had refused to stay there. Brought to the home of Dr. Cochrane, head of Aden's medical services, she again ran away to the young Moslem's home. A further report has been asked of the governor, the Colonial Office said. It expressed confidence that the Aden authorities "will continue to exercise vigilance in safeguarding the security of the Jewish community."

WASHINGTON JEWISH CENTER, SYNAGOGUE RANSACKED BY VANDALS

WASHINGTON, Sept. 24. (JTA) -- Metropolitan police reported today that both the Washington Jewish Community Center and the new Adas Israel Synagogue were entered by intruders over the week-end.

A first floor window was forced at the community center, desk drawers were opened, papers scattered, doors smashed, and the place was ransacked. Edward Rosenblum, director of the center, said nothing was stolen and described the break-in as the work of vandals.

Two doors were jimmied at the new \$1,500,000 Adas Israel Synagogue which was dedicated this week-end with congratulations from President Truman. Rabbi David H. Panitz said that the intruders searched the synagogue but took nothing and desecrated no sacred objects. The synagogue is located about a mile from the community center.

NEW YORK KOSHER MEAT SUPPLIES MAY BE CUT OFF IN PRICE PROTEST

NEW YORK, Sept. 24. (JTA) -- The American Federation of Retail Kosher Butchers threatened a shutdown of 3,400 retail kosher meat markets in the New York area today unless the authorities act to eliminate an alleged huge black market in kosher meat. A meeting of butchers yesterday was told that most of the meat available at wholesale markets here was at black market prices. Consumer resistance to high prices, they complained, prevented them from passing the costs on.
