### COMMON MARKET PARLEY AGREES ON NEED TO PROVIDE LINK FOR ISRAEL

BRUSSELS, Sept. 25. (JTA) -- The Council of Ministers of the European Common Market decided today to open negotiations soon for an agreement to provide some kind of trade link for Israel with the six member nations.

The Council made the decision after examining a report on the problem prepared by a technical committee which met last week at the EEC headquarters here. The decision was regarded as unprecedented, the first time that the Common Market will consider a commercial agreement with a country since the formation of Euromart.

The decision was believed to be in effect an act of political concern by the six Euromart members who took into account the fact that Israel is politically and economically isolated in the Arab world, that Israel has its export ties essentially with the six nations and that without some kind of commercial link, Israel would run the risk of economical suffocation.

It was also decided that the issue of tariffs in respect to Israeli products would be dealt with by the EEC Permanent Commission and that the member countries would deal individually with the problems of a commercial agreement with Israel.

(It was learned in Paris that the French delegation to Euromart will press the other five delegations to help protect Israel from the severe economic crisis looming from European economic integration. The French stand will be supported by the West German delegation, it was reported in Paris.)

Meanwhile Ambassador Amiel Najar presented today in Luxembourg his credentials as head of the new Israeli mission accredited to the European Economic Community. He presented his credentials to Piero Malvestiti, head of the High Authority on Coal and Steel, who tendered the Ambassador a luncheon after the presentation.

### Israel Welcomes Brussels Decision; Foresees Long Negotiations

TEL AVIV, Sept. 25. (JTA) -- Israeli officials welcomed today the report from Brussels that negotiations would open soon on a commercial agreement for Israel with the six members of the European Common Market but they warned that the negotiations would extend over a lengthy period.

David Kochav, chief economic planner in the Ministry of Finance, said that this was one of the most important achievements for Israel not only for short term needs but also for long term development of the economy. The news was described, however, as representing only passing of the first hurdle.

The officials pointed out that talks will have to take place with each country separately for special tariff arrangements for Israeli goods and that 150 separate commodities were involved. They also emphasized that while Britain is still the largest purchaser of Israeli citrus fruits and Israeli products are slowly finding markets in Afro-Asian countries, Europe is still the most important region for Israeli economic activities, both buying and selling.

Israeli officials also noted again that agreement with the Euromart countries would call for internal changes in Israel's economy and that the entire concept of labor and production would have to be changed if Israel was to compete effectively with other countries both in price and quality. Israel's hope for increasing its exports remains largely focused on Europe.

They also noted that the first step had come only after lengthy and intensive efforts by Israel. Finance Minister Levi Eshkol visited Euromart capitals three times in connection with the Common Market bid and Israeli officials of various Ministries have virtually been open to European capitals.

### ISRAELI GIRLS DETAINED BY LEBANESE ARMY AT FRONTIER VILLAGE

LONDON, Sept. 25. (JTA) -- The Lebanese Army has captured 14 Israeli girls in a village near the frontier, the Beirut Government reported today. The girls, mostly teenagers, were wearing uniforms and carrying rifles and a submachine gun, the Lebanese claimed. They were disarmed and taken under guard to Sidon for investigation and detention. The girls claimed they lost their way. They were seized on Sunday about a half-mile inside the frontier.

KENNEDY'S APPROACH TO NASSER ON ARAB-ISRAEL ISSUE DISCLOSED

LONDON, Sept. 25. (JTA) -- President Kennedy was disclosed today to have told President Nasser of Egypt shortly after he took office that his administration wanted to find an honorable solution to the Arab-Israel dispute.

President Kennedy made that statement in an exchange of letters with Nasser in 1961. Details of the letters were published in the Times of London today. The President's letter was dated May 11, 1961. In his reply, dated August 8, 1961, Nasser told President Kennedy that he did not insist that a complete identity of views on that issue was a necessary prerequisite to Egypt's reaching an understanding with the United States.

In his letter to President Kennedy, Nasser criticized "local political considerations hardly related to American principles or American interests on a world level. He said that "the attempt to gain Jewish votes in the Presidential elections was such a motive." Nasser also told Mr. Kennedy: "I have followed with interest every time you referred to this problem in your speeches in Congress, both at the time when you were representing the State of Massachusetts and during the Presidential elections."

STATE DEPT. ADVOCATES MORE AID TO ARABS DESPITE BOYCOTT OF U.S. JEWS

WASHINGTON, Sept. 25. (JTA) -- The State Department contends that aid to the Arab states should be increased despite continued Arab discrimination against American Jews, the Department made known to the House Appropriations Subcommittee on foreign operations, it was revealed today.

Phillips Talbot, Assistant Secretary of State, conveyed the Department's views in testimony on foreign operations appropriations for 1963. The Subcommittee asked Mr. Talbot why aid to the Arabs was being increased in view of Arab boycotts, blockades, and discriminatory tactics affecting American citizens and American interests.

Mr. Talbot replied that "when it comes to using the aid instrument as a club on one country or another, we think that in the American interest there are likely to be more difficulties and more disadvantages than there are advantages." He said there had been "some indication of willingness on the part of the United Arab Republic to put the Israeli question in the icebox for some time. This does not solve it, but at least puts it back to it is not a day-to-day irritant in their relations."

"On the question of visas for Americans, regardless of race, creed, or color, once again it seems to me that we must push as hard as we can on this issue, but that the aid instrument is not the right tool for that," he said. He reported that the State Department, to lift anti-Jewish measures affecting Americans, was working very quietly "with one or two of the Arab states."

William S. Gaud, Assistant Administrator of the U.S. Agency for International Development, gave the Executive Department view on the various anti-bias measures incorporated into various foreign aid bills by Congress. He said that denial of aid on this basis "might prove counter-productive and further limit any useful role which we can play in these conflicts. These disputes require the balm of time, patience, and persuasion," he stressed.

In Mr. Gaud's view "although the USSR has continued to furnish military and economic assistance to the UAR, the latter has maintained an independent foreign policy."

Mr. Gaud testified that America must plan development loans for Israel. He explained that "Israel faces a sharp reduction in reparations and restitution payments from Germany and needs a continued large inflow of capital to sustain its high rate of investment."

GOLDA MEIR MEETS TODAY WITH U.S. SECRETARY OF STATE IN NEW YORK

UNITED NATIONS, N.Y., Sept. 25. (JTA) -- Mrs. Golda Meir, Foreign Minister of Israel, today began a number of conferences with leading Foreign Ministers and other top Cabinet members of a number of governments. In these talks, she is expected to discuss Israel's problems in general, and specifically the issues to affect Israeli policies on the agenda of this year's General Assembly.

Tomorrow, Mrs. Meir will meet with United States Secretary of State Dean Rusk. Later this week she is expected to confer with the Foreign Ministers of a number of other European powers. Today, Mrs. Meir had conferences with the Foreign Minister of Cameroon and the Finance Minister of Tanganyika.

ISRAELI WORKERS DELEGATION ARRIVES IN CYPRUS FOR WEEK'S VISIT

NICOSIA, Cyprus, Sept. 25. (JTA) -- Twenty Israeli factory workers came here today for an official visit, during which they will meet with Cypriot trade union leaders as well as with Minister of Labor Tassos Papadopoulos.

The Israelis are workers in Israeli asbestos factories, and members of Histadrut, the Israel Federation of Labor. They will spend a week here visiting asbestos mines.

At just about the time the Israelis arrived, the leading Cypriot football team, Anorthosis, led by the team's popular coach, left for Haifa on the invitation of Israel's Maccabi football aggregation. Anorthosis will play three matches in Israel against the Maccabi and Hapoel.

# IMMIGRATION AUTHCRITIES URGED TO BAN MOSLEY'S ENTRY TO UNITED STATES

WASHINGTON, Sept. 25. (JTA) -- United States immigration authorities said today that they will determine whether Sir Oswald Mosley, British Fascist leader, is eligible for admission to the United States when he arrives at a port of entry. The question is also under study by the Congressional Joint Committee on Immigration and Nationality Policy.

The leader of Britain's fascist Union movement is scheduled to speak tomorrow at the State University of New York in Buffalo and at least two campus groups announced they would hold demonstrations to protest his appearance.

Sir Oswald was given a United States visa by the United States Embassy in London to come to the U. S. for his lecture at a series arranged by the university. Issuance of a visa does not automatically guarantee entrance. The Immigration Service is still free to use its discretion in controversial cases.

Immigration Commissioner Raymond Farrell received a telegram today from Rep. Seymour Halpern, New York Republican, calling on the immigration service to use the discretionary authority contained in the immigration laws to deny Mosley admittance. Rep. Halpern cited provisions in the law authorizing the barring of persons who might be inimical to the welfare and interests of the United States.

"We have enough racist agitators here without bringing known and notorious foreign fascist hatemongers into the country from abroad to abuse our hospitality," the Congressman stressed. He recalled that Mosley was "a disciple of Adolf Hitler" who was jailed by England for pro-Nazi activities at the time of the Second World War.

Chairman Emanuel Celler of the House Judiciary Committee said that the State Department "erred" in issuing a visa to Mosley. Rep. Celler, a New York Democrat, called for Mosley's exclusion on grounds that it was not a question of "freedom of speech" but a matter of public safety.

National executive director Joseph F. Barr of the Jewish War Veterans of the U. S. A. wired Rep. Francis E. Walter of the Congressional Joint Committee on Immigration and Nationality Policy that Mosley should be excluded and his visa canceled under laws barring extremists of both extremes, left and right. Mr. Barr pointed out that Mosley's "treasonous support of Nazi Germany and opposition to the allies was such during World War II that he was imprisoned by Great Britain."

(Before leaving London airport tonight Sir Oswald said that he "certainly would not be seeing" George Rockwell, head of the "American Nazi party" during his visit to the United States. He called Colin Jordan's British National Socialist group and the Rockwell group "lunatic organizations."

## UNIVERSITY DEAN APOLOGIZES FOR ANTI-SEMITIC STATEMENTS IN BROCHURE

DETROIT, Sept. 25. (JTA) -- A Western Michigan University Dean has apologized for anti-Semitic statements appearing in a pamphlet issued by his department but emphasized that he had no control over the content of the material.

The pamphlet was entitled, "A Soldier's Life--the Civil War Experience of Ben C. Johnson." It was published by the School of Graduate Studies of the university. It was criticized by Philip Slomovitz, editor of the Jewish News of Detroit.

Dr. George G. Mallinson, the Dean, declared in a letter to the Jewish News here that he had objected to inclusion of the material "on the grounds that it would be offensive." Dr. Brown, the editor, disagreed and indicated that his attitude "was not consistent with historical principles."

Dr. Mallinson, who stressed that he was a scientist and not a historian, said he had objected to the anti-Semitic references when he edited galley proofs on the brochure and that he had sent a covering letter to Dr. Brown. In the letter, he said, he had indicated his belief that the anti-Semitic references did not add anything to the pamphlet and that their elimination would not affect its historical value.

Dr. Mallinson stated that he felt such expressions were "not representative of the Jewish contribution to the Civil War and, from a contemporary standpoint, not desirable." He added that he wanted to apologize to any persons "for any offensive elements of the document" and that it was not his desire, "whether the School of Graduate Studies was directly or indirectly responsible, to have its name associated with difficulties such as these."

## ANTI-SHECHITA BILL TO BE PRESENTED IN HOUSE OF LORDS; BACKING ANNOUNCED

LONDON, Sept. 25. (JTA) -- A bill will be introduced in the House of Lords, amending the present humane slaughter in such a manner as to outlaw Jewish ritual slaughter practices, it was announced here this weekend by the Royal Society for the Prevention of Cruelty to Animals and the Humane Slaughter Association.

Officials of the two organizations, who have been pressing for such legislation for some time, stated that "shechita is not only cruel, it also makes nonsense of the law, which is designed to protect animals."

### \$13,000,000 RAISED BY ALBERT EINSTEIN COLLEGE OF MEDICINE

NEW YORK, Sept. 25. (JTA) -- More than \$13,000,000 has been raised toward the \$27,500,000 development program of the Albert Einstein College of Medicine of Yeshiva University, it was reported today at the annual meeting of the board of overseers of the college. Jack D. Weiler, civic and communal leader, was re-elected chairman of the board of overseers. Mr. Weiler is national chairman of the United Jewish Appeal and secretary-treasurer of Bonds for Israel.

The purpose of the development program, Mr. Weiler indicated, is to strengthen and extend the facilities of the College of Medicine in medical teaching, research and patient care. He reported that construction was proceeding rapidly on the Ullman Research Center for Health Sciences and on a new University Hospital and Diagnostic and Rehabilitation Centers.

### \$9,000,000 OF EQUIPMENT EN ROUTE TO ISRAEL FOR CONSTRUCTION PLAN

NEW YORK, Sept. 25. (JTA) -- More than 40,000 cargo tons of specially designed equipment valued at \$9,000,000 is now on the high seas aboard two Israel-bound freighters as part of a crash program designed to quadruple the production of chemicals and minerals from the Dead Sea within the next two years, it was announced today by Jacob R. Sensibar, president of Construction Aggregates Corporation of Chicago, addressing a press conference.

Mr. Sensibar is directing a vast construction program at the Dead Sea envisaging the erection of 25 square miles of dikes atop the historic body of water, which will accelerate and expand Israel's production of potash. At the present time, Mr. Sensibar said, Israel produces 150,000 tons of potash annually, a figure that will rise to 600,000 tons by 1965, valued at more than \$35,000,000.

Part of the funds that are being used to finance the \$25,000,000 dike-construction program has been made available by the World Bank for Reconstruction and Development. The overall project is in full swing. A total of 850 engineers, technicians and workmen will be employed on the site, Mr. Sensibar, who is president of the American Technion Society, sponsor of the Technion-Israel Institute of Technology in Haifa, said.

### \$1,300,000 DRIVE FOR ACCOUNTANCY INSTITUTE IN ISRAEL OPENED IN U. S.

NEW YORK, Sept. 25. (JTA) -- Some of the foremost American experts in accounting launched today a drive for \$1,300,000, of which \$400,000 is to be raised in the Greater New York area, to aid the Institute of Accountancy and the Department of Business Administration of the Hebrew University at Jerusalem. The university, conducting courses in the fields both in Jerusalem and Tel Aviv, gives the only qualified academic training in accountancy in Israel.

The campaign was announced at a luncheon given by the National Accountants Committee of the American Friends of the Hebrew University, in honor of Israel's six-man delegation to the eighth International Congress of Accountants, currently being held here. Joseph I. Lubin, a prominent New York accountant, announced the fund-raising program. Prof. Marcus, professor of finance at New York University, stressed Israel's need for skilled accountancy.

### ISRAEL'S MINISTER OF RELIGION ATTACKS AMERICAN REFORM JUDAISM

JERUSALEM, Sept. 25. (JTA) -- The efforts of American Reform Judaism to establish itself in Israel "smack of missionary activity," Dr. Zorah Warhaftig, Israel's Minister of Religious Affairs, asserted today.

He told a Jerusalem Post editorial staff meeting that if there was a mass immigration of Reform Jews from the United States "we would deal with the matter of Reform Judaism in Israel naturally," but the present efforts amounted to "them sitting in America and sending a few rabbi missionaries to Israel."

He contended that if efforts by Reform representatives for radical modification of Orthodox Jewish religious authority in Israel--such as the introduction of civil marriage and divorce--succeeded, the end result would be to turn "Israeli Jewry into a nation of half-breeds." Israel must preserve its present religious framework for Jews to remain the age-old Jewish people, he added.

### U. S. CULTURAL ATTACHE GREETES 100 AMERICAN BAR MITZVAH YOUTH IN ISRAEL

TEL AVIV, Sept. 25. (JTA) -- One hundred American boys and girls, who came to Israel on the annual Bar-Bas Mitzvah pilgrimage were greeted at a special reception attended by George Henry, the cultural attache of the American Embassy in Tel Aviv, who told the youngsters, "This is also my Bar Mitzvah." He is a unitarian.

The American official said at the reception, which was held at Alonei Yitzhak, a youth center in North Sharon, that it was the first time he had witnessed a Bar Mitzvah event. He said he was happy to welcome the young people on the soil of Israel "for the purpose of building cultural bridges between America and the Holy Land."

During their visit, the children were presented with gifts and mementos by the Ministry for Religious Affairs and by the Yeshurun Synagogue in Jerusalem. They also were greeted at the residence of President Ben-Zvi.
