U. N. SECRETARY GENERAL EXPECTED IN ISRAEL NEXT TUESDAY FOR TALKS

JERUSALEM, Nov. 28. (JTA) -- United Nations Secretary General Dag Hammarskjold is expected to arrive in Jerusalem Tuesday, December 3, for a short visit, Israeli officials said today.

(At United Nations headquarters, it was announced that Mr. Hammarskjold would leave for Beirut Friday evening, fly from the Lebanese capital to Amman Sunday--in a UN plane--and while in the area would visit Jerusalem and Damascus as well.)

The Israeli officials indicated a belief that Mr. Hammarskjold will concentrate chiefly on the current Israel-Jordan tension. "We have no doubt that the tension created by Jordan will be in the foreground, and particularly the convoy issue." This was viewed here as a possibility that behind-the-scenes activity by the UN might yet yield results on the convoy to Mt. Scopus.

Noting that the visit to this area was on Mr. Hammarskjold's own initiative, observers here hold out the likelihood that he will also take the initiative to broach wider issues than the Israel-Jordan tension. If he does, Israeli officials indicated, Israel will decide on the spot its attitude to any proposal he may make.

(Ambassador Abba Eban, head of the Israel delegation at the UN, visited Secretary General Dag Hammarskjold yesterday to discuss "the scope and purpose" of Mr. Hammarskjold's forthcoming visit to the Middle East. "The most urgent problem preoccupying Israel" at this moment, including frontier problems and the Egyptian seizure, recently, of the Israeli fishing trawler Doron, were discussed between Mr. Eban and the UN chief, according to an Israeli spokesman. Mr. Eban is understood also to have protested against the decision by the Israel-Jordan Mixed Armistice Commission which accused Israel of abducting a Jordanian who was actually caught on Israel territory as an infiltrator.)

ARABS REBUKED AT U. N. ASSEMBLY; CHAIRMAN ACTS ON ISRAEL'S PROTEST

UNITED NATIONS, N. Y., Nov. 28. (JTA) -- Two Arab speakers were reprimanded today by the chairman of the United Nations General Assembly's special political committee for tactlessness in attacks on Israel during speeches on the Arab refugee problem. They were the delegate of Iraq and Dr. Izzat Tannous, the representative of the Palestine Arab refugees.

Chairman Emilio Arenales Catalan, of Guatemala, acted after Ambassador Abba Eban, head of the Israel delegation, rising to a point of order, objected to the Iraqi delegate's failure to refer to Israel properly in a speech yesterday. The chairman said he could not dictate the language of any delegate but he appealed to all speakers to address themselves to the body in a "spirit of courtesy."

Mr. Eban had objected to the Iraqi delegate referring to the Israel Government in "euphemisms" and by indirection. The Arab had consistently spoken of the "Tel Aviv authorities" instead of the Government of Israel. Mr. Eban noted that delegates should refer to all countries by their sovereign titles and as they were listed among the UN member states. The chairman agreed.

Later, at the conclusion of a long speech by Dr. Izzat Tannous, representative of the Palestine Arab refugees, in which he had attacked Israel violently, the chairman indicated he should have spoken of the refugees, not of political matters. He had not interrupted, the chairman explained, out of courtesy to the speaker and to several delegations.

In an address to the committee yesterday, Mr. Eban declared that the real solution of the Arab refugee problem lies in their integration in the Arab "host" countries. Israel, he noted, had already absorbed 450,000 refugees from the Arab countries--all Jews--and Israel could find room for them and other refugees from Europe and the Arab states, with far vaster territories, could absorb all the Arab refugees.

Underlining Israel's willingness to contribute to a settlement of the Arab refugee problem, Mr. Eban said that Israel had accepted 48,500 Arab refugees who rejoined families in the Jewish State. He also stressed Israel's repeated declarations of readiness to pay compensation for abandoned Arab lands.

ISRAEL SEEKS TO DEVELOP ATOMIC POWER TO OFFSET ARAB OIL BOYCOTT

JERUSALEM, Nov. 28. (JTA) -- Israel is making a strong effort to develop atomic power, as part of plans to offset the effect of the Arab oil boycott on the nation's fuel needs, Prime Minister David Ben Gurion said today. He spoke to members of a Congress of French-speaking journalists whom he received at his office.

He expressed the opinion that peace with the Arab countries was not only possible but certain "sooner or later" because it would be to the benefit of both sides. He added that "peace is possible only with Israel as it is," and that there could be "frontier rectifications only by mutual consent."

Dealing with the problem of the Arab refugees, the Prime Minister said that "when the Arabs are willing to discuss peace, we will not lay down any prior conditions and we will then discuss with them the question of the refugees. At the moment, I am sure that the best solution for both sides is that the Arabs should be resettled in the Arab countries in the same way as we don't want Jewish refugees to be returned to Arab or European countries."

He stressed, however, that "we are ready to discuss all questions" with Arab leaders at peace talks. He disputed a suggestion by one of the journalists that it was more difficult for Israel to absorb immigrants from the Orient than from Western countries asserting there was no fundamental difference between Sephardic and Ashkenazi Jews.

The Prime Minister said that Israel's main concern, in dealing with frontier incidents such as those which have been occurring on the borders with Jordan and Syria was with world factors. "If we were left alone with the Arabs I am sure that in the long run we would be able to arrive at a settlement. Unfortunately, there has been intervention by factors over which we have no control," he declared.

ISRAEL DENIES ULTIMATUM ON STALLED CONVOY TO MT. SCOPUS

JERUSALEM, Nov. 28. (JTA) -- Authoritative Israel sources categorically denied today that any ultimatum has been given to the United Nations that force would be used to obtain transit of a stalled Israel convoy to Mount Scopus if UN Secretary General Dag Hammarskjold failed to persuade Jordan to allow such passage.

The convoy has been stalled since November 20 because of Jordanian objections to several drums of gasoline which Israel officials insist has been a regular part of the convoy and which were approved by local UN officials.

Sources close to the Israel Foreign Ministry indicated that UN officials were engaged in behind-the-scenes diplomatic efforts to achieve a "quiet solution" of the impasse. Experts here indicated they were not too hopeful but were not excluding entirely the possibility of an unpublicized agreement.

KNESSET UPHOLDS BEN GURION ON PLAYING THE "STAR SPANGLED BANNER"

JERUSALEM, Nov. 28. (JTA) -- The Israel Parliament decided last night that no insult to Israel was involved in the playing of the "Star Spangled Banner" before matikvah when the orchestra at the recent dedication of the Frederick Mann Auditorium in Tel Aviv played both the American and the Israeli national anthems.

A motion to reprimand Premier David Ben Gurion, charged with responsibility for the insult to President Ben Zvi who was in the audience when the anthems were played was moved by Communist deputies. It was turned down. The Premier, who caustically referred to the "super-patriotism" of the Communists, held that on such occasions it was customary to play the foreign anthem first.

GEN. BURNS RETURNS TO GAZA; WANTS U. N. TROOPS STATIONED ON ISRAEL SIDE

UNITED NATIONS, N. Y., Nov. 28. (JTA) -- Maj. Gen. E. L. M. Burns, commander of the United Nations Emergency Force, told a press conference here today there was no truth in any report that he was planning to resign. He said he would remain commander of UNEF "as long as I'm needed and the Canadian Government tells me to stay."

Gen. Burns said that he felt the arrangements made by the General Assembly would provide for the needs of UNEF for 1958. He expressed the opinion that the function of UNEF would be "strengthened" if Israel would agree to stationing of UNEF troops on the Israel side of the demarcation line, adding that the absence of such agreement was the major factor in barring visits by UNEF personnel to Israel. In the absence of such an agreement, he said, "the policy was laid down that only officers with specific duties in Israel would be permitted to go to Israel."

Repeating statements that he felt UNEF would be needed until more stable political conditions existed between Egypt and Israel, he said he thought it was unlikely that such conditions would develop before the end of 1958, the period for which the General Assembly provided UNEF funds at its current session.

ENVOY OF MOROCCAN KING ATTACKS ZIONISM IN A SPEECH IN WASHINGTON

WASHINGTON, Nov. 28. (JTA) -- Mehdi Benovna, a special advance representative of King Mohammed V of Morocco who prepared the royal visit in this country, made a sharp attack on Zionism at an institute of Muslim-Christian cooperation conducted here, it was revealed in the minutes of the committee on Muslim-Christian cooperation of the institute. Mr. Benovna is a member of the Moroccan Consultative Assembly, and was officially designated by the Foreign Ministry to assist in the preparation of the King's current visit to the United States.

Mr. Benovna, after reviewing cooperation of Christians and Muslims in struggles for freedom, said the greatest danger to such cooperation came from imperialism, Zionism, and Communism. He said there was no chance for an understanding linking Muslims and Christians in a united front against Communism as long as the Moslem Middle East must occupy itself fighting off Zionism.

Although the conference dealt with religious cooperation rather than political issues, Mr. Benovna used the occasion to address himself mainly to a political theme. Another speaker, Dorothy Thompson, leader of anti-Zionist propaganda groups, condemned Israel for the Kfar Kassim incident which was settled amicably last week between the Arab villagers and the Israel Government.

The Rev. Dr. Frederick McGuire, representative of Roman Catholic Archbishop Patrick A. O'Boyle, urged that the Muslim-Christian group be enlarged to include other religions. It was noted at the institute that the Jewish religion was not represented. But Garland Evans Hopkins, secretary general of the Committee on Muslim-Christian Cooperation, said it would be best if cooperation remained bilateral with Jews excluded. Mr. Hopkins thought the common denominator between the Muslim and Christian faiths was much wider than it would be if a third creed were included.

SOVIET UNION AND POLAND SUPPORT ISRAEL'S REQUEST AT RED CROSS PARLEY

TEL AVIV, Nov. 28. (JTA) -- The rare occurrence of the Soviet Union and Poland supporting Israel at an international conference was reported here today by two Israelis, Dr. Y. Kott and Y. Penn, who returned here today from New Delhi, where they acted as this country's observers at the conference of International Red Cross Societies.

Israel requested that the "Mogen David Adom" (Red Shield of David), the Israeli equivalent of the Red Cross, be permitted to use its own six-point Star of David symbol in connection with Red Cross work. The request will be on the agenda of the next Red Cross international conference. At New Delhi, the Israeli request was supported by El Salvador, the Soviet Union and Poland. Israel is a signatory to the Red Cross convention but, up to now, its own symbol has not been officially recognized.

9, 600 JEWISH FAMILIES IN RUMANIA REPORTED SPLIT; REUNION SOUGHT

JERUSALEM, Nov. 28. (JTA) -- There are more than 9, 600 Jewish families in Rumania who are split with some of their members in Israel and the others in Rumania, Idov Cohen, a leader of the Association of Rumanian Immigrants in Israel, reported to a press conference here today.

In a plea for a more humanitarian policy on the part of the Bucharest authorities, Mr. Cohen noted that they admitted the validity of his plea by allowing 50 to 60 Jews, most of them sick and aged, to leave for Israel. At this pace, however, he pointed out, it will take 20 years for some older people to rejoin their children in the Jewish State.

He noted that in 1950 Rumania had allowed 47, 000 Jews to quit the country for Israel and currently was holding the number to 400 a year. Pointing to the more liberal attitude of Warsaw and Budapest, Mr. Cohen asserted there was no reason for Rumania's current policy.

Furthermore, he asserted, many Jews had been fired from important government and industrial administrative posts and were jobless. Their economic distress, he said, added urgency to their need to emigrate.

UNESCO DECIDES TO CHECK ON EGYPT'S USE OF RADAR OFFERED AS GIFT

PARIS, Nov. 28. (JTA) -- The executive board of the United Nations Economic, Social and Cultural Organization yesterday ordered Director General Luther H. Evans to make sure that Egypt's request for radar equipment was in conformity with a resolution covering the use of such UNESCO gifts.

The original disclosure by Dr. Evans of plans to provide such a gift to Egypt for cultural purposes was sharply criticized by the press of England and France and by British and French delegates to UNESCO. The gift is intended for a secondary school at Port Said.

While some sources saw the board's action as tacit approval of the radar equipment gift, a British delegate said he thought the size of the gift might have to be reduced in view of the publicity the proposal had received, as well as because of the obvious opposition of many members of the UNESCO board.

SWISS AUTHORITIES BANN LECTURES BY ANTI-SEMITES, NAZI COLLABORATORS

GENEVA, Nov. 28. (JTA) -- Local authorities today banned a series of public lectures involving highly controversial fascist writers "to avoid public manifestations

One lecture was to have been given by Geo Oltramare, a Swiss journalist who had been condemned after World War II for collaboration with the Nazi regime. He has recently broadcast anti-Israel and anti-Western propaganda on the Cairo Radio.

The topic of another banned lecture was Robert Brassillach, a French journalist executed after the war for active collaboration with the Germans. He had served for many years on the staff of a violently anti-Semitic French newspaper. Serious public demonstrations occurred last week in Paris when plans were announced for a showing of one of his plays.

34TH ANNUAL CONVENTION OF LABOR ISRAEL COMMITTEE OPENS IN NEW YORK

NEW YORK, Nov. 28. (JTA) -- The "grave clouds" hovering over the Middle East can be dispelled "only by the free world's courageous support of democratic forces in the area," according to a message cabled by Israel's Prime Minister David Ben Gurion to the 34th annual convention of the National Committee for Labor Israel which opened here today.

The convention, attended by 2,500 delegates from all parts of the United States and Canada, will continue through Sunday. A luncheon session will be dedicated to the 10th anniversary of the United Nations' resolution in favor of partitioning Palestine and establishing a Jewish State. Abba S. Eban will be guest of honor.

Mr. Ben Gurion, in his message, lauded the National Committee for Labor Israel for its "determination and efforts to achieve the great goal which history has set the Jews of this generation." Messages were received also from Israel's President Itzhak Ben Zvi, Minister of Labor Mordecai Namir, Speaker of Parliament Joseph Sprinzak, and others.

The National Committee for Labor Israel is composed of 1,500 affiliated bodies, including trade unions, Labor Zionist groups, business and industry councils, fraternal and civic organizations. Established in 1923 by the United Hebrew Trades, it has raised over \$50,000,000 to help the pioneers and workers in Israel develop medical, vocational training, cultural and rehabilitation institutions.

NEW YORK HIGH SCHOOL STUDENTS WIN HEBREW LANGUAGE PRIZES

NEW YORK, Nov. 28. (JTA) -- Seventy-three junior and senior high school students in the New York City schools received prizes at ceremonies held in the Main Hall of the Board of Education. They were winners of a city-wide Hebrew language contest sponsored by the Hebrew Culture Council of the Jewish Education Committee of New York and the Hebrew Division of Hunter College, in cooperation with the Junior and Senior High School Divisions of the Board of Education. The Free Sons of Israel, a national fraternal order, provided the awards.

Charles H. Silver, president of the Board of Education, expressed the pride of the Board in the fact that the pioneering efforts of New York City in instituting Hebrew language courses into the classrooms have served as a model for more than 15 other cities. He stated, "This acceptance by our educators of the study of Hebrew as a living language is a profound tribute to the eternal traditions of Israel. It is also a symbol of appreciation for the precious heritage of Hebrew culture which has enriched American democracy and entwined itself into our cherished way of life."

Dr. Jacob Greenberg, Deputy Superintendent of Schools, presided and spoke on the good influence which the teaching of Hebrew as a modern language study has had on the school population.

1,330 STUDENTS ENROLLED IN TEL AVIV SCHOOL OF LAW AND ECONOMICS

TEL AVIV, Nov. 28. (JTA) -- A total of 1,330 students were enrolled in the Tel Aviv School of Law and Economics which opened its academic year yesterday. The school, which is planning to grow to full-scale university status, this year opened a new department of political science, as well as special departments for public relations, administration and accounting.

The government education ministry has recognized the School as a university, with the authority to grant graduate degrees in law and bachelor degrees in economics and political science.

CHINESE SCIENTIST ARRIVES IN ISRAEL; WILL LECTURE ON RURAL PROBLEMS

TEL AVIV, Nov. 28. (JTA) -- A Chinese sociologist, Dr. Hsin Pau Yang, arrived in Israel as a guest of the Jewish Agency settlement department to lecture on problems in rural sociology. Dr. Hsin is former director of the Chinese agricultural extension program and it is hoped that his lectures will assist Israeli settlements with a number of problems facing them.
