ISRAEL SAYS ARABS VIOLATE CEASE-FIRE PLEDGES; PROTESTS TO U. N. CHIEF

JERUSALEM, May 8. (JTA) -- Israel tonight protested to United Nations Secretary General Dag Hammarskjöld the most recent outbreaks of violence along the Israel-Egyptian and Israel-Jordan borders. The Foreign Ministry's message told Mr. Hammarskjöld that the latest incidents made dead letters of the cease-fire pledges given him by the Arab states.

Meanwhile, the Israel-Jordan Mixed Armistice Commission failed to condemn Jordan for the blasting of a building at Kfar Yavitz, near Nathanya, by infiltrators who fled back across the Jordan border. The American chairman, Cmdr. J. Terrill, abstained despite evidence that UN observers had followed the tracks of the observers to the Jordan border.

Afterwards, the Israel delegate on the MAC deplored the commission's failure to reach a decision. By obscuring the issue, he said, the MAC had failed in its duty and had not supported Mr. Hammarskjöld's efforts to improve the situation.

Israel today honored the "Davidka," the hastily manufactured cannon which is credited with having saved Jerusalem from the Arab Legion during the invasion of 1948. A replica of the gun, carved of marble from the Judean Hills, was unveiled today at a ceremony attended by thousands of residents of this city.

U. S. CRUISER ARRIVES AT HAIFA ON GOODWILL VISIT; ADMIRAL EXPLAINS MISSION

TEL AVIV, May 8. (JTA) -- The United States cruiser Albany sailed into Haifa harbor today on a goodwill visit. The cruiser exchanged a 21-gun salute with Israeli naval craft in the port.

As the Albany dropped her anchor overboard, the crew of 1,500 stood at attention on her main deck, the band played "Hatikvah," the Israeli anthem, and the Israeli flag was hoisted aloft. The ship's band paraded and played in Tel Aviv this afternoon, and will give a repeat performance in Haifa tomorrow.

The mission of the Sixth United States Fleet, stationed in the Mediterranean Sea, is, among other things, to "be ready to take instant naval action in the case of an emergency in which the security and freedom of our friends are jeopardized." Rear Admiral Ephraim McLean, commander of the Albany and of the Second Cruiser Division of the Sixth Fleet, told Israeli naval officers at a luncheon today aboard the Albany.

He told his guests, who included the head of the Israeli Navy, Cmdr. Shmuel Tankus, that the fleet's mission also included: training officers and men in Mediterranean waters, give the crews an opportunity to improve their knowledge of various nations of the region and to visit their ports, and to protect American interests "as our naval units protect them all over the world."

EISENHOWER GREET'S B'NAI B'RITH CONVENTION; DULLES ADDRESSES DELEGATES

WASHINGTON, May 8. (JTA) -- President Eisenhower, in a message today to the triennial convention of the B'nai B'rith here, said he was "glad to know" the Secretary of State John Foster Dulles will address the convention. (The Secretary of State was scheduled to speak at a dinner tonight climaxing the convention. By the time the Bulletin went to press his speech had not been released for publication.)

In his message, President Eisenhower said that the B'nai B'rith had "done much to combat ignorance and intolerance, to serve the cause of education, and to provide assistance to those in need." He expressed confidence that the members of the B'nai B'rith "will continue steadfast in their devotion to justice and freedom and equality of opportunity, and that they will carry forward, through their endeavors in communities throughout the country, their organization's long honored history of service."

The convention expressed its "earnest approbation of the Administration's policy of giving full cooperation to the United Nations" in a resolution. The B'nai B'rith warned against "permitting sectarian religious indoctrination in public schools" and said that religious teaching in public classrooms tended "to minimize the importance of the principle of separation of church and state." The B'nai B'rith asked political leaders "to repudiate publicly the efforts of hatemongers to inject bigotry" into the forthcoming national elections.

CANADA TO AWAIT HAMMARSKJOLD'S VIEWS BEFORE SELLING SABRE JETS TO ISRAEL

OTTAWA, May 8. (JTA) -- The Canadian Government denied today reports that it was selling 20 Sabre jets to Israel. A spokesman for the External Affairs Department said that the Cabinet has reached "no decision" on the granting of an export permit for jet fighter aircraft for Israel.

An Israel application for 20 jets has been before the Cabinet for some weeks, but it was indicated today that although the Canadian Government looks favorably upon the application, no formal action will be taken until United Nations Secretary General Dag Hammarskjold has completed a round of conferences in New York in connection with his recent talks with the Governments of Israel and the Arab countries.

(In the past two days, Mr. Hammarskjold has met with: Dr. Joza Brilej, of Yugoslavia, and this month's Security Council president; Henry Cabot Lodge, Jr., American delegate to the UN; Sir Pierson Dixon, British delegate; Herve Alphand, French delegate; Arkady A. Sobolev, Soviet delegate; Dr. Djalal Abdoh, Iranian delegate; and U. Win, Burmese delegate and chairman of the Asian-African conference.)

EBAN DISCUSSES JORDAN WATER DEVELOPMENT STUDY WITH STATE DEPARTMENT

WASHINGTON, May 8. (JTA) -- The attention of the State Department was drawn today to recommendations of an American board of engineers which included a conclusion that Israel should resume work on the disputed Bnot Yaacov project of developing the Jordan River's waters on the Syrian-Israel border.

Israel Ambassador Abba Eban discussed the engineering study with Herbert Hoover, Jr., Undersecretary of State. Today's discussion pertained mainly to economic problems of mutual interest including financial assistance as well as irrigation. It is thought that the pending administration request for aid funds for Israel for the new fiscal year was discussed.

Acknowledging that the Jordan River matter was taken up with Mr. Hoover, Mr. Eban said the Israel Government would study the engineering recommendations with interest. He did not reveal Mr. Hoover's reaction to the board's report, if any. Mr. Eban, meanwhile, made known that he hoped to have an early opportunity to discuss the most recent border incidents with UN Secretary General Dag Hammarskjold who is now preparing a report to the UN on the cease-fire and related matters.

The State Department announced today that Israel has been invited to send an observer to a meeting of the International Cotton Advisory Committee to be held in Washington this week under U.S. Government auspices. Israel will be represented by Aryeh Manor, head of the New York office of the Israel Supply Mission. Egypt is a member of the international cotton group.

U.S. MAY FIND IT NECESSARY TO ARM ISRAEL, CONGRESS MISSION FORESEES

WASHINGTON, May 8. (JTA) -- A House Foreign Affairs study mission composed of six Congressmen who visited the Near East late last year, submitted a report which opposed supplying either the Arabs or Israel with arms, but said that unless a settlement is achieved, it may be "advisable or necessary" for the United States to provide Israel with arms.

In its formal report to Congress, the mission expressed a view "that our government cannot allow Israel to fall any more than it could support Israel in any act of aggression." The group added: "Likewise, our government cannot allow the Arab countries to gain such superiority in Communist-obtained arms that they might be tempted to start an aggressive war against Israel." The mission was headed by Rep. Clement J. Zablocki, Wisconsin Democrat.

The Congressmen blamed Israel for "provocative military actions" carried on to the extent that the Arabs "felt forced to seek arms even from the Soviet bloc." A recommendation was made by the Congressmen that the United States seriously consider severing financial support of Palestinian Arab refugees. They said these refugees not only do not feel "a modicum of gratitude" for American help but actually blame the United States for their plight.

The mission said the West must apply its highest diplomacy to bring about Arab-Israeli settlement or risk World War III. A conclusion was made that no easy solution was available and that Soviet intrigue in the region immensely complicated the problem.

BURMA TO PLANT 1,000,000 ACRES OF WHEAT FOR SALE TO ISRAEL

NEW YORK, May 8. (JTA) -- The Burmese Government is planning, in conjunction with Israeli experts, to plant 1,000,000 acres of wheat for sale to Israel, the New York Times reported today from Rangoon.

Reviewing the relations between Israel and Burma, the Times noted that they were better than between Israel and any other Asian country. Israel was helping to develop Burmese enterprise on a partnership basis, the Rangoon cable pointed out. This friendship, plus the fact that Burma is having difficulty in selling its chief export crop, rice, has caused it to consider raising wheat for Israel, the report indicated. Under the plan, the Israelis would supply the experts and equipment while Burma supplies the land and labor.

TURKISH NEWSPAPER SUSPENDED FOR THREE DAYS FOR ATTACKING JEWS

ISTANBUL, May 8. (JTA) -- A front-page attack on Jews has cost the newspaper Buyuk Dogu (Great East) a three-day suspension, according to a military communique issued here. The newspaper has a small circulation.

The article, by Necip Fazil Kisakurek, who has served several prison terms for similar offenses, charged that the Jews had, throughout their history, sought to destroy Turkey. It also saddled the Jews with responsibility for a revolt within the Democratic Party against its leader, Premier Adnan Menderes, and charged that the attack was a cover for an attempt by the Jews to destroy the party.

JEWS IN EUROPE GET \$8,000,000 ANNUALLY FROM J. D. C., CLAIMS CONFERENCE

PARIS, May 8. (JTA) -- The Joint Distribution Committee and the Conference on Jewish Material Claims Against Germany have made allocations averaging \$8,000,000 annually during the last three years for Jewish needs on the European continent, it was reported here today at the conclusion of a conference of Jewish community organization heads in 12 European countries convened by the JDC.

At the same time, Moses A. Leavitt, executive vice chairman of the JDC and an official of the Claims Conference, told the parley that the question facing European Jews was no longer the survival of individual Jews but the survival of Jewish traditional, social and cultural institutions. "In planning your community structures," he said to the conferees, "you must give first consideration to this question of Jewish survival because whatever you build will be meaningless if there are no Jews in the future to use the structure you build. We do not want to erect monuments. We want to help maintain institutions that will make the Jewish community richer and fuller and, we hope, more Jewish," he concluded.

Charles Jordan, acting JDC director general, asserted that the aims of the JDC and of the Claims Conference were identical -- "to assist in the rehabilitation of the Jewish communities and to help them in their efforts to restore themselves to positions of strength and security." Saul Kagan, Claims Conference secretary, warned that the availability of Claims Conference funds was limited and that since the organization hopes to make lasting contributions with limited funds it is "focusing its attention more and more on the granting of special one-time contributions and less on current maintenance."

ANTI-SEMITISM SUSPECTED IN FEDERAL SECURITY PROGRAM SUSPENSIONS

WASHINGTON, May 8. (JTA) -- Many suspensions of government employees under the Federal security program "were animated by elements of anti-Semitism," Henry Edward Schultz, national chairman of the B'nai B'rith Anti-Defamation League, declared today in a report on civil rights issues at the B'nai B'rith triennial convention here.

Mr. Schultz said that an "overriding concern" for national security in the last three years has posed "a strong challenge to our most cherished institutions and basic concepts of civil liberties." This, he stated, has "developed a situation which lent itself to political exploitation" and "produced a climate which gave sustenance to the political demagogue, the opportunist, the bigot and irresponsible elements subversive of our democratic society."

A nation-wide program to combat juvenile delinquency was also proposed at the convention. A recommendation was made for organized local participation by the 400,000 members of B'nai B'rith, working through their 1,750 lodges and chapters in the United States and Canada, in a 10-point "prevention and control" program of youth waywardness.

PROF. BOEHM DONATES HIS \$1,000 AWARD TO FRANKFURT JEWISH COMMUNITY

FRANKFURT, May 8. (JTA) -- Professor Franz Boehm, Christian Democratic member of the Bundestag and German champion of reparations for Israel as well as of indemnification for Nazi victims, today presented to the Frankfurt Jewish Community the \$1,000 prize which he received last month as the Stephen Wise Award from the American Jewish Congress in New York.

The Frankfurt Community, in turn, resolved to endow a classroom in its new religious school with the prize money and to commemorate Prof. Boehm's gesture on a bronze plaque that is to be set into the wall of the room.

Prof. Boehm, the first German to be honored in this fashion, is a 61-year-old Protestant who teaches cartel law at Frankfurt University. He served as chairman of the German delegation in the 1952 reparations negotiations with Israel at the Hague and now is deputy chairman of the Bundestag Indemnification Committee, co-president of the Frankfurt Society for Christian-Jewish Cooperation and head of a Nazi persecutees' united organization.

"THE DIARY OF ANNE FRANK" WINS PULITZER PRIZE; DEPICTS NAZI BRUTALITY

NEW YORK, May 8. (JTA) -- "The Diary of Anne Frank," Broadway hit play based on the diary of the Jewish girl who, with her family, hid from the Nazis in Amsterdam before being deported to her death in a concentration camp, won the Pulitzer Prize for drama, it was announced here today. The play version, by the husband and wife team of Frances Goodrich and Albert Hackett, had previously won the Antoinette Perry Award of the American Theater Wing and the New York Drama Critics Circle Award.

INTERMARRIAGE IN CANADA TRIPLED DURING 30 YEARS, JEWISH SURVEY SHOWS

MONTREAL, May 8. (JTA) -- The rate of intermarriage between Jews and non-Jews in Canada as a whole has tripled during the past 30 years, it was reported here by the research bureau of the Canadian Jewish Congress.

In addition, the research bureau disclosed, the same ratio holds for the provinces of Ontario, Saskatchewan and Manitoba during these three decades, but only doubled in the provinces of Alberta and Quebec. In Nova Scotia and British Columbia intermarriages have increased by approximately 50 percent, and in New Brunswick it fell off by almost half in the same period.

The CJC revealed that the ratio of mixed marriages to marriages in which both partners were Jews, during the years between 1951-53, by provinces is: British Columbia, 51 percent; Saskatchewan, 38 percent; Alberta, 24 percent; New Brunswick, 22 percent; Nova Scotia, 22 percent; Manitoba, 14 percent; Ontario, 14 percent; and Quebec, six percent.

JEWISH CONFERENCE REAFFIRMS OPPOSITION TO RELIGION IN PUBLIC SCHOOLS

NEW YORK, May 8. (JTA) -- Jewish religious bodies and Jewish community relations agencies remain committed, as they have been for a number of years, to support of public school programs for the promotion of mutual understanding and unity among members of various ethnic, racial and religious groups and to the exclusion of all religious intrusions from the public schools.

This was the consensus of a conference attended by some 60 rabbis, educators, community relations experts and Jewish communal leaders from all parts of the country, held in New York. The conference was sponsored jointly by the Synagogue Council of America and the National Community Relations Advisory Council.

Bernard H. Trager, NCRAC chairman, in commenting today on the conference, said that it was called "not to reopen discussion of our positions on religion and the public schools and intergroup education through the public schools; but to consult together on how both may most effectively be advanced."

"There had been many reports," Mr. Trager explained, "that some public school programs in intergroup or intercultural education involve materials or methods that violate the principle of separation of church and state. The purpose of the conference was to try to develop a set of guiding principles for determining what kinds of good intercultural education programs, observing strictly the principles of church-state separation, can be pursued by the public schools."

ADULT JEWISH EDUCATION URGED AT CONVENTION OF JEWISH MEN'S CLUBS

LIBERTY, N. Y., May 8. (JTA) -- Adult Jewish education is vitally needed in this country, it was stressed last night at the opening session of the 27th annual convention of the National Federation of Jewish Men's Clubs which is being held at the Grossinger Hotel here. More than 900 delegates from all parts of the country are attending the convention.

Addressing the session, Rabbi Jerome Lipnick, of Utica, N. Y., said: "The synagogue can be a powerful agency to create the renaissance for adult education in America. So much of our concern today is for child education. The millions of dollars we spend for the education of our children must be matched by the millions of dollars for the education of the parents. Jewish life has always been adult education centered. In order to maintain Jewish life and witness the growth of the influence of Judaism in the moulding of America and the world we must redouble our efforts to develop well-conceived, well-financed and well-staffed adult education programs."

NEW YORK CITY COMMISSION TO ACT VIGOROUSLY AGAINST DISCRIMINATION

NEW YORK, May 8. (JTA) -- New York City's new Commission on Intergroup Relations will use its powers of "persuasion and education" equally with its broad investigative powers to eliminate prejudice, intolerance, bigotry and discrimination in New York, Mayor Robert F. Wagner said last night.

The Mayor spoke at the 11th annual meeting of the American Jewish Committee's New York Chapter at the Hotel Roosevelt where he received the organization's award for "his outstanding leadership in establishing the new Commission" and "for his constant efforts to eliminate prejudice and prevent discrimination based on race, religion or national origin." The award, an illuminated scroll, was presented to him by Irving M. Engel, national president of the AJC.

ISRAEL AGRICULTURAL SCHOOL NAMED FOR PIONEER WOMEN'S LEADER

TEL AVIV, May 8. (JTA) -- The Kanot Agricultural School near Gadera was today named for Sara Feder, former president of the Pioneer Women, American sister organization of the Working Women's Council of Israel. The school was dedicated in the presence of a large number of delegates from the World Zionist Congress, tourists and students.

The cost of constructing and equipping the school has already passed the \$1,000,000 mark. At present the school can accommodate 150 students, but is expected to double its registration later on. Mrs. Chayt Surchin, president of the Pioneer Women, spoke at the dedication ceremonies.
