### ONE ISRAELI BORDER POLICEMAN, 3 ARABS DEAD IN NEW CLASH IN NORTH

TEL AVIV, Oct. 19. (JTA) -- One Israeli border patrolman and three members of a four-man group of El Fatah infiltrators were killed in a brief but fierce encounter near the Lebanese border today. The fourth Arab infiltrator was wounded and captured.

The clash occurred when the border patrol intercepted the group of armed infiltrators, apparently crossing into Israel for intelligence-sseeking purposes. The fight took place southwest of Ramat Naftali, in the upper Galilee, in northern Israel.

### SECURITY COUNCIL RESUMES DEBATE TODAY ON ISRAEL CASE AGAINST SYRIA

UNITED NATIONS, N. Y., Oct. 19. (JTA) -- The Security Council will meet here tomorrow to resume debate on Israel's complaint against Syria, charging the Damascus Government with responsibility for the latest series of terrorist incursion into Israel, costing four lives and at least six other casualties, and inciting to violence against Israel in violation both of the United Nations Charter and the 1949 armistice agreement between Israel and Syria.

Meanwhile, there were reports here that, through an intermediary and unofficially, Israel has made a peace offer to Syria. Prime Minister Levi Eshkol's address in his Parliament this week, on the Syrian issue, was interpreted in that manner.

Israel's Ambassador Michael S. Comay, who was asked a question about the report on a television broadcast in New York last night, did not deny the existence of a "peace offer." He reiterated Israel's readiness at all times to live at peace with all its Arab neighbors. Syria's U.N. Ambassador, George J. Tomeh, was on the same TV program, although he did not appear on camera simultaneously with Mr. Comay. He was asked the same question and retorted evasively that Israel must make peace with the Arab refugees to end the conflicts in the region.

As Lord Caradon, of Britain, this month's president of the Council, summoned the 15-member body to meet again on Israel's grievance tomorrow afternoon, the members of the Council continued to study the report on the recent terrorist incursions into Israel, filed yesterday by Lt. Gen. Odd Bull, chief of staff of the United Nations Truce Supervision Organization.

Israel filed a fresh letter to the Council yesterday, bolstering its case against Syria by pointing to one more mine incident wounding an Israeli soldier, near the Syrian border, and continued official Syrian's threats against Israel's security. It was understood that, at the Council meeting tomorrow, Mr. Comay would list a total of nine El Fatah terrorist mining incidents perpetrated on Israeli soil in the last nine months.

It was hoped here today that, by tomorrow, the Council may have two further reports from Gen. Bull, resulting from sessions scheduled to be held today by, respectively, the Syrian-Israeli Mixed Armistice Commission and the Jordan-Israel Mixed Armistice Commission. Israel had complained to both of these commissions against the October 7-10 terrorism, one of which took place near the Jordanian border, the other near Syria.

### U.N. STARTS INSPECTION OF BORDERS ON BOTH SIDES; SYRIA DRAFTS 100,000

JERUSALEM, Oct. 19. (JTA) -- Israeli officials reacted with concern today to emergency regulations issued by Syrian officials last night, providing for general conscription to the "national defense militia." Observers here said that the conscription is compulsory, and would result in the recruitment of nearly 100,000 men.

At Israel's request, United Nations observers inspected Israel's side of the border today to help refute Syrian and Soviet allegations that Israel was plotting with "imperialists" to overthrow the Damascus regime.

Similar inspections were underway by UN observers on the Syrian side, raising the question of known Syrian troops and weapon concentration in the area. Syria several months ago concentrated heavy artillery and tanks on the border. Prior to the Syrian agreement to accept UN inspection, which the UN received only late last night, it was considered likely that the Syrian regime evacuated some of the men and weapons.

YADIN SAYS ISRAEL MUST USE FORCE IF UNITED NATIONS FAILS TO ACT

BALTIMORE, Oct. 19. (JTA) -- Gen. Yigael Yadin, former chief of staff of the Israel defense forces, told newsmen here today that Israel will have to use military force to halt border incursions if the United Nations fails to act. Commenting on the most recent acts of terrorism, the general said: "The Israelis can't take much more."

He voiced doubt that an Israeli reprisal against Syria would reunite the Arab world. He said the prospect for such reunification was "remote." Gen. Yadin said Israel could cope with Syria alone, but would need Western assistance if the Communists gave full-fledged support to Syria. He said he had little confidence that Syria would voluntarily halt the terroristic tactics.

ISRAELI COMMUNIST PARTY DISAVOWS SOVIET U.N. STAND AGAINST ISRAEL

TEL AVIV, Oct. 19. (JTA) -- The Israeli Communist Party dissociated itself today from the Soviet Union's position in the current Israeli-Syria conflict, and charged that Nikolai T. Federenko, the Soviet permanent representative at the United Nations, had "overlooked" facts concerning the situation. The Soviet spokesman has assailed Israel in favor of Syria since the Security Council starting debating Israel's current grievance against Syria.

An article in Kol Haam, the official newspaper of the Israel Communist party, asserted that Mr. Federenko had "overlooked the terror" which El Fatah guerillas had waged along the Israel border. Kol Haam said also that the Communist Party could not ignore the danger to Israel's sovereign existence stemming from such raids, but added a warning to Israel not to be pushed into retaliatory military actions.

HARE RESIGNS FROM STATE DEPARTMENT; HEADED POLICY ON MIDDLE EAST

WELLINGTON, New Zealand, Oct. 19. (JTA) -- President Johnson accepted today the resignation of Raymond A. Hare, Assistant Secretary of State for Near Eastern Affairs, so that Mr. Hare may assume the presidency of the Middle East Institute. Mr. Hare succeeds Kermit Roosevelt as president of the institute.

Mr. Roosevelt has been identified with anti-Israel and pro-Arab causes, although the institute officially avoids partisanship on the Israel-Arab issues. One of its founders, Edwin M. Wright, a former State Department official, openly espoused hostility toward Israel and advocacy of the Arab position.

President Johnson wrote Mr. Hare that "as President of the Middle East Institute, you will be carrying on important work in a vital area. We can all benefit from it." During his State Department career, Mr. Hare served as U.S. Ambassador to Saudi Arabia, Lebanon, Egypt, and Turkey. He became Assistant Secretary for Near Eastern Affairs in July, 1965.

KING OF MOROCCO, TUNISIAN PRESIDENT, SCHEDULED TO VISIT JOHNSON

WASHINGTON, Oct. 19. (JTA) -- President Johnson will meet here in November with King Hassan 2nd of Morocco and in June with President Habib Bourguiba of Tunisia, it was learned today. The United States was depicted as eager for the two Arab leaders to continue a moderating role in Arab and African affairs. The Bourguiba trip is likely to be a full-fledged state visit.

'ZIONISM MEANS SETTLEMENT IN ISRAEL', BEN-GURION TELLS UJA GROUP

TEL AVIV, Oct. 19. (JTA) -- Former Prime Minister David Ben-Gurion, used the forum of a birthday party given him last night by the 200-member 12th annual United Jewish Appeal mission to reiterate that "a Zionist is one who settles in Israel."

Until American Jews settle in Israel, he told the American and Canadian Jewish leaders, American Jewry must increase Hebrew education among the younger generation, learn the Bible in the original Hebrew to bring the young near to Judaism, and at the same time foster American Jewry. A huge birthday cake was presented to the former Premier.

The Israel Education Fund of the UJA is providing, through 21 current projects, jobs for more than 400 workers in a contribution to easing Israel's growing unemployment problem, Jack Weiler, of New York, a UJA national chairman, said yesterday in upper Nazareth.

He was one of the speakers at a ceremony dedicating the Moshe Sharett Comprehensive High School, constructed with funds provided by the Education Fund in memory of the late Foreign Minister and Prime Minister, and chairman of the Jewish Agency executive. The members of the UJA mission attended the ceremony. Speakers stressed that the high school would have a far-reaching effect on the area, because it would train technicians and craftsmen for the region's growing industrialization.

NCRAC ENDORSES STAND OF NEGRO LEADERS OPPOSING 'BLACK POWER' CRY

NEW YORK, Oct. 19. (JTA) -- The National Community Relations Advisory Council endorsed yesterday a statement by a group of Negro leaders, calling for reliance on peaceful means to achieve the goal of full equality for the Negro "in an integrated plural society." An Orthodox rabbinical leader warned today that the slogan "black power" and the reported deterioration in Negro-Jewish relations should not discourage rabbis from encouraging support of civil rights programs.

The NCRAC, representing nine national Jewish organizations, and 79 state and local Jewish community relations councils, endorsed the "Crisis and Commitment" statement issued recently by the Negro leaders. The NCRAC statement asserted that the rate of peaceful progress toward the goal of full equality for American Negroes "must be accelerated dramatically to reverse the dangerous drift toward polarization, social disorganization and violence." The NCRAC said it agreed with the Negro leaders that they could not achieve these goals alone but only through "a coalition of all groups and individuals committed to the attainment of equality, under law and within the American political system." On that basis, the NCRAC pledged its member organizations to "full cooperation" in building and maintaining such a coalition.

The Orthodox spokesman, Rabbi Emanuel Rackman, assistant to the president of Yeshiva University, also said rabbis should increase their involvement in the war against poverty, even to the extent of urging congregants to "welcome the necessary heavy taxes as a privilege rather than a burden." Dr. Rackman spoke at the 23rd annual Yeshiva University Rabbinic Alumni Convention in Monsey, N.Y.

He said that rabbis should recognize the advocates of "black power" were referring to the "power of the vote, not violence." He said that statements by such advocates that they wanted Negroes to run their own movements should not be "exaggerated" by Jews. Such statements, he said, were made "in the same voice as Zionists in Israel, who have complained that American Zionists are interfering in their affairs."

Yeshiva Alumni Hoar Shortage of Rabbis Has Reached Critical Stage

MONSEY, N.Y. Oct. 19. (JTA) -- The shortage of rabbis has reached crisis proportions across the United States, especially in areas outside the metropolitan centers, Rabbi Herbert C. Dobrinsky, director of rabbinic placement of Yeshiva University's Community Service Division, warned here today.

Addressing the 23rd annual convention of Yeshiva University Rabbinic Alumni, Rabbi Dobrinsky said the "demand for pulpit rabbis far exceeds the availability of rabbis to fill these posts, even though there has been a small increase in their number in each of the past four years." He said the increase has fallen far short of the needs that have arisen, as the Jewish community flocks in much greater numbers and frequency to synagogues.

HEBREW TEACHERS STRIKE IN DETROIT AVERTED; BARGAINING IS UNDER WAY

DETROIT, Oct. 19. (JTA) -- Bargaining was under way here today between spokesmen for Shaarey Zedek Congregation and the Hebrew Teachers Association on a new contract, after an all-day meeting averted a threatened strike by the Hebrew teachers in the synagogue's religious school.

A committee of the congregation rejected an overwhelming vote by the entire congregation to sustain the board and its education committee in the firing of two veteran Hebrew teachers. The committee negated the dismissals and restored the teachers, Sol Panush and Jacob Golany, to their classes at Shaarey Zedek, one of the largest Conservative synagogues in the United States.

The Hebrew Teachers Association had filed a complaint of unfair labor practices against the congregation with the State Labor Mediation Board, the first action of this kind in the history of Jewish education in Detroit. The strike had been scheduled for October 23, and also would have been a first action of its nature here.

After strenuous talks Sunday, a statement was issued saying that the congregation and the Hebrew Teachers Association had reached agreement to rescind the dismissal of the two teachers, and to reinstate them. The union agreed to withdraw notice of intent to strike and the unfair labor practices complaint. The statement said bargaining would continue "until a satisfactory contract has been completed."

HIGHEST N.Y. COURT REJECTS PLEA BY JEW FORCED TO VOTE IN A CHURCH

ALBANY, N.Y., Oct. 19. (JTA) -- A complaint by a New York City Jewish voter that his voting rights had been "impaired" because he had to register and vote in a church hall was dismissed yesterday by the New York State Court of Appeals, the highest court.

Without a written opinion, the high court upheld decisions of lower tribunals which rejected the complaint by Morris Berman.

'TORAH UMESORAH' OPPOSES N.Y. BAN ON FUNDS FOR RELIGIOUS SCHOOLS

NEW YORK, Oct. 19. (JTA) -- Torah Umesorah, the National Society for Hebrew Day Schools, has called for the repeal of the New York State constitutional prohibition on state financial aid to schools sponsored by religious groups.

Testifying before the Temporary Commission on the Constitutional Convention, Herman Cahn, representing the Hebrew day school group, said that the Federal Constitution was sturdy enough to protect the principle of church-state separation and that the state's restrictive amendment was superfluous and unnecessarily restrictive. The Temporary Commission is conducting hearings in preparation for the Constitutional Convention to be held next spring.

Asserting that it was important that pupils in religion-sponsored schools receive as good an education in non-religious subjects as do other children, Mr. Cahn said that the restrictive amendment now in the Constitution was discriminatory, and relegated students in religious schools to the status of second-class citizenship.

JOHNSON APPROVES BALTIMORE JEW, REUBEN STERNFELD, TO NEW U.S. POST

WASHINGTON, Oct. 19. (JTA) -- President Johnson has approved appointment of Reuben Sternfeld, an expert on international development, as alternate U.S. executive director of the Inter-American Development Bank. Mr. Sternfeld, who attended Talmud Torah in Baltimore, visited Israel in the course of his duties with the U.S. Agency for International Development. He has been associate U.S. coordinator for the Alliance for Progress since 1965. In his new post at the Inter-American Development Bank, Mr. Sternfeld will serve as alternate to the director, True Davis.

WHITE HOUSE NAMES FREDERICK R. MANN AS DELEGATE TO UNESCO SESSION

WASHINGTON, Oct. 19. (JTA) -- Frederick R. Mann, Philadelphia businessman active in philanthropic enterprises in Israel, was named today by the White House as an alternate representative of the United States to the forthcoming 14th session of the United Nations Educational, Scientific and Cultural Organization.

BLAUSTEIN VOTED SCOPUS AWARD BY AMERICAN FRIENDS OF THE HEBREW U.

NEW YORK, Oct. 19. (JTA) -- Jacob Blaustein, of Baltimore, has been named to receive the 1966 Scopus Award, it was announced here today by Nathaniel L. Goldstein, president of the American Friends of the Hebrew University. The Award, which is the highest distinction given by the American Friends, will be presented to Mr. Blaustein on November 21, at a dinner in his honor at the Waldorf Astoria in New York. Irving Mitchell Felt, of New York, is chairman.

Mr. Blaustein is an honorary president and former president of the American Jewish Committee. He has served under the last five Presidents of the United States, is currently a presidential representative on the board of governors of the USO, and a consultant to the State Department on international business problems, as well as a senior vice-president of the Conference on Jewish Material Claims Against Germany.

NONSECTARIAN FRATERNITY CITES ABRAM FOR AIDING BETTER HUMAN RELATIONS

NEW YORK, Oct. 19. (JTA) -- Morris B. Abram, president of the American Jewish Committee, accepted today an honorary membership in Zeta Beta Tau, a Greek letter fraternity, "because its doors are open to people of all backgrounds."

He was presented with the fraternity's Gottheil Medal, and was initiated at the same time into the fraternity. The medal is presented to persons whose activities best promote better human understanding in relationships among all peoples. Established in 1898, it was the first Greek letter society open to Jewish undergraduates. Later it became non-sectarian and interracial.

SAMUEL DAROFF HEADS JNF GROUP TO DEVELOP BEN-GURION PARK IN ISRAEL

NEW YORK, Oct. 19. (JTA) -- The Jewish National Fund of America announced today appointment of Samuel J. Daroff, Philadelphia Jewish communal and Zionist leader, as chairman of a national committee to honor Israel's former Prime Minister David Ben-Gurion, in connection with his 80th birthday. Herman L. Weisman, president of the JNF, said the committee will be made up of 100 leading American Jews.

Mr. Daroff will lead a JNF project to establish a Ben-Gurion park around Dimona, the Negev city projected by the former Prime Minister. The Ben-Gurion Park, a 150-acre site, will include a forest and land for a hospital and sports stadium.
